The Senate proceeded to the sixth order of business.

Senators Ferns, Yost, Kessler, Leonhardt and Stollings offered the following resolution:

**Senate Resolution No. 49**—Recognizing Bethany College on the 175th anniversary of its charter.

Whereas, Bethany College, located at Bethany, Ohio County, was chartered by the Commonwealth of Virginia as a four-year liberal arts college on March 2, 1840, and was recognized as a college by the new State of West Virginia in 1863, and is therefore, the oldest college in the State of West Virginia; and

Whereas, Alexander Campbell, one of the principal founders of the Christian Church (Disciples of Christ) in the United States established Bethany College for the “Instruction of youth in the various branches of science and literature; the useful arts and foreign languages” and while Bethany College is affiliated with the Christian Church, the church exercises no sectarian control on the college; and

Whereas, Bethany College has provided its students with an excellent education to prepare them for service in a myriad of careers including the law, (Thomas Buergenthal, retired International Court of Justice, the Hague) medicine (Dr. John Niederhuber, chief executive officer, Inova Translational Medicine Institute), community service, (Dr. Arthur B. Keys Jr., former CEO International relief and Development) as well as broadcasters Dave Sims (Seattle Mariners), Faith Daniels and Bob Orr among many others; and

Whereas, Bethany College has benefitted from talented faculty members including Amos Emerson Dolbear, American physicist and inventor, who, while serving on the faculty at Bethany College in 1868, invented the electric static telephone, but even before that, had invented the first permanent magnet and metallic diaphragm for the telephone receiver. He was not sophisticated in the U. S. patent laws and lost out on the invention of the telephone to Alexander Graham Bell, even
though his invention predated Bell’s by 11 years. However, Marconi had to purchase Dolbear’s patent to market his radio in the U. S.; and

Whereas, Bethany College has benefitted from excellent lay leaders through the years, including U. S. President James A. Garfield, who served on the Bethany College board of trustees from 1866 until 1881, and was serving as a BC trustee at the time of his assassination. President Garfield was lieutenant in the Union Army and a staunch advocate for civil rights after the war and although he only served a few months in office, he appointed several former slaves including Frederick Douglass to prominent government positions; and

Whereas, In addition to President Garfield, four other U. S. presidents have visited the Bethany College campus including John F. Kennedy, Lyndon B. Johnson, Richard M. Nixon and Gerald Ford. In addition, from 1840, when Alexander Campbell served as the first president of the college, only 19 individuals have served as president with Scott D. Miller, Ph. D., now serving in that position. Among the 19 presidents, the late, Governor Cecil Underwood served as Bethany College’s 13th president and served from 1972-1975; and

Whereas, Bethany College admitted female students in 1877 and has continued its commitment to provide a quality liberal arts education to students from 28 states, the District of Columbia, Puerto Rico and nine countries; therefore, be it

Resolved by the Senate:

That the Senate hereby recognizes Bethany College on the 175th anniversary of its charter; and, be it

Further Resolved, That the Clerk is hereby directed to forward a copy of this resolution to the appropriate officials of Bethany College.

nothing herein provided shall be construed to require or mandate any level of funding by the Legislature.

(3) In instances where a county is unable to collect property taxes from a taxpayer during the pendency of any court proceeding, the allocated state aid share shall be the county’s basic foundation program minus the local share as computed under section eleven of this article, plus the amount the county is unable to collect as a result of the pending court proceedings as certified by the Tax Commissioner: Provided, That the county is required to reimburse the amount of allocated state aid share attributable to the amount of property tax it later receives upon completion of court proceedings, which shall be paid into the General Revenue Fund of the state: Provided, however, That said adjustment shall not be made or shall only be made proportionately when the Legislature fails to fund or funds only in part the public school basic foundation support plan state share at a level sufficient to cover the reduction in state share: Provided further, That nothing herein provided shall be construed to require or mandate any level of funding by the Legislature.

(c) The allocated state aid share shall be adjusted in any county receiving payments or contributions in lieu of property taxes. In instances where a county receives payments or contributions in lieu of property taxes, the allocated state aid share shall be the county’s basic foundation program minus the local share as computed under section eleven of this article, plus any amounts added pursuant to subsection (b) of this section minus the payments or contributions in lieu of property taxes which are distributed by the sheriff to the county board of education. In determining the amount of such contribution or payment in lieu of taxes, each county commission shall provide to the
State Tax Commissioner, by January 1 of each year, the total amount of such payments or contributions paid to the county and the proportion of the total amount that has been or will be distributed to the county board of education. The State Tax Commissioner then shall provide the State board, by January 15 of each year, a certified listing of those counties in which an adjustment pursuant to this section shall be made, together with the amount of revenue which will be available to each county board in the ensuing fiscal year as a result of contribution or payment in lieu of taxes.

(d) Total basic state aid to the county shall be the computed state share of basic foundation support. ARTICLE 14. HATFIELD-MCCOY REGIONAL RECREATION AUTHORITY.

§20-14-1. Legislative findings.
The West Virginia Legislature finds that there is a significant need within the state and throughout the eastern United States for well-managed facilities for trail-oriented recreation for off-highway motor vehicle enthusiasts, mountain bicyclists, equestrians and others. The Legislature further finds that under an appropriate contractual and management scheme, well-managed, trail-oriented recreation facilities could exist on private property without diminishing the landowner’s interest, control or profitability in the land and without increasing the landowner’s exposure to liability.

The Legislature further finds that, with the cooperation of private landowners, there is an opportunity to provide trail-oriented recreation facilities primarily on private property in the mountainous terrain of southern West Virginia and that the facilities will provide significant economic and recreational benefits to the state and to the communities in southern West Virginia through increased tourism in the same manner as whitewater rafting and snow skiing benefit the state and communities surrounding those activities.

The Legislature further finds that the creation and empowering of a statutory corporation joint development entity to work with the landowners, county officials and community leaders, state and federal government agencies, recreational user groups and other interested parties to enable and facilitate the implementation of the facilities will greatly assist in the realization of these potential benefits.

The Legislature further finds that it is in the best interests of the state to encourage private landowners to make available for public use through the Hatfield-McCoy Regional Recreation Authority land for these recreational purposes by limiting their liability for injury to persons entering thereon, by limiting their liability for injury to the property of persons entering thereon and by limiting their liability to persons who may be injured or otherwise damaged by the acts or omissions of persons entering thereon.

Whereas, Corporal John Anthony Gero was a sniper in the 1st Platoon, Company G, 2nd Battalion, 3rd Marines, 3rd Marine Division; and

Whereas, Corporal John Anthony Gero was mortally wounded by friendly fire in combat in Vietnam and died on the U. S. Hospital Ship, USS Sanctuary, June 29, 1968; and

Whereas, Corporal John Anthony Gero was buried with honors at Fort Rosecrans Military Cemetery in San Diego, California; and

Whereas, Corporal John Anthony Gero was a late-discovered qualifying West Virginian to have his name on the State Capitol military monument and his name is on a list to be added to the monument in the future; therefore, be it

Resolved by the Legislature of West Virginia:

A TNC is not deemed to own, control, operate or manage the vehicles used by TNC drivers and is not a taxicab association or a for-hire vehicle owner.

(b) “Transportation network company (TNC) driver” means an individual who operates a motor vehicle that is:

(1) Owned, leased or otherwise authorized for use by the individual;

(2) Not a taxicab; and

(3) Used to provide transportation network company services.

(c) “Transportation network company (TNC) service” means transportation of a passenger between points chosen by the passenger and prearranged with a TNC driver through the use of a TNC digital network or software application. CHAPTER 8. MUNICIPAL CORPORATIONS.

ARTICLE 19. MUNICIPAL AND COUNTY WATERWORKS AND ELECTRIC POWER SYSTEMS.

§8-12-17. Sale or lease of municipal public utility.

In any case where a municipality owns a gas system, an electric system, a waterworks system, a sewer system or other public utility, and a majority of not less than sixty percent of the members of the governing body deem it for the best interest of such municipality that such utility be sold or leased, the governing body may so sell or lease such gas system, electric system, waterworks system, sewer system or other public utility upon such terms and conditions as said governing body, in its discretion, considers in the best interest of the municipality: Provided, That such sale or lease may be made only upon: (1) The publication of notice of a hearing before the governing body of the municipality, as a Class I legal advertisement in compliance with the provisions of article three, chapter fifty-nine of this code, in a newspaper published and of general circulation in the municipality, such publication to be made not earlier than twenty days and not later than seven days prior to the hearing; and (2) the approval by the Public Service Commission of West Virginia. The governing body, upon the approval of the sale or lease by a majority of its members of not less than sixty percent of the members of the governing body, shall have full power and authority to proceed to execute or effect such sale or lease in accordance with the terms and conditions approved as aforesaid, and shall have power to do any and all things necessary or incident thereto: Provided, That if at any time after such approval and before the execution of the authority, any person should present to the governing body an offer to buy such public utility at a price which exceeds by at least five percent the sale
price which shall have been so approved and authorized or to lease the same upon terms which the governing body, in its discretion, shall consider more advantageous to the municipality than the terms of the lease which shall have been previously approved, the governing body shall have the power to accept such subsequent offer and to make such sale or such lease to the person making the offer, upon approval of the offer by a majority of not less than sixty percent of the members of the governing body; if a sale shall have been approved by the governing body, and such subsequent proposition be for a lease, or, if a lease shall have been approved by the governing body, and the subsequent proposition shall be for a sale, the governing body shall have the authority to accept the same upon approval of the offer by a majority of not less than sixty percent of the members of the governing body. The person making such proposition shall furnish bond, with security to be approved by the governing body, in a penalty of not less than twenty-five percent of such proposed bid, conditioned to carry such proposition into execution, if the same shall be approved by the governing body. In any case where any such public utility shall be sold or leased by the governing body as hereinabove provided, no part of the moneys derived from such sale or lease shall be applied to the payment of current expenses of the municipality, but the proceeds of such sale or lease shall be applied in payment and discharge of any indebtedness created in respect to such public utility and, in case there be no indebtedness, the governing body, in its discretion, shall have the power and authority to expend all such moneys when received for the purchase or construction of fire-fighting equipment and buildings for housing such equipment, a municipal building or city hall, and the necessary land upon which to locate the same, or for the construction of paved streets, avenues, roads, alleys, ways, sidewalks, sewers and other like permanent improvements, and for no other purposes. In case there be a surplus after the payment of such indebtedness, the surplus shall be used as aforesaid.

The requirements of this section shall not apply to the sale or lease of any part of the properties of any such public utility determined by the governing body to be unnecessary for the efficient rendering of the service of such utility.
§8-16-19. Appeal to Public Service Commission from rates fixed.

If any party in interest is dissatisfied with the rates fixed under the provisions of the immediately preceding section of this article section eighteen, article sixteen, chapter eight of this code, such party shall have the right to appeal to the Public Service Commission at any time within thirty days after the fixing of such rates by the governing body, but the rates so fixed by the governing body shall remain in full force and effect, until set aside, altered or amended by the Public Service Commission.

ARTICLE 19. MUNICIPAL AND COUNTY WATERWORKS AND ELECTRIC POWER SYSTEMS.

PART IV. REVENUE BOND FINANCING.

§8-19-4. Estimate of cost; ordinance or order for issuance of revenue bonds; interest on bonds; rates for services; exemption from taxation.

Whenever a municipality or county commission shall, under the provisions of this article, determine to acquire, by purchase or otherwise, construct, establish, extend or equip a waterworks system or an electric power system, or to construct any additions, betterments or improvements to any waterworks or electric power system, it shall cause an estimate to be made of the cost thereof, and may, by ordinance or order, provide for the issuance of revenue bonds under the provisions of this article, which ordinance or order shall set forth a brief description of the contemplated undertaking, the estimated cost thereof, the amount, rate or rates of interest, the time and place of payment and other details in connection with the issuance of the bonds. Such The bonds shall be in such form and shall be negotiated and sold in such manner and upon such terms as the governing body of such municipality or county commission may, by ordinance or order, specify. All such the bonds and the interest thereon shall be exempt from all taxation by this state, or any county, municipality or county commission, political subdivision or agency thereof. Notwithstanding any other provision of this code to the contrary, the real and personal property which a municipality or county has acquired and constructed
according to the provisions of this article, and any leasehold interest therein held by other persons, shall be deemed public property and shall be exempt from taxation by the state, or any county, municipality or other levying body, so long as the same is owned by such the municipality or county: Provided, That with respect to electric power systems, this exemption for real and personal property shall be applicable only for such the real and personal property: (1) Physically situate within the municipal or county boundaries of the municipality or county which acquired or constructed such the electric power system and there was in place prior to the effective date of the amendments to this section made in the year 1992 an agreement between the municipality and the county commission for payments in lieu of tax; or (2) acquired or constructed with the written agreement of the county school board, county commission and any municipal authority within whose jurisdiction the electric power system is or is to be physically situate. Notwithstanding anything contained in this statute to the contrary, this exemption shall be applicable to any leasehold or similar interest held by persons other than a municipality or county only if acquired or constructed with the written agreement of the county school board, county commission and any municipal authority within whose jurisdiction the electric power system is or is to be physically situate: Provided, however, That payments made to any county commission, county school board or municipality in lieu of tax pursuant to such an agreement shall be distributed as if the payments resulted from ad valorem property taxation. Such The bonds shall bear interest at a rate per annum set by the municipality or county commission, payable at such times, and shall be payable as to principal at such times, not exceeding fifty years from their date, and at such place or places, within or without the state, as shall be prescribed in the ordinance or order providing for their issuance. Unless the governing body of the municipality or county commission shall otherwise determine, such the ordinance or order shall also declare that a statutory mortgage lien shall exist upon the property so to be acquired, constructed, established, extended or equipped, fix minimum rates or charges for water or electricity to be collected prior to the payment of all of said bonds and shall pledge the
revenues derived from the waterworks or electric power system for the purpose of paying such the bonds and interest thereon, which pledge shall definitely fix and determine the amount of revenues which shall be necessary to be set apart and applied to the payment of the principal of and interest upon the bonds and the proportion of the balance of such the revenues, which are to be set aside as a proper and adequate depreciation account, and the remainder shall be set aside for the reasonable and proper maintenance and operation thereof. The rates or charges to be charged for the services from such the waterworks or electric power system shall be sufficient at all times to provide for the payment of interest upon all bonds and to create a sinking fund to pay the principal thereof as and when the same become due, and reasonable reserves therefor, and to provide for the repair, maintenance and operation of the waterworks or electric power system, and to provide an adequate depreciation fund, and to make any other payments which shall be required or provided for in the ordinance or order authorizing the issuance of said bonds.

CHAPTER 16. PUBLIC HEALTH.

ARTICLE 13A. PUBLIC SERVICE DISTRICTS.

The jurisdiction of the Public Service Commission relating to public service districts shall be expanded to include the following powers and such the powers shall be in addition to all other powers of the Public Service Commission set forth in this code:

(a) To study, modify, approve, deny or amend the plans created under section one-b of this article for consolidation or merger of public service districts and their facilities, personnel or administration;

(b) To petition the appropriate circuit court for the removal of a public service district board member or members; and

(c) To create by general order a separate division within the Public Service Commission to provide assistance to public service districts in
technological, operational, financial and regulatory matters, including, upon written request of the public service board, assistance to the board in deliberations regarding a proposed rate change or project.

§16-13A-9. Rules; service rates and charges; discontinuance of service; required water and sewer connections; lien for delinquent fees.

(a) (1) The board may make, enact and enforce all needful rules in connection with the acquisition, construction, improvement, extension, management, maintenance, operation, care, protection and the use of any public service properties owned or controlled by the district. The board shall establish, in accordance with this article, rates, fees and charges for the services and facilities it furnishes, which shall be sufficient at all times, notwithstanding the provisions of any other law or laws, to pay the cost of maintenance, operation and depreciation of the public service properties and principal of and interest on all bonds issued, other obligations incurred under the provisions of this article and all reserve or other payments provided for in the proceedings which authorized the issuance of any bonds under this article. The schedule of the rates, fees and charges may be based upon:

(A) The consumption of water or gas on premises connected with the facilities, taking into consideration domestic, commercial, industrial and public use of water and gas;

(B) The number and kind of fixtures connected with the facilities located on the various premises;

(C) The number of persons served by the facilities;

(D) Any combination of paragraphs (A), (B) and (C) of this subdivision; or

(E) May be determined on any other basis or classification which the board may determine to be fair and reasonable, taking into consideration the location of the premises served and the nature and extent of the services and facilities furnished. However, no rates, fees
or charges for stormwater services may be assessed against highways, road and drainage easements or stormwater facilities constructed, owned or operated by the West Virginia Division of Highways.

(2) The board of a public service district with annual combined gross revenue of $3 million or more from its separate or combined services may make, enact and enforce all needful rules in connection with the enactment or amendment of rates, fees and charges of the district. At a minimum, these rules shall provide for:

(A) Adequate prior public notice of the contemplated rates, fees and charges by causing a notice of intent to effect such a change to be specified on the monthly billing statement of the customers of the district for the month next preceding the month in which the contemplated change is to be before the board on first reading.

(B) Adequate prior public notice of the contemplated rates, fees and charges by causing to be published as a Class I legal advertisement of the proposed action, in compliance with the provisions of article three, chapter fifty-nine of this code. The publication area for publication shall be all territory served by the district. If the district provides service in more than one county, publication shall be made in a newspaper of general circulation in each county that the district provides service.

(C) The public notice of the proposed action shall state the current rates, fees and charges and the proposed changes to said rates, fees and charges; the date, time and place of both a public hearing on the proposal and the proposed final vote on adoption; and the place or places within the district where the proposed rates, fees and charges may be inspected by the public. A reasonable number of copies of the proposal shall be kept at the place or places and be made available for public inspection. The notice shall also advise that interested parties may appear at the public hearing before the board and be heard with respect to the proposed rates, fees and charges.
The proposed rates, fees and charges shall be read at two meetings of the board with at least two weeks intervening between each meeting. The public hearing may be conducted with or following the second reading.

Rates, fees and charges approved by an affirmative vote of the board shall be forwarded in writing to the county commission appointing the approving board. The county commission shall publish notice of the proposed rates, fees and charges by a Class I legal advertisement in compliance with the provisions of article three, chapter fifty-nine of this code. Within forty-five days of receipt of the proposed rates, fees and charges, the county commission shall take action to approve or reject the proposed rates, fees and charges. After forty-five days, and absent action by the county commission, the proposed rates, fees and charges shall be effective with no further action by the board or county commission. In any event, this 45-day period may be extended by the official action of both the board proposing the rates, fees and charges, and the appointing county commission.

Enactment of the proposed rates, fees and charges shall follow an affirmative vote or inaction by the county commission and shall be effective no sooner than forty-five days following action or inaction by the county commission. The 45-day waiting period may be waived by public vote of the county commission only if the commission finds and declares the district to be in financial distress such that the 45-day waiting period would be detrimental to the ability of the district to deliver continued and compliant public services.

Where water, sewer, stormwater or gas services, or any combination thereof, are all furnished to any premises, the schedule of charges may be billed as a single amount for the aggregate of the charges. The board shall require all users of services and facilities furnished by the district to designate on every application for service whether the applicant is a tenant or an owner of the premises to be served. If the applicant is a tenant, he or she shall state the name and address of the owner or owners of the premises to be served by the
district. Notwithstanding the provisions of section eight, article three, chapter twenty-four of this code to the contrary, all new applicants for service shall deposit the greater of a sum equal to two twelfths of the average annual usage of the applicant’s specific customer class or $50, with the district to secure the payment of service rates, fees and charges in the event they become delinquent as provided in this section. If a district provides both water and sewer service, all new applicants for service shall deposit the greater of a sum equal to two twelfths of the average annual usage for water service or $50 and the greater of a sum equal to two twelfths of the average annual usage for wastewater service of the applicant’s specific customer class or $50. In any case where a deposit is forfeited to pay service rates, fees and charges which were delinquent at the time of disconnection or termination of service, no reconnection or reinstatement of service may be made by the district until another deposit equal to the greater of a sum equal to two twelfths of the average usage for the applicant’s specific customer class or $50 has been remitted to the district. After twelve months of prompt payment history, the district shall return the deposit to the customer or credit the customer’s account at a rate as the Public Service Commission may prescribe: Provided, That where the customer is a tenant, the district is not required to return the deposit until the time the tenant discontinues service with the district. Whenever any rates, fees, rentals or charges for services or facilities furnished remain unpaid for a period of twenty days after the same become due and payable, the user of the services and facilities provided is delinquent and the user is liable at law until all rates, fees and charges are fully paid. The board may, under reasonable rules promulgated by the Public Service Commission, shut off and discontinue water or gas services to all delinquent users of either water or gas facilities, or both, ten days after the water or gas services become delinquent: Provided, however, That nothing contained within the rules of the Public Service Commission shall be deemed to require any agents or employees of the board to accept payment at the customer’s premises in lieu of discontinuing service for a delinquent bill.

(b) In the event that any publicly or privately owned utility, city, incorporated town, other municipal corporation or other public service
district included within the district owns and operates separately water facilities, sewer facilities or stormwater facilities and the district owns and operates another kind of facility, either water or sewer, or both, as the case may be, then the district and the publicly or privately owned utility, city, incorporated town or other municipal corporation or other public service district shall covenant and contract with each other to shut off and discontinue the supplying of water service for the nonpayment of sewer or stormwater service fees and charges: Provided, That any contracts entered into by a public service district pursuant to this section shall be submitted to the Public Service Commission for approval. Any public service district which provides water and sewer service, water and stormwater service or water, sewer and stormwater service has the right to terminate water service for delinquency in payment of water, sewer or stormwater bills. Where one public service district is providing sewer service and another public service district or a municipality included within the boundaries of the sewer or stormwater district is providing water service and the district providing sewer or stormwater service experiences a delinquency in payment, the district or the municipality included within the boundaries of the sewer or stormwater district that is providing water service, upon the request of the district providing sewer or stormwater service to the delinquent account, shall terminate its water service to the customer having the delinquent sewer or stormwater account: Provided, however, That any termination of water service must comply with all rules and orders of the Public Service Commission: Provided further, That nothing contained within the rules of the Public Service Commission shall be deemed to require any agents or employees of the public service districts to accept payment at the customer’s premises in lieu of discontinuing service for a delinquent bill.

(c) Any district furnishing sewer facilities within the district may require or may, by petition to the circuit court of the county in which the property is located, compel or may require the Division of Health to compel all owners, tenants or occupants of any houses, dwellings and buildings located near any sewer facilities where sewage will flow by gravity or be transported by other methods approved by the Division of Health, including, but not limited to, vacuum and pressure
systems, approved under the provisions of section nine, article one, chapter sixteen of this code, from the houses, dwellings or buildings into the sewer facilities, to connect with and use the sewer facilities and to cease the use of all other means for the collection, treatment and disposal of sewage and waste matters from the houses, dwellings and buildings where there is gravity flow or transportation by any other methods approved by the Division of Health, including, but not limited to, vacuum and pressure systems, approved under the provisions of section nine, article one, chapter sixteen of this code and the houses, dwellings and buildings can be adequately served by the sewer facilities of the district and it is declared that the mandatory use of the sewer facilities provided for in this subsection is necessary and essential for the health and welfare of the inhabitants and residents of the districts and of the state. If the public service district requires the property owner to connect with the sewer facilities even when sewage from dwellings may not flow to the main line by gravity and the property owner incurs costs for any changes in the existing dwellings’ exterior plumbing in order to connect to the main sewer line, the public service district board shall authorize the district to pay all reasonable costs for the changes in the exterior plumbing, including, but not limited to, installation, operation, maintenance and purchase of a pump or any other method approved by the Division of Health. Maintenance and operation costs for the extra installation should be reflected in the users charge for approval of the Public Service Commission. The circuit court shall adjudicate the merits of the petition by summary hearing to be held not later than thirty days after service of petition to the appropriate owners, tenants or occupants.

(d) Whenever any district has made available sewer facilities to any owner, tenant or occupant of any house, dwelling or building located near the sewer facility and the engineer for the district has certified that the sewer facilities are available to and are adequate to serve the owner, tenant or occupant and sewage will flow by gravity or be transported by other methods approved by the Division of Health from the house, dwelling or building into the sewer facilities, the district may charge, and the owner, tenant or occupant shall pay, the rates and charges for services established under this article only
after thirty-day notice of the availability of the facilities has been received by the owner, tenant or occupant. Rates and charges for sewage services shall be based upon actual water consumption or the average monthly water consumption based upon the owner’s, tenant’s or occupant’s specific customer class.

(e) The owner, tenant or occupant of any real property may be determined and declared to be served by a stormwater system only after each of the following conditions is met: (1) The district has been designated by the Environmental Protection Agency as an entity to serve a West Virginia Separate Storm Sewer System community, as defined in 40 C. F. R. §122.26; (2) the district’s authority has been properly expanded to operate and maintain a stormwater system; (3) the district has made available a stormwater system where stormwater from the real property affects or drains into the stormwater system; and (4) the real property is located in the Municipal Separate Storm Sewer System’s designated service area. It is further hereby found, determined and declared that the mandatory use of the stormwater system is necessary and essential for the health and welfare of the inhabitants and residents of the district and of the state. The district may charge and the owner, tenant or occupant shall pay the rates, fees and charges for stormwater services established under this article only after thirty-days’ notice of the availability of the stormwater system has been received by the owner. An entity providing stormwater service shall provide a tenant a report of the stormwater fee charged for the entire property and, if appropriate, that portion of the fee to be assessed to the tenant.

(f) All delinquent fees, rates and charges of the district for either water facilities, sewer facilities, gas facilities or stormwater systems or stormwater management programs are liens on the premises served of equal dignity, rank and priority with the lien on the premises of state, county, school and municipal taxes. Nothing contained within the rules of the Public Service Commission shall be deemed to require any agents or employees of the public service districts to accept payment at the customer’s premises in lieu of discontinuing service for a delinquent bill. In addition to the other remedies provided in this
section, public service districts are granted a deferral of filing fees or other fees and costs incidental to the bringing and maintenance of an action in magistrate court for the collection of delinquent water, sewer, stormwater or gas bills. If the district collects the delinquent account, plus reasonable costs, from its customer or other responsible party, the district shall pay to the magistrate the normal filing fee and reasonable costs which were previously deferred. In addition, each public service district may exchange with other public service districts a list of delinquent accounts: *Provided*, That an owner of real property may not be held liable for the delinquent rates or charges for services or facilities of a tenant, nor may any lien attach to real property for the reason of delinquent rates or charges for services or facilities of a tenant of the real property, unless the owner has contracted directly with the public service district to purchase the services or facilities.

(g) Anything in this section to the contrary notwithstanding, any establishment, as defined in section three, article eleven, chapter twenty-two of this code, now or hereafter operating its own sewage disposal system pursuant to a permit issued by the Department of Environmental Protection, as prescribed by section eleven of said article, is exempt from the provisions of this section.

(h) A public service district which has been designated by the Environmental Protection Agency as an entity to serve a West Virginia Separate Storm Sewer System community shall prepare an annual report detailing the collection and expenditure of rates, fees or charges and make it available for public review at the place of business of the governing body and the stormwater utility main office.

§16-13A-25. Borrowing and bond issuance; procedure.

(a) Notwithstanding any other provisions of this article to the contrary, a public service district may not have plenary power to borrow money, enter into contracts for the provision of engineering, design or feasibility studies, issue or contract to issue revenue bonds or exercise any of the powers conferred by the provisions of section thirteen, twenty or twenty-four of this article, without the prior consent and approval of the Public Service Commission: *Provided*, That approval of funding set forth in section eleven, article two,
chapter twenty-four of this code or this section is not required if the funding is for a project which has received a certificate of public convenience and necessity after July 8, 2005, from the commission and where the cost of the project changes but the change does not affect the rates established for the project. Upon written request of the public service board contemplating such transaction or project, the Public Service Commission shall provide technical support to the public service board, including, but not limited to, engineering, design and financial analysis of the proposed transaction or project.

(b) The Public Service Commission may waive the provision of prior consent and approval for entering into contracts for engineering, design or feasibility studies pursuant to this section for good cause shown which is evidenced by the public service district filing a request for waiver of this section stated in a letter directed to the commission with a brief description of the project, a verified statement by the board members that the public service district has complied with chapter five-g of this code, and further explanation of ability to evaluate their own engineering contract, including, but not limited to:

(b) In the event that the public service district has significant insufficiencies in either its bond revenue or bond reserve accounts, or is otherwise in breach of a bond covenant, a bondholder may petition the circuit court of Kanawha County for such redress as will bring the accounts into compliance with bond covenants pledged by the district.

(1) Experience with the same engineering firm; or

(2) Completion of a construction project requiring engineering services. The district shall also forward an executed copy of the engineering contract to the commission after receiving approval of the waiver.

(c) An engineering contract that meets one or more of the following criteria is exempt from the waiver or approval requirements:
(1) A contract with a public service district that is a Class A utility on April 1, 2003, or subsequently becomes a Class A utility as defined by commission rule;

(2) A contract with a public service district that does not require borrowing and that can be paid out of existing rates;

(3) A contract where the payment of engineering fees are contingent upon the receipt of funding, and commission approval of the funding, to construct the project which is the subject of the contract; or

(4) A contract that does not exceed $15,000.

(d) Requests for approval or waivers of engineering contracts shall be deemed granted thirty days after the filing date unless the staff of the Public Service Commission or a party files an objection to the request. If an objection is filed, the Public Service Commission shall issue its decision within one hundred twenty days of the filing date. In the event objection is received to a request for a waiver, the application shall be considered a request for waiver as well as a request for approval in the event a waiver is not appropriate:

(e) Unless the properties to be constructed or acquired represent ordinary extensions or repairs of existing systems in the usual course of business, a public service district must first obtain a certificate of public convenience and necessity from the Public Service Commission in accordance with the provision of chapter twenty-four of this code when a public service district is seeking to acquire or construct public service property.

CHAPTER 24. PUBLIC SERVICE COMMISSION.

ARTICLE 1. GENERAL PROVISIONS.

§24-1-1. Legislative purpose and policy; plan for internal reorganization; promulgation of plan as rule; cooperation with Joint Committee on Government and Finance.
(a) It is the purpose and policy of the Legislature in enacting this chapter to confer upon the Public Service Commission of this state the authority and duty to enforce and regulate the practices, services and rates of public utilities in order to:

(1) Ensure fair and prompt regulation of public utilities in the interest of the using and consuming public;

(2) Provide the availability of adequate, economical and reliable utility services throughout the state;

(3) Encourage the well-planned development of utility resources in a manner consistent with state needs and in ways consistent with the productive use of the state’s energy resources, such as coal;

(4) Ensure that rates and charges for utility services are just, reasonable, applied without unjust discrimination or preference, applied in a manner consistent with the purposes and policies set forth in article two-a of this chapter and based primarily on the costs of providing these services;

(5) Encourage energy conservation and the effective and efficient management of regulated utility enterprises; and

(6) Encourage removal of artificial barriers to rail carrier service, stimulate competition, stimulate the free flow of goods and passengers throughout the state and promote the expansion of the tourism industry, thereby improving the economic condition of the state.

(b) The Legislature creates the Public Service Commission to exercise the legislative powers delegated to it. The Public Service Commission is charged with the responsibility for appraising and balancing the interests of current and future utility service customers, the general interests of the state’s economy and the interests of the utilities subject to its jurisdiction in its deliberations and decisions.
(c) The Legislature directs the Public Service Commission to identify, explore and consider the potential benefits or risks associated with emerging and state-of-the-art concepts in utility management, rate design and conservation. The commission may conduct inquiries and hold hearings regarding such concepts in order to provide utilities subject to its jurisdiction and other interested persons the opportunity to comment, and shall report to the Governor and the Legislature regarding its findings and policies to each of these areas not later than the first day of the regular session of the Legislature in the year 1985, and every two years thereafter.

(d) It is legislative policy to ensure that the Legislature and the general public become better informed regarding the regulation of public utilities in this state and the conduct of the business of the Public Service Commission. To aid in the achievement of this policy, the Public Service Commission annually shall present to the Joint Committee on Government and Finance, created by article three, chapter four of this code, or a subcommittee designated by the joint committee, a management summary report which describes in a concise manner:

1. The major activities of the commission for the year especially as such activities relate to the implementation of the provisions of this chapter;

2. Important policy decisions reached and initiatives undertaken during the year;

3. The current balance of supply and demand for natural gas and electric utility services in the state and forecast of the probable balance for the next ten years; and

4. Other information considered by the commission to be important including recommendations for statutory reform and the reasons for such recommendations.
(e) In addition to any other studies and reports required to be conducted and made by the Public Service Commission pursuant to any other provision of this section, the commission shall study and initially report to the Legislature no later than the first day of the regular session of the Legislature in the year 1980 upon:

(1) The extent to which natural gas wells or wells heretofore supplying gas utilities in this state have been capped off or shut in; the number of such wells; their probable extent of future production and the reasons given and any justification for capping off or shutting in such wells; the reasons, if any, why persons engaged or heretofore engaged in the development of gas wells in this state or the Appalachian areas have been discouraged from drilling, developing or selling the production of such wells; and whether there are fixed policies by any utility or group of utilities to avoid the purchase of natural gas produced in the Appalachian region of the United States generally and in West Virginia specifically.

(2) The extent of the export and import of natural gas utility supplies in West Virginia.

(3) The cumulative effect of the practices mentioned in subdivisions (1) and (2) of this subsection upon rates theretofore and hereafter charged gas utility customers in West Virginia.

In carrying out the provisions of this section the commission shall have jurisdiction over such persons, whether public utilities or not, as may be in the opinion of the commission necessary to the exercise of its mandate and may compel attendance before it, take testimony under oath and compel the production of papers or other documents. Upon reasonable request by the commission, all other state agencies shall cooperate with the commission in carrying out the provisions and requirements of this subsection.

(f) No later than the first day of the regular session of the Legislature in the year 1980, the Public Service Commission shall
submit to the Legislature a plan for internal reorganization which plan shall specifically address the following:

(1) A division within the Public Service Commission which shall include the office of the commissioners, the hearing examiners and such support staff as may be necessary to carry out the functions of decisionmaking and general supervision of the commission, which functions shall not include advocacy in cases before the commission;

(2) The creation of a division which shall act as an advocate for the position of and in the interest of all customers;

(3) The means and procedures by which the division to be created pursuant to the provisions of subdivision (2) of this subsection shall protect the interests of each class of customers and the means by which the commission will assure that such division will be financially and departmentally independent of the division created by subdivision (1) of this subsection;

(4) The creation of a division within the Public Service Commission which shall assume the duties and responsibilities now charged to the commissioners with regard to motor carriers which division shall exist separately from those divisions set out in subdivisions (1) and (2) of this subsection and which shall relieve the commissioners of all except minimal administrative responsibilities as to motor carriers and which plan shall provide for a hearing procedure to relieve the commissioners from hearing motor carrier cases;

(5) Which members of the staff of the Public Service Commission shall be exempted from the salary schedules or pay plan adopted by the civil service commission and identify such staff members by job classification or designation, together with the salary or salary ranges for each such job classification or designation;

(6) The manner in which the commission will strengthen its knowledge and independent capacity to analyze key conditions and trends in the industries it regulates extending from general industry
analysis and supply-demand forecasting to continuing and more thorough scrutiny of the capacity planning, construction management, operating performance and financial condition of the major companies within these industries.

Such plan shall be based on the concept that each of the divisions mentioned in subdivisions (1), (2) and (4) of this subsection shall exist independently of the others and the plan shall discourage ex parte communications between them by such means as the commission shall direct, including, but not limited to, separate clerical and professional staffing for each division. Further, the Public Service Commission is directed to incorporate within the said plan to the fullest extent possible the recommendations presented to the subcommittee on the Public Service Commission of the Joint Committee on Government and Finance in a final report dated February, 1979, and entitled “A Plan for Regulatory Reform and Management Improvement”.

The commission shall, before January 5, 1980, adopt said plan by order, which order shall promulgate the same as a rule of the commission to be effective upon the date specified in said order, which date shall be no later than December 31, 1980. Certified copies of such order and rule shall be filed on the first day of the 1980 regular session of the Legislature, by the chairman of the commission with the clerk of each house of the Legislature, the Governor and the Secretary of State. The chairman of the commission shall also file with the Office of the Secretary of State the receipt of the clerk of each house and of the Governor, which receipt shall evidence compliance with this section.

Upon the filing of a certified copy of such order and rule, the clerk of each house of the Legislature shall report the same to their respective houses and the presiding officer thereof shall refer the same to appropriate standing committee or committees.

Within the limits of funds appropriated therefor, the rule of the Public Service Commission shall be effective upon the date specified in the order of the commission promulgating it unless an alternative
plan be adopted by general law or unless the rule is disapproved by a concurrent resolution of the Legislature adopted prior to adjournment sine die of the regular session of the Legislature to be held in the year 1980: Provided, That if such rule is approved in part and disapproved in part by a concurrent resolution of the Legislature adopted prior to such adjournment, such rule shall be effective to the extent and only to the extent that the same is approved by such concurrent resolution.

The rules promulgated and made effective pursuant to this section shall be effective notwithstanding any other provisions of this code for the promulgation of rules or regulations.

(g) The Public Service Commission is hereby directed to cooperate with the Joint Committee on Government and Finance of the Legislature in its review, examination and study of the administrative operations and enforcement record of the Railroad Safety Division of the Public Service Commission and any similar studies.

(h) (1) The Legislature hereby finds that rates for natural gas charged to customers of all classes have risen dramatically in recent years to the extent that such increases have adversely affected all customer classes. The Legislature further finds that it must take action necessary to mitigate the adverse consequences of these dramatic rate increases.

(2) The Legislature further finds that the practices of natural gas utilities in purchasing high-priced gas supplies, in purchasing gas supplies from out-of-state sources when West Virginia possesses abundant natural gas, and in securing supplies, directly or indirectly by contractual agreements including take-or-pay provisions, indefinite price escalators or most-favored nation clauses have contributed to the dramatic increase in natural gas prices. It is, therefore, the policy of the Legislature to discourage such purchasing practices in order to protect all customer classes.
(3) The Legislature further finds that it is in the best interests of the citizens of West Virginia to encourage the transportation of natural gas in intrastate commerce by interstate or intrastate pipelines or by local distribution companies in order to provide competition in the natural gas industry and in order to provide natural gas to consumers at the lowest possible price.

(i) The Legislature further finds that transactions between utilities and affiliates are a contributing factor to the increase in natural gas and electricity prices and tend to confuse consideration of a proper rate of return calculation. The Legislature, therefore, finds that it is imperative that the Public Service Commission have the opportunity to properly study the issue of proper rate of return for lengthy periods of time and to limit the return of a utility to a proper level when compared to return or profit that affiliates earn on transactions with sister utilities.

(j) The Legislature further finds that water and sewer utilities that are political subdivision of the states providing separate or combined services and having annual gross revenues of $3 million or more are most fairly and effectively regulated by the local governing body with respect to rates, borrowing and capital projects. Therefore, notwithstanding any contrary provisions of this section, the jurisdiction of the Public Service Commission over water and sewer utilities that are political subdivisions of the state is limited to that granted specifically in this code.

§24-1-1b. Supplemental rule for reorganization.

The Public Service Commission shall, by general order, create a division within its staff which shall, upon written request of the governing body of a political subdivision that operates a water, sewer and/or stormwater utility, provide legal, operational, engineering, financial, ratemaking and accounting advice and assistance to water, sewer and/or stormwater utilities that are political subdivisions of the state, and may perform or participate in the studies required under section one-b, article thirteen-a, chapter sixteen of this code.
§24-1-2. Definitions.

Except where a different meaning clearly appears from the context, the words “public utility” when used in this chapter shall mean and include any person or persons, or association of persons, however associated, whether incorporated or not, including municipalities, engaged in any business, whether herein enumerated or not, which is, or shall hereafter be held to be, a public service. Whenever in this chapter the words “commission” or “Public Service Commission” occur, such word or words shall, unless a different intent clearly appears from the context, be taken to mean the Public Service Commission of West Virginia. Whenever used in this chapter, “customer” shall mean and include any person, firm, corporation, municipality, public service district or any other entity who purchases a product or services of any utility and shall include any such person, firm, corporation, municipality, public service district or any other entity who purchases such services or product for resale. (b) (c) The commission may, upon application, waive its jurisdiction and allow a utility operating in an adjoining state to provide service in West Virginia when:
(1) An area of West Virginia cannot be practicably and economically served by a utility licensed to operate within the State of West Virginia;

(2) Said area can be provided with utility service by a utility which operates in a state adjoining West Virginia;

(3) The utility operating in the adjoining state is regulated by a regulatory agency or commission of the adjoining state; and

(4) The number of customers to be served is not substantial. The rates the out-of-state utility charges West Virginia customers shall be the same as the rate the utility is duly authorized to charge in the adjoining jurisdiction. The commission, in the case of any such utility, may revoke its waiver of jurisdiction for good cause.

(c) (d) Any other provisions of this chapter to the contrary notwithstanding:

(1) An owner or operator of an electric generating facility located or to be located in this state that has been designated as an exempt wholesale generator under applicable federal law, or will be so designated prior to commercial operation of the facility, and for which such facility the owner or operator holds a certificate of public convenience and necessity issued by the commission on or before July 1, 2003, shall be subject to subsections (e), (f), (g), (h), (i) and (j), section eleven-c of this article as if the certificate of public convenience and necessity for such facility were a siting certificate issued under said section and shall not otherwise be subject to the jurisdiction of the commission or to the provisions of this chapter with respect to such facility except for the making or constructing of a material modification thereof as provided in subdivision (5) of this subsection.

(2) Any person, corporation or other entity that intends to construct or construct and operate an electric generating facility to be located in this state that has been designated as an exempt wholesale generator under applicable federal law, or will be so designated prior to
commercial operation of the facility, and for which facility the owner or operator does not hold a certificate of public convenience and necessity issued by the commission on or before July 1, 2003, shall, prior to commencement of construction of the facility, obtain a siting certificate from the commission pursuant to the provisions of section eleven-c of this article in lieu of a certificate of public convenience and necessity pursuant to the provisions of section eleven of this article. An owner or operator of an electric generating facility as is described in this subdivision for which a siting certificate has been issued by the commission shall be subject to subsections (e), (f), (g), (h), (i) and (j), section eleven-c of this article and shall not otherwise be subject to the jurisdiction of the commission or to the provisions of this chapter with respect to such facility except for the making or constructing of a material modification thereof as provided in subdivision (5) of this subsection.

(3) An owner or operator of an electric generating facility located in this state that had not been designated as an exempt wholesale generator under applicable federal law prior to commercial operation of the facility, that generates electric energy solely for sale at retail outside this state or solely for sale at wholesale in accordance with any applicable federal law that preempts state law or solely for both such sales at retail and such sales at wholesale and that had been constructed and had engaged in commercial operation on or before July 1, 2003, shall not be subject to the jurisdiction of the commission or to the provisions of this chapter with respect to such facility, regardless of whether such facility subsequent to its construction has been or will be designated as an exempt wholesale generator under applicable federal law: Provided, That such owner or operator shall be subject to subdivision (5) of this subsection if a material modification of such facility is made or constructed.

(4) Any person, corporation or other entity that intends to construct or construct and operate an electric generating facility to be located in this state that has not been or will not be designated as an exempt wholesale generator under applicable federal law prior to commercial operation of the facility, that will generate electric energy solely for
sale at retail outside this state or solely for sale at wholesale in accordance with any applicable federal law that preempts state law or solely for both such sales at retail and such sales at wholesale and that had not been constructed and had not been engaged in commercial operation on or before July 1, 2003, shall, prior to commencement of construction of the facility, obtain a siting certificate from the commission pursuant to the provisions of section eleven-c of this article in lieu of a certificate of public convenience and necessity pursuant to the provisions of section eleven of this article. An owner or operator of an electric generating facility as is described in this subdivision for which a siting certificate has been issued by the commission shall be subject to subsections (e), (f), (g), (h), (i) and (j), section eleven-c of this article and shall not otherwise be subject to the jurisdiction of the commission or to the provisions of this chapter with respect to such facility except for the making or constructing of a material modification thereof as provided in subdivision (5) of this subsection.

(5) An owner or operator of an electric generating facility described in this subsection shall, before making or constructing a material modification of the facility that is not within the terms of any certificate of public convenience and necessity or siting certificate previously issued for the facility or an earlier material modification thereof, obtain a siting certificate for the modification from the commission pursuant to the provisions of section eleven-c of this article in lieu of a certificate of public convenience and necessity for the modification pursuant to the provisions of section eleven of this article and, except for the provisions of section eleven-c of this article, shall not otherwise be subject to the jurisdiction of the commission or to the provisions of this chapter with respect to such modification.

(6) The commission shall consider an application for a certificate of public convenience and necessity filed pursuant to section eleven of this article to construct an electric generating facility described in this subsection or to make or construct a material modification of such electric generating facility as an application for a siting certificate pursuant to section eleven-c of this article if the application for the
certificate of public convenience and necessity was filed with the commission prior to July 1, 2003, and if the commission has not issued a final order thereon as of that date.

(7) The limitations on the jurisdiction of the commission over, and on the applicability of the provisions of this chapter to, the owner or operator of an electric generating facility as imposed by, and described in this subsection, shall not be deemed to affect or limit the commission’s jurisdiction over contracts or arrangements between the owner or operator of such facility and any affiliated public utility subject to the provisions of this chapter.

§24-2-2. General power of commission to regulate public utilities.

(a) The commission is hereby given power to investigate all rates, methods and practices of public utilities subject to the provisions of this chapter; to require them to conform to the laws of this state and to all rules, regulations and orders of the commission not contrary to law; and to require copies of all reports, rates, classifications, schedules and timetables in effect and used by the public utility or other person to be filed with the commission, and all other information desired by the commission relating to the investigation and requirements, including inventories of all property in such form and detail as the commission may prescribe. The commission may compel obedience to its lawful orders by mandamus or injunction or other proper proceedings in the name of the state in any circuit court having jurisdiction of the parties or of the subject matter, or the Supreme Court of Appeals directly, and the proceedings shall have priority over all pending cases. The commission may change any intrastate rate, charge or toll which is unjust or unreasonable or any interstate charge with respect to matters of a purely local nature which have not been regulated by or pursuant to an act of Congress and may prescribe a rate, charge or toll that is just and reasonable, and change or prohibit any practice, device or method of service in order to prevent undue discrimination or favoritism between persons and between localities and between commodities for a like and contemporaneous service. But in no case shall the rate, toll or charge be more than the service is reasonably worth, considering the cost of the service. Every order entered by
the commission shall continue in force until the expiration of the time, if any, named by the commission in the order, or until revoked or modified by the commission, unless the order is suspended, modified or revoked by order or decree of a court of competent jurisdiction: Provided, That in the case of utilities used by emergency shelter providers, the commission shall prescribe such rates, charges or tolls that are the lowest available. “Emergency shelter provider” means any nonprofit entity which provides temporary emergency housing and services to the homeless or to victims of domestic violence or other abuse.

(b) Notwithstanding any other provision of this code to the contrary, rates are not discriminatory if, when considering the debt costs associated with a future water or sewer project which would not benefit existing customers, the commission establishes rates which ensure that the future customers to be served by the new project are solely responsible for the debt costs associated with the project.

(c) Notwithstanding any other provision of this code to the contrary, the jurisdiction of the commission over water and/or sewer utilities that are political subdivisions of the state providing a separate or combined services and having annual combined gross revenues of $3 million or more shall be limited to those powers enumerated in subsection (b), section one of this article.

§24-2-3. General power of commission with respect to rates.

(a) The commission shall have power to enforce, originate, establish, change and promulgate tariffs, rates, joint rates, tolls and schedules for all public utilities except for water and/or sewer utilities that are political subdivisions of this state providing a separate or combined services and having annual combined gross revenues of $3 million or more: Provided, That the commission may exercise such rate authority over municipally owned electric or natural gas utilities only under the circumstances and limitations set forth in section four-b of this article. And whenever the commission shall, after hearing, find any existing rates, tolls, tariffs, joint rates or schedules
enacted or maintained by a utility regulated under the provisions of this section to be unjust, unreasonable, insufficient or unjustly discriminatory or otherwise in violation of any of the provisions of this chapter, the commission shall by an order fix reasonable rates, joint rates, tariffs, tolls or schedules to be followed in the future in lieu of those found to be unjust, unreasonable, insufficient or unjustly discriminatory or otherwise in violation of any provisions of law, and the said commission, in fixing the rate of any railroad company, may fix a fair, reasonable and just rate to be charged on any branch line thereof, independent of the rate charged on the main line of such railroad.

(b) In determining just and reasonable rates, the commission may audit and investigate management practices and policies, or have performed an audit and investigation of such practices and policies, in order to determine whether the utility is operating with efficiency and is utilizing sound management practices. The commission shall adopt rules and regulations setting forth the scope, frequency and application of such audits and investigations to the various utilities subject to its jurisdiction. The commission may include the cost of conducting the management audit in the cost of service of the utility.

(c) In determining just and reasonable rates, the commission shall investigate and review transactions between utilities and affiliates. The commission shall limit the total return of the utility to a level which, when considered with the level of profit or return the affiliate earns on transactions with the utility, is just and reasonable.

(a) After June 30, 1981, no public utility subject to this chapter, except those utilities subject to the provisions of section four-b and section four-d of this article except for water and/or sewer utilities that are political subdivisions of the state providing separate or combined services and having annual gross revenue of $3 million or more from its separate or combined services, shall change, suspend or annul any rate, joint rate, charge, rental or classification except after thirty days’ notice to the commission and the public, which notice shall plainly
state the changes proposed to be made in the schedule then in force and the time when the changed rates or charges shall go into effect; but the commission may enter an order suspending the proposed rate as hereinafter provided. The proposed changes shall be shown by printing new schedules, or shall be plainly indicated upon the schedules in force at the time, and kept open to public inspection: Provided, That the commission may, in its discretion, and for good cause shown, allow changes upon less time than the notice herein specified, or may modify the requirements of this section in respect to publishing, posting and filing of tariffs, either by particular instructions or by general order.

(b) Whenever there shall be filed with the commission any schedule stating a change in the rates or charges, or joint rates or charges, or stating a new individual or joint rate or charge or joint classification or any new individual or joint regulation or practice affecting any rate or charge, the commission may either upon complaint or upon its own initiative without complaint enter upon a hearing concerning the propriety of such rate, charge, classification, regulation or practice; and, if the commission so orders, it may proceed without answer or other form of pleading by the interested parties, but upon reasonable notice, and, pending such hearing and the decisions thereon, the commission, upon filing with such schedule and delivering to the public utility affected thereby a statement in writing of its reasons for such suspension, may suspend the operation of such schedule and defer the use of such rate, charge, classification, regulation or practice, but not for a longer period than two hundred seventy days beyond the time when such rate, charge, classification, regulation or practice would otherwise go into effect; and after full hearing, whether completed before or after the rate, charge, classification, regulation or practice goes into effect, the commission may make such order in reference to such rate, charge, classification, regulation or practice as would be proper in a proceeding initiated after the rate, charge, classification, regulation or practice had become effective: Provided, That in the case of a public utility having two thousand five hundred customers or less and which is not a political subdivision principally owned by any other public utility corporation or public utility holding corporation, the commission may suspend the operation of such schedule and defer the use of such rate, charge, classification, regulation or practice, but not
for a longer period than one hundred twenty days beyond the time when such rate, charge, classification, regulation or practice would otherwise go into effect; and in the case of a public utility having more than two thousand five hundred customers, but not more than five thousand customers, and which is not a political subdivision principally owned by any other public utility corporation or public utility holding corporation, the commission may suspend the operation of such schedule and defer the use of such rate, charge, classification, regulation or practice, but not for a longer period than one hundred fifty days beyond the time when such rate, charge, classification, regulation or practice would otherwise go into effect; and in the case of a public utility having more than five thousand customers, but not more than seven thousand five hundred customers, and which is not a political subdivision principally owned by any other public utility corporation or public utility holding corporation, the commission may suspend the operation of such schedule and defer the use of such rate, charge, classification, regulation or practice, but not for a longer period than one hundred eighty days beyond the time when such rate, charge, classification, regulation or practice would otherwise go into effect; and after full hearing, whether completed before or after the rate, charge, classification, regulation or practice goes into effect, the commission may make such order in reference to such rate, charge, classification, regulation or practice as would be proper in a proceeding initiated after the rate, charge, classification, regulation or practice had become effective: Provided, however, That, in the case of rates established or proposed that increase by less than twenty-five percent of the gross revenue of the regulated public service district, there shall be no suspension period in the case of rates established by a public service district pursuant to section nine, article thirteen-a, chapter sixteen of this code, and the proposed rates of public service districts shall go into effect upon the date of filing with the commission, subject to refund modification at the conclusion of the commission proceeding. In the case of rates established or proposed that increase by more than twenty-five percent of the gross revenue of the public service district, the district may apply for, and the commission may grant, a waiver of the suspension period and allow rates to be effective upon the date of filing with the commission. The public service district shall provide notice by Class I legal advertisement in a newspaper of general circulation in its service territory of the percentage increase in rates
at least fourteen days prior to the effective date of the increased rates. Any refund determined to be due and owing as a result of any difference between any final rates approved by the commission and the rates placed into effect subject to refund shall be refunded by the public service district as a credit against each customer’s account for a period of up to six months after entry of the commission’s final order. Any remaining balance which is not fully credited by credit within six months after entry of the commission’s final order shall be directly refunded to the customer by check: Provided further, That if any such hearing and decision thereon is not concluded within the periods of suspension, as above stated, such rate, charge, classification, regulation or practice shall go into effect at the end of such period not subject to refund: And provided further, That if any such rate, charge, classification, regulation or practice goes into effect because of the failure of the commission to reach a decision, the same shall not preclude the commission from rendering a decision with respect thereto which would disapprove, reduce or modify any such proposed rate, charge, classification, regulation or practice, in whole or in part, but any such disapproval, reduction or modification shall not be deemed to require a refund to the customers of such utility as to any rate, charge, classification, regulation or practice so disapproved, reduced or modified. The fact of any rate, charge, classification, regulation or practice going into effect by reason of the commission’s failure to act thereon shall not affect the commission’s power and authority to subsequently act with respect to any such application or change in any rate, charge, classification, regulation or practice. Any rate, charge, classification, regulation or practice which shall be approved, disapproved, modified or changed, in whole or in part, by decision of the commission shall remain in effect as so approved, disapproved, modified or changed during the period or pendency of any subsequent hearing thereon or appeal therefrom. Orders of the commission affecting rates, charges, classifications, regulations or practices which have gone into effect automatically at the end of the suspension period are prospective in effect only.

(c) At any hearing involving a rate sought to be increased or involving the change of any rate, charge, classification, regulation
or practice, the burden of proof to show the justness and reasonableness of the increased rate or proposed increased rate, or the proposed change of rate, charge, classification, regulation or practice shall be upon the public utility making application for such change. The commission shall, whenever practicable and within budgetary constraints, conduct one or more public hearings within the area served by the public utility making application for such increase or change, for the purpose of obtaining comments and evidence on the matter from local ratepayers.

(d) Each public utility subject to the provisions of this section shall be required to establish, in a written report which shall be incorporated into each general rate case application, that it has thoroughly investigated and considered the emerging and state-of-the-art concepts in the utility management, rate design and conservation as reported by the commission under subsection (c), section one, article one of this chapter, as alternatives to, or in mitigation of, any rate increase. The utility report shall contain as to each concept considered the reasons for adoption or rejection of each. When in any case pending before the commission all evidence shall have been taken and the hearing completed, the commission shall render a decision in such case. The failure of the commission to render a decision with respect to any such proposed change in any such rate, charge, classification, regulation or practice within the various time periods specified in this section after the application therefor shall constitute neglect of duty on the part of the commission and each member thereof.

(e) Where more than twenty members of the public are affected by a proposed change in rates, it shall be a sufficient notice to the public within the meaning of this section if such notice is published as a Class II legal advertisement in compliance with the provisions of article three, chapter fifty-nine of this code, and the publication area for such publication shall be the community where the majority of the resident members of the public affected by such change reside or, in case of nonresidents, have their principal place of business within this state.
(f) The commission may order rates into effect subject to refund, plus interest in the discretion of the commission, in cases in which the commission determines that a temporary or interim rate increase is necessary for the utility to avoid financial distress, or in which the costs upon which these rates are based are subject to modification by the commission or another regulatory commission and to refund to the public utility. In such case the commission may require such public utility to enter into a bond in an amount deemed by the commission to be reasonable and conditioned upon the refund to the persons or parties entitled thereto of the amount of the excess if such rates so put into effect are subsequently determined to be higher than those finally fixed for such utility.

(g) No utility regulated under the provisions of this section may make application for a general rate increase while another general rate application is pending before the commission and not finally acted upon, except pursuant to the provisions of subsection (f) of this section. The provisions of this subsection shall not be construed so as to prohibit any such rate application from being made while a previous application which has been finally acted upon by the commission is pending before or upon appeal to the West Virginia Supreme Court of Appeals.

§24-2-4b. Procedures for changing rates of electric and natural gas cooperatives, local exchange services of telephone cooperatives and municipally operated public utilities.

(a) The rates and charges of electric cooperatives, natural gas cooperatives and municipally operated public utilities municipally operated public utilities municipal water and/or sewer utilities that are political subdivisions of the state with annual combined gross revenue of less than $3 million dollars, except for municipally operated commercial solid waste facilities as defined in section two, article fifteen, chapter twenty-two of this code, and the rates and charges for local exchange services provided by telephone cooperatives are not subject to the rate approval provisions of section four or four-a of this article, but are subject to the limited rate provisions of this section.
(b) All rates and charges set by electric cooperatives, natural gas cooperatives and municipally operated public utilities that are political subdivisions of the state providing water, sewer, electric and natural gas services and all rates and charges for local exchange services set by telephone cooperatives shall be just, reasonable, applied without unjust discrimination or preference between or preference for any customer or class of customer and based primarily on the costs of providing these services. All rates and charges shall be based upon the measured or reasonably estimated cost of service, and the equitable sharing of those costs between customers based upon the cost of providing the service received by the customer, including a reasonable plant-in-service depreciation expense. The rates and charges shall be adopted by the electric, natural gas, or telephone cooperative or political subdivision’s governing board or body and, in the case of the municipally operated public utility, by municipal ordinance to be effective not sooner than forty-five days after adoption. The 45-day waiting period may be waived by public vote of the governing body if that body finds and declares the public utility that is a political subdivision of the state to be in financial distress such that the 45-day waiting period would be detrimental to the ability of the utility to deliver continued and compliant public services: Provided, That notice of intent to effect a rate change shall be specified on the monthly billing statement of the customers of the utility for the month next preceding the month in which the rate change is to become effective and the utility governing body shall give its customers and, in the case of a cooperative, its customers, members and stockholders, other reasonable notices as will allow filing of timely objections to the proposed rate change and full participation in municipal rate legislation through the provision of a public forum in which customers may comment upon the proposed rate change prior to an enactment vote. The rates and charges or ordinance shall be filed with the commission, together with any information showing the basis of the rates and charges and other information as the commission considers necessary. Any change in the rates and charges with updated information shall be filed with the commission. If a petition, as set out in subdivision (1), (2) or (3), subsection (c) of this section, is received and the electric cooperative, natural gas cooperative or telephone
cooperative or municipality has failed to file with the commission the rates and charges with information showing the basis of rates and charges and other information as the commission considers necessary, the suspension period limitation of one hundred twenty days and the one hundred-day period limitation for issuance of an order by a hearing examiner, as contained in subsections (d) and (e) of this section, is tolled until the necessary information is filed. The electric cooperative, natural gas cooperative, telephone cooperative or municipality shall set the date when any new rate or charge is to go into effect.

(c) The commission shall review and approve or modify the rates and charges of electric cooperatives, natural gas cooperatives, telephone cooperatives, or municipal electric or natural gas utilities and municipally owned water and/or sewer utilities that are political subdivisions of the state and having less than $3 million dollars of annual combined gross revenues upon the filing of a petition within thirty days of the adoption of the ordinance or resolution changing the rates or charges by:

(1) Any customer aggrieved by the changed rates or charges who presents to the commission a petition signed by not less than twenty-five percent of the customers served by the municipally operated electric or natural gas public utility or municipally owned water and/or sewer utility having less than $3 million dollars annual combined gross revenues or twenty-five percent of the membership of the electric, natural gas or telephone cooperative residing within the state;

(2) Any customer who is served by a municipally operated or natural gas public utility and who resides outside the corporate limits and who is affected by the change in the rates or charges and who presents to the commission a petition alleging discrimination between customers within and without the municipal boundaries. The petition shall be accompanied by evidence of discrimination; or

(3) Any customer or group of customers of the municipally owned electric or natural gas public utility who is affected by the
change in rates who reside within the municipal boundaries and who present a petition to the commission alleging discrimination between a customer or group of customers and other customers of the municipal utility. The petition shall be accompanied by evidence of discrimination.

(d) (1) The filing of a petition with the commission signed by not less than twenty-five percent of the customers served by the municipally operated electric or natural gas public utility or twenty-five percent of the membership of the electric, natural gas or telephone cooperative residing within the state under subdivision (1) subsection (c) of this section shall suspend the adoption of the rate change contained in the ordinance or resolution for a period of one hundred twenty days from the date the rates or charges would otherwise go into effect or until an order is issued as provided herein.

(2) Upon sufficient showing of discrimination by customers outside the municipal boundaries or a customer or a group of customers within the municipal boundaries under a petition filed under subdivision (2) or (3), subsection (c) of this section, the commission shall suspend the adoption of the rate change contained in the ordinance for a period of one hundred twenty days from the date the rates or charges would otherwise go into effect or until an order is issued as provided herein. A municipal rate ordinance enacted pursuant to the provisions of this section and municipal charter or state code that establishes or proposes a rate increase that results in an increase of less than twenty-five percent of the gross revenue of the utility shall be presumed valid and rates shall be allowed to go into effect, subject to refund, upon the date stated in that ordinance. In the case of rates established or proposed that increase by more than twenty-five percent of the gross revenue of the municipally operated public utility, the utility may apply for, and the commission may grant, a waiver of the suspension period and allow rates to be effective upon enactment.

(e) The commission shall forthwith appoint a hearing examiner from its staff to review the grievances raised by the petitioners. The hearing examiner shall conduct a public hearing and shall, within one
hundred days from the date the rates or charges would otherwise go into effect, unless otherwise tolled as provided in subsection (b) of this section, issue an order approving, disapproving or modifying, in whole or in part, the rates or charges imposed by the electric, natural gas or telephone cooperative or by the municipally operated public utility pursuant to this section.

(f) Upon receipt of a petition for review of the rates under the provisions of subsection (c) of this section, the commission may exercise the power granted to it under the provisions of section three of this article, consistent with the applicable rate provisions of section twenty, article ten, chapter eight of this code, section four, article nineteen of said chapter and section sixteen, article thirteen, chapter sixteen of this code. The commission may determine the method by which the rates are reviewed and may grant and conduct a de novo hearing on the matter if the customer, electric, natural gas or telephone cooperative or municipality requests a hearing.

(g) A municipal utility shall be required to refund revenues collected from rates enacted that are disapproved or modified upon subsequent order of the commission entered in a proceeding under this section. Any refund determined to be due and owing as a result of any difference between the municipal rates placed into effect subject to refund and any final rates approved the commission shall be refunded by the municipal utility as a credit against each customer’s account for a period of up to six months after entry of the commission’s final order. Any remaining balance which is not fully refunded by credit within six months after entry of the commission’s final order shall be directly refunded to the individual customer by check.

(h) The commission may, upon petition by a municipality or an electric, natural gas or telephone cooperative, or municipal electric or natural gas public utility allow an interim or emergency rate to take effect, subject to refund or future modification, if it is determined that the interim or emergency rate is necessary to protect the municipality from financial hardship attributable to the purchase of the utility commodity sold, or the commission determines that a temporary or
interim rate increase is necessary for the utility to avoid financial distress. In such cases, the commission shall waive the 45-day waiting period provided for in subsection (b) of this section and the one hundred twenty-day suspension period provided for in subsection (d) of this section.

(h) The commission shall, upon written request of the governing body of a political subdivision, provide technical assistance to the governing body in its deliberations regarding a proposed rate increase.

(i) Notwithstanding any other provision, the commission has no authority or responsibility with regard to the regulation of rates, income, services or contracts by municipally operated public utilities for services which are transmitted and sold outside of the State of West Virginia.

(j) Notwithstanding any other provision of this code to the contrary, the jurisdiction of the commission over water and/or sewer utilities that are political subdivisions of the state and having annual gross combined revenues of $3 million or more shall be limited to those powers enumerated in subsection (b), section one of this article.

§24-2-7. Unreasonable, etc., regulations, practices and services; receivership; procedures respecting receivership; appointment and compensation of receiver; liquidation.

(a) Whenever, under the provisions of this chapter, the commission shall find any regulations, measurements, practices, acts or service to be unjust, unreasonable, insufficient or unjustly discriminatory, or otherwise in violation of any provisions of this chapter, or shall find that any service is inadequate, or that any service which is demanded cannot be reasonably obtained, the commission shall determine and declare, and by order fix reasonable measurement, regulations, acts, practices or services, to be furnished, imposed, observed and followed in the state in lieu of those found to be unjust, unreasonable, insufficient, or unjustly discriminatory, inadequate or otherwise in violation of this chapter, and shall make such other order respecting the same as shall be just and reasonable.
(b) If the Public Service Commission shall determine that any utility is unable or unwilling to adequately serve its customers or has been actually or effectively abandoned by its owners, or that its management is grossly and willfully inefficient, irresponsible or unresponsive to the needs of its customers, the commission may petition to the circuit court of any county wherein the utility does business for an order attaching the assets of the utility and placing such utility under the sole control and responsibility of a receiver. If the court determines that the petition is proper in all respects and finds, after a hearing thereon, that the allegations contained in the petition are true, it shall grant the same and shall order that the utility be placed in receivership. The court, in its discretion and in consideration of the recommendation of the commission, shall appoint a receiver who shall be a responsible individual, partnership or corporation knowledgeable in public utility affairs and who shall maintain control and responsibility for the running and management of the affairs of such the utility. In so doing, the receiver shall operate the utility so as to preserve the assets of the utility and to serve the best interests of its customers. The receiver shall be compensated from the assets of said utility in an amount to be determined by the court.

(c) Control of and responsibility for said utility shall remain in the receiver until the same can, in the best interest of the customers, be returned to the owners, transferred to other owners or assumed by another utility or public service corporation: Provided, That if the court after hearing, determines that control of and responsibility for the affairs of the utility should not, in the best interests of its customers, be returned to the legal owners thereof, the receiver shall proceed to liquidate the assets of such the utility in the manner provided by law.

(d) The laws generally applicable to receivership shall govern receiverships created pursuant to this section.

§24-2-11. Requirements for certificate of public convenience and necessity.

(d) The commission shall render its final decision on any application filed under the provisions of this section or section eleven-a of this article within two hundred seventy days of the filing of the application and within ninety days after final submission of any such application
for decision following a hearing: Provided, That if the application is
for authority to construct a water and sewer project and the projected
total cost is less than $10 million, the commission shall render its final
decision within two hundred twenty-five days of the filing of the
application.

(e) The commission shall render its final decision on any application
filed under the provisions of this section that has received the approval
of the Infrastructure and Jobs Development Council pursuant to article
fifteen-a, chapter thirty-one of this code within one hundred eighty
days after filing of the application: Provided, That if a substantial
protest is received within thirty days after the notice is provided
pursuant to subsection (b) of this section, the commission shall render
its final decision within two hundred seventy days or two hundred
twenty-five days of the filing of the application, whichever is
applicable as determined in subsection (d) of this section.

(f) If the projected total cost of a project which is the subject of an
application filed pursuant to this section or section eleven-a of this
article is greater than $50 million, the commission shall render its final
decision on any such application filed under the provisions of this
section or section eleven-a of this article within four hundred days of
the filing of the application and within ninety days after final
submission of any such application for decision after a hearing.

(g) If a decision is not rendered within the time frames established
in this section, the commission shall issue a certificate of convenience
and necessity as applied for in the application.

(h) The commission shall prescribe rules as it may deem proper for
the enforcement of the provisions of this section; and, in establishing
that public convenience and necessity do exist, the burden of proof
shall be upon the applicant.

(i) Pursuant to the requirements of this section, the commission may
issue a certificate of public convenience and necessity to any intrastate
pipeline, interstate pipeline or local distribution company for the
transportation in intrastate commerce of natural gas used by any person for one or more uses, as defined by rule, by the commission in the case of:

(1) Natural gas sold by a producer, pipeline or other seller to the person; or

(2) Natural gas produced by the person.

(j) A public utility, including a public service district, which has received a certificate of public convenience and necessity after July 8, 2005, from the commission and has been approved by the Infrastructure and Jobs Development Council is not required to, and cannot be compelled to, reopen the proceeding if the cost of the project changes but the change does not affect the rates established for the project.

(k) Any public utility, person or corporation proposing any electric power project that requires a certificate under this section is not required to obtain such certificate before applying for or obtaining any franchise, license or permit from any municipality or other governmental agency.

(l) Water, sewer and/or stormwater utilities that are political subdivisions of the state and having combined gross revenues of $3 million dollars or more desiring to pursue construction projects that are not in the ordinary course of business shall provide notice to both current customers and those citizens who will be affected by the proposed construction as follows:

(1) Adequate prior public notice of the contemplated construction by causing a notice of intent to pursue a project that is not in the ordinary course of business to be specified on the monthly billing statement of the customers of the utility for the month next preceding the month in which the contemplated construction is to be before the governing body on first reading.
(2) Adequate prior public notice of the contemplated construction by causing to be published as a Class I legal advertisement of the proposed action, in compliance with the provisions of article three, chapter fifty-nine of the code. A reasonable number of copies of the proposal shall be kept at the place or places and be made available for public inspection. The notice shall also advise that interested parties may appear at the public hearing before the political subdivision and be heard with respect to the proposed construction and the proposed rates, fees and charges.

(4) The proposed construction and the proposed rates, fees and charges shall be read at two meetings of the governing body with at least two weeks intervening between each meeting. The public hearing may be conducted with or following the second reading.

(5) Enactment of the proposed construction and the proposed rates, fees and charges shall follow an affirmative vote of the governing body and shall be effective no sooner than forty-five days following the action of the governing body. If the political subdivision proposes rates that will go into effect prior than the completion of construction of the proposed project, the 45-day waiting period may be waived by public vote of the governing body only if the political subdivision finds and declares the political subdivision to be in financial distress such that the 45-day waiting period would be detrimental to the ability of the political subdivision to deliver continued and compliant public
services: Provided, That, in no event shall the rate become effective prior to the date that the county commission has entered an order approving the action of the public service district board.

(6) Rates, fees and charges approved by an affirmative vote of the public services district board shall be forwarded in writing to the county commission appointing the approving board. The county commission shall, within forty-five of receipt of the proposed rates, fees and charges, take action to approve or reject the proposed rates, fees and charges. After forty-five days, and absent action by the county commission, the proposed rates, fees and charges shall be effective with no further action by the board or county commission. In any event this 45-day period may be extended by official action of both the board proposing the rates, fees and charges and the appointing county commission.

(7) The county commission shall provide notice to the public by a Class I legal advertisement of the proposed action, in compliance with the provisions of article three, chapter fifty-nine of this code, of the meeting where it shall consider the proposed increases in rates, fees and charges no later than one week prior to the meeting date.

Executive Communications

The Clerk then presented communications from His Excellency, the Governor, advising that on March 5, 2015, he had approved Enr. Committee Substitute for Senate Bill No. 187, Enr. Senate Bill No. 238, Enr. Senate Bill No. 382, Enr. Senate Bill No. 398 and Enr. Committee Substitute for House Bill No. 2002.

Senator Cole (Mr. President) laid before the Senate the following communication from His Excellency, the Governor, which was read by the Clerk:

STATE OF WEST VIRGINIA
OFFICE OF THE GOVERNOR
CHARLESTON

March 5, 2015

The Honorable William P. Cole III
President, West Virginia Senate
State Capitol
Charleston, West Virginia

Dear President Cole:

Pursuant to the provisions of section fourteen, article VII of the Constitution of West Virginia, I hereby disapprove and return Enrolled Committee Substitute for Senate Bill No. 6 on technical grounds.

The bill’s enacting clause [sic] on page 2 contains two fatal errors. First, the enacting clause [sic] provides that the bill repeals W. Va. Code §55-7B-1, which it does not. Rather, the bill amends §55-7B-1. Second, the enacting clause [sic] fails to reference the bill’s amendment of §55-7B-10.

If the Legislature chooses to repair the enacting clause [sic] it also may consider revising some aspects of the bill’s title on page 1.
For instance, the phrase “providing rebuttable presumptions and evidentiary requirements related to admission of certain government, health care provider or health care facility information” arguably is vague. Greater clarity could be provided by revising the phrase to read, “providing rebuttable presumptions and evidentiary requirements relating to state and federal reports, disciplinary actions, accreditation reports, assessments, and staffing.” See, e.g., §55-7B-7a, page 11.

The title’s description of the bill’s amendment to §55-7B-8(d) also may be inadequate. The phrase “clarifying amounts of medical professional liability insurance coverage that must exist to receive noneconomic damages limitations” could be added to the title to better explain the “aggregate” amendment to §55-7B-8(d). See, e.g., §55-7B-8(d), pages 12-13.

Finally, the title’s reference to “providing definitions” may not sufficiently describe the many revisions reflected in §55-7B-2 of the bill, which significantly expand the scope of the Medical Professional Liability Act. See §55-7B-2, pages 5-9.

Sincerely,

Earl Ray Tomblin,
Governor.

The Honorable Natalie E. Tennant

Senator Carmichael moved that in accordance with Section 14, Article VII of the Constitution of the State of West Virginia, the Senate proceed to reconsider

Enr. Com. Sub. for Senate Bill No. 6, Relating to medical professional liability.
Heretofore disapproved and returned by His Excellency, the Governor, with his objections.

The question being on the adoption of Senator Carmichael’s motion that the Senate reconsider Enrolled Committee Substitute for Senate Bill No. 6, the same was put and prevailed.

On motion of Senator Trump, the following amendments to the bill were reported by the Clerk, considered simultaneously, and adopted:

By striking out the enacting section and inserting in lieu thereof a new enacting section, to read as follows:

That §55-7B-1, §55-7B-2, §55-7B-7, §55-7B-8, §55-7B-9, §55-7B-9a, §55-7B-9c, §55-7B-10 and §55-7B-11 of the Code of West Virginia, 1931, as amended, be amended and reenacted; and that said code be amended by adding thereto two new sections, designated §55-7B-7a and §55-7B-9d, all to read as follows:;

And,

By striking out the title and substituting therefor a new title, to read as follows:

Enr. Com. Sub. for Senate Bill No. 6—An Act to amend and reenact §55-7B-1, §55-7B-2, §55-7B-7, §55-7B-8, §55-7B-9, §55-7B-9a, §55-7B-9c, §55-7B-10 and §55-7B-11 of the Code of West Virginia, 1931, as amended; and to amend said code by adding thereto two new sections, designated §55-7B-7a and §55-7B-9d, all relating to medical professional liability generally; providing additional legislative findings and purposes related to medical professional liability; modifying definitions; amending existing definitions of “health care”, “health care facility”, “health care provider” and “medical professional liability” and creating a new definition for “related entity” all of which expand the scope of the Medical Professional Liability Act; modifying the qualifications for
the competency of experts who testify in medical professional liability actions; providing rebuttable presumptions and evidentiary requirements relating to state and federal reports, disciplinary actions, accreditation reports, assessments and staffing; modifying the maximum amount of recovery for, and availability of, noneconomic damages; clarifying amounts of medical professional liability insurance coverage that must exist to receive noneconomic damages limitations; clarifying that a health care provider is not vicariously liable unless the alleged agent does not maintain certain insurance; clarifying eligibility for, and application of, emergency medical services caps; providing a methodology for determining the amount of trauma care caps to account for inflation; providing certain limitations of verdicts for past medical expenses of the plaintiff; establishing effective date; and providing for severability.

The question now being on the passage of the bill, disapproved by the Governor and amended by the Senate.

On the passage of the bill, the yeas were: Blair, Boley, Boso, Carmichael, Ferns, Gaunch, D. Hall, M. Hall, Karnes, Kessler, Kirkendoll, Laird, Leonhardt, Maynard, Mullins, Nohe, Palumbo, Plymale, Prezioso, Stollings, Sypolt, Takubo, Trump, Unger, Williams, Woelfel, Yost and Cole (Mr. President)–28.

On this question, the yeas were: Blair, Boley, Boso, Carmichael, Ferns, Gaunch, D. Hall, M. Hall, Karnes, Kessler, Kirkendoll, Laird,
Leonhardt, Maynard, Mullins, Nohe, Palumbo, Plymale, Prezioso, Stollings, Sypolt, Takubo, Trump, Unger, Williams, Woelfel, Yost and Cole (Mr. President)–28.

Absent: Miller and Walters–2.

So, two thirds of all the members elected to the Senate having voted in the affirmative, the President declared the bill (Enr. Com. Sub. for S. B. No. 6) takes effect from passage.

Ordered, That The Clerk communicate to the House of Delegates the action of the Senate and request concurrence therein.

Senator Cole (Mr. President) then laid before the Senate the following communication from His Excellency, the Governor, which was read by the Clerk:

STATE OF WEST VIRGINIA
OFFICE OF THE GOVERNOR
CHARLESTON

March 2, 2015

The Honorable Tim Armstead
Speaker, West Virginia House of Delegates
State Capitol
Charleston, West Virginia

Dear Speaker Armstead:

Pursuant to the provisions of section fourteen, Article VII of the Constitution of West Virginia, I hereby disapprove and return Enrolled Committee Substitute for House Bill No. 2568. I am advised the bill is unconstitutional under controlling precedent of the Supreme Court of the United States because it prohibits the termination of certain pregnancies prior to viability. See Planned
Parenthood of Southeastern Pennsylvania v. Casey, 505 U. S. 833, 879 (1992) (holding a state “may not prohibit any woman from making the ultimate decision to terminate her pregnancy before viability”); see also Isaacson v. Horne, 716 F.3d 1213 (9th Cir. 2013), cert. denied, 134 S. Ct. 905 (Jan. 13, 2014) (declaring Arizona’s fetal pain statute unconstitutional; statute prohibited the termination of pregnancy at twenty weeks gestation, before the fetus is viable).

Sincerely,

Earl Ray Tomblin,
Governor.

Senators D. Hall, M. Hall, Kirkendoll, Snyder and Stollings offered the following resolution:

Senate Concurrent Resolution No. 57—Requesting the Joint Committee on Government and Finance study issue of regulation of public utilities by political subdivisions of the State of West Virginia.

Whereas, Municipalities and county commissions possess certain powers to enact, administer and enforce ordinances; and

Whereas, Such powers possessed by municipalities and county commissions are intended to be used in order to serve the public interest and welfare of their respective citizens and respond to their citizens; and

Whereas, Public utilities provide vital services and products to the public as a whole, not constrained by the boundaries of political subdivisions of the state; and
Whereas, The nature of public utility services and products are to serve the general welfare, need and public good of the state; and

Whereas, Public utilities in West Virginia are governed by various federal and state agencies, including, but not limited to, the United States Environmental Protection Agency, the Federal Energy Regulatory Commission, the West Virginia Department of Environmental Protection and the West Virginia Public Service Commission; and

Whereas, Regulation of public utilities at the local level can conflict with and, indeed, frustrate, confuse and confound the operations, service and products provided to the public by such public utilities; and

Whereas, The cost of regulatory compliance at any level is ultimately borne by the ratepayers and customers of the public utilities; therefore, be it

Resolved by the Legislature of West Virginia:

That the Joint Committee on Government and Finance is hereby requested to study issue of regulation of public utilities by political subdivisions of the State of West Virginia; and, be it

Further Resolved, That the Joint Committee on Government and Finance report to the regular session of the Legislature, 2016, on its findings, conclusions and recommendations, together with drafts of any legislation necessary to effectuate its recommendations; and, be it

Further Resolved, That the expenses necessary to conduct this study, to prepare a report and to draft necessary legislation be paid from legislative appropriations to the Joint Committee on Government and Finance.

Which, under the rules, lies over one day.
At the request of Senator Carmichael, and by unanimous consent, the Senate returned to the fourth order of business.

Senator Takubo, from the Committee on Economic Development, submitted the following report, which was received:

Your Committee on Economic Development has had under consideration

**Senate Concurrent Resolution No. 58** (originating in the Committee on Economic Development)–Requesting the Joint Committee on Government and Finance study need and feasibility of the state creating a cost-effective and portable group retirement savings program for small businesses and their employees, including comparing costs of establishing the program with currently available private sector financial and retirement security opportunities for small businesses.

Whereas, An employer with less than 50 employees is considered a small business; and

Whereas, Seventy percent of small businesses in West Virginia do not offer employer-sponsored retirement plans to their employees; and

Whereas, More than one half of the employees of small businesses do not have access to an employer-sponsored payroll deduction retirement savings plan; and

Whereas, Without an employer-sponsored retirement plan, there is a concern that workers will not have enough money to cover living expenses upon retirement; and

Whereas, Social Security plays a key role in providing retirement security for workers in West Virginia, but it should not be the sole source of retirement income; and
Whereas, If a significant portion of retirees rely only on Social Security for income, then there would be a growing demand for taxpayer-supported services which would increase costs for the state; and

Whereas, In addition to Social Security benefits, access to a retirement savings program would be beneficial to an employee’s retirement; and

Whereas, It is preferable to enable an individual to have his or her own retirement plan rather than being forced to depend on taxpayer-supported programs and services; and

Whereas, Currently, there are commercial employer-sponsored retirement plans that are available to help workers accumulate retirement savings and improve their retirement security, but small business employers feel these plans are too expensive; and

Whereas, Small business employers think the State of West Virginia should do more to encourage workers to save for retirement by enacting legislation that gives small business employers in West Virginia the option of creating a retirement savings plan; and

Whereas, Illinois recently enacted legislation that created a retirement savings program for its citizens to save money for their retirement, and 30 other states are considering such a program, including California, Oregon, Minnesota, Connecticut and Maryland, which are conducting formal studies to ascertain a retirement savings program that will best assist their citizens to build a more secure retirement; and

Whereas, In West Virginia, a retirement savings program for small businesses would offer an opportunity for small business employers to establish a basic retirement savings option for employees which would provide workers a simple way to save for retirement which would result in fewer West Virginians relying on taxpayer-supported services, saving taxpayer dollars; and
Whereas, There is a need to determine if any potential state retirement savings program would be less expensive and not in direct competition with those employee and employer portable retirement programs already offered by banks, financial institutions, insurance brokers and private insurers; and

Whereas, A complete fiscal analysis is needed to determine the financial implications of a state retirement savings program, including the start-up costs, the compliance costs, legal implications to the state and its small businesses, costs of investment, actuarial compliance with federal securities laws and comparing the cost of a potential state-sponsored retirement savings program to the cost of existing private sector alternatives; therefore, be it

Resolved by the Legislature of West Virginia:

That the Joint Committee on Government and Finance is hereby requested to study need and feasibility of the state creating a cost-effective and portable group retirement savings program for small businesses and their employees, including comparing costs of establishing the program with currently available private sector financial and retirement security opportunities for small businesses; and, be it

Further Resolved, That the Joint Committee on Government and Finance report to the regular session of the Legislature, 2016, on its findings, conclusions and recommendations, together with drafts of any legislation necessary to effectuate its recommendations; and, be it

Further Resolved, That the expenses necessary to conduct this study, to prepare a report and to draft necessary legislation be paid from legislative appropriations to the Joint Committee on Government and Finance.
And reports the same back with the recommendation that it be adopted.

ARTICLE 7. ACTIONS FOR INJURIES.

§55-7-27. Limitations on punitive damages.

(a) An award of punitive damages may only occur in a civil action against a defendant if a plaintiff establishes by clear and convincing evidence that the damages suffered were the result of the conduct that was carried out by the defendant with actual malice toward the plaintiff or a conscious, reckless and outrageous indifference to the health, safety and welfare of others.

(b) Any civil action tried before a jury involving punitive damages may, upon request of any defendant, be conducted in a bifurcated trial in accordance with the following guidelines:

(1) In the first stage of a bifurcated trial, the jury shall determine liability for compensatory damages and the amount of compensatory damages, if any.

(2) If the jury finds during the first stage of a bifurcated trial that a defendant is liable for compensatory damages, then the court shall determine whether sufficient evidence exists to proceed with a consideration of punitive damages.

(3) If the court finds that sufficient evidence exists to proceed with a consideration of punitive damages, the same jury shall determine if a defendant is liable for punitive damages in the second stage of a bifurcated trial and may award such damages.

(4) If the jury returns an award for punitive damages that exceeds the amounts allowed under subsection (c) of this section, the court shall reduce any such award to comply with the limitations set forth therein.

(c) The amount of punitive damages that may be awarded in a civil action may not exceed the greater of four times the amount of compensatory damages or $500,000, whichever is greater.

**Eng. Senate Bill No. 532**, Relating to civil liability immunity for clinical practice plans and medical and dental school personnel.

On motion of Senator Carmichael, the message on the bill was taken up for immediate consideration.

The following House of Delegates amendment to the bill was reported by the Clerk:
By striking out everything after the enacting section and inserting in lieu thereof the following:

ARTICLE 7E. IMMUNITY FROM CIVIL LIABILITY FOR CLINICAL PRACTICE PLANS AND PERSONNEL ASSOCIATED WITH MEDICAL AND DENTAL SCHOOLS.

§55-7E-1. Findings and declaration of public purpose.

The Legislature finds and declares:

That the citizens of this state have been and should continue to be well served by physicians and dentists educated and trained at the Marshall University School of Medicine, the West Virginia School of Osteopathic Medicine, the West Virginia University School of Medicine and the West Virginia University School of Dentistry;

That the state’s medical and dental schools play a vital role in ensuring an adequate supply of qualified and trained physicians throughout the state;

That the education, training and research provided at the state’s medical and dental schools and state medical schools are an essential governmental function in which the state has a substantial and compelling interest;

That the provision of clinical services to patients by faculty members, residents, fellows and students of the state’s medical and dental schools and state medical school, is an inseparable component of the aforementioned education, training and research;

That the provision of the clinical services significantly contributes to the ongoing quality, effectiveness and scope of the state’s health care delivery system;
That the provision of the clinical services also raises the public profile and reputation of the respective institutions both regionally and nationally, thereby facilitating the recruitment of talented faculty, residents, fellows and students to their programs of study;

That the provision of the clinical services generates additional revenues needed to fund faculty salaries and other costs associated with the overall operation of the state medical school and state’s medical and dental schools;

That the continued availability of the revenues to the state medical school and state’s medical and dental schools is necessary to their ongoing operation and delivery of the benefits described above;

That the continued availability of the revenues is compromised by the cost of medical professional liability insurance, the cost of defending medical professional liability claims, and the cost of compensating patients who suffer medical injury or death;

That the state concurrently has an interest in providing a system that makes available adequate and fair compensation to those individual patients who suffer medical injury or death;

That it is the duty and responsibility of the Legislature to balance the rights of individual patients to obtain adequate and fair compensation, with the substantial and compelling state interests set forth herein supporting the need for a financially viable system of medical and dental schools;

That, in balancing these important state interests, the Legislature acknowledges the sovereign immunity set forth in the West Virginia Constitution under Article VI, Section 35, to prevent the diversion of state moneys from legislatively appropriated purposes;

That, in conjunction with the provision of clinical services to patients by faculty members, residents, fellows and students of the
state’s medical and dental schools, or state medical school, it is a common practice both here and in other states to create one or more clinical practice plans as nonprofit corporations;

That the clinical practice plans, among other things, administratively support clinical activities by holding real and personal property, offering personnel and financial management, providing billing and collection for services rendered, and disbursing excess revenues back to the respective medical and dental schools;

That the clinical practice plans become integrated with their respective state medical school and state’s medical and dental schools and exclusively serve the interests of these schools and their faculty;

That any moneys the clinical practice plans expend for the defense, settlement, and satisfaction of medical professional liability claims inevitably result in a shortfall of funds available to the medical and dental schools for faculty compensation and other operational purposes, thereby undermining the sovereign immunity otherwise granted to state institutions by the West Virginia Constitution;

That it is therefore reasonable and appropriate for the Legislature to provide immunity from civil liability to clinical practice plans and their respective directors, officers, employees and agents given the substantial and compelling state interests being served; and

That it is further reasonable and appropriate to require the state’s medical and dental schools to maintain a level of medical professional liability insurance to adequately and fairly compensate patients who suffer medical injuries or death.

§55-7E-2. Definitions.

For purposes of this article:
(1) “Clinical practice plan” means any of the nonprofit corporations that are operated to assist the state medical school and state’s medical and dental schools in providing clinical services to patients and which are controlled by governing boards all the voting members of which are faculty members or university officials. Clinical practice plans as defined herein shall be considered agents of the state.

(2) “Contractor” means an independent contractor, whether compensated or not, who is licensed as a health care professional under chapter thirty of this code, who is acting within the scope of his or her authority for a state medical school, state’s medical and dental schools or a clinical practice plan, and is a member of the faculty of a state’s medical and dental schools or state medical school.

(3) “Employee” means a director, officer, employee, agent or servant, whether compensated or not, who is licensed as a health care professional under chapter thirty of this code and who is acting within the scope of his or her authority or employment for a state’s medical and dental schools, a state medical school or a clinical practice plan.

(4) “Health care” means any act or treatment performed or furnished, or which should have been performed or furnished, by any director, officer, employee, agent or contractor of a state medical school, state’s medical and dental schools or a clinical practice plan for, to or on behalf of a patient during the patient’s medical care, treatment or confinement.

(5) “Medical injury” means injury or death to a patient arising or resulting from the rendering or failure to render health care.

(6) “Medical professional liability insurance” means a contract of insurance, or any self-insurance retention program established under the provisions of section ten, article five, chapter eighteen-b of this code, that pays for the legal liability arising from a medical injury.
(7) “Patient” means a natural person who receives or should have received health care from a director, officer, employee, agent or contractor of a state medical school, state’s medical and dental schools or a clinical practice plan under a contract, express or implied.

(8) “Scope of authority or employment” means performance by a director, officer, employee, agent or contractor acting in good faith within the duties of his or her office, employment or contract with a state medical school, state’s medical and dental schools or a clinical practice plan, but does not include corruption or fraud.

(9) “State’s medical and dental schools” or “state medical school” means the Marshall University School of Medicine, the West Virginia School of Osteopathic Medicine, the West Virginia University School of Medicine and the West Virginia University School of Dentistry.

§55-7E-3. Immunity for clinical practice plans and their directors, officers, employees, agents and contractors.

Notwithstanding any other provision of this code, all clinical practice plans, and all employees and contractors of a state’s medical and dental schools, state medical school or a clinical practice plan, are only liable up to the limits of insurance coverage procured through the State Board of Risk and Insurance Management in accordance with section four, article seven-e, chapter fifty-five of the code, arising from a medical injury to a patient, including death resulting, in whole or in part, from the medical injury, either through act or omission, or whether actual or imputed, while acting within the scope of their authority or employment for a state’s medical and dental schools, state medical school or a clinical practice plan. The provisions of this article apply to the acts and omissions of all full-time, part-time, visiting and volunteer directors, officers, faculty members, resident physicians residents, fellows, students, employees, agents and contractors of a state’s medical and dental schools, state medical school or a clinical practice plan, regardless of whether the persons are engaged in teaching, research, clinical,
administrative or other duties giving rise to the medical injury, regardless of whether the activities were being performed on behalf of a state’s medical and dental schools, state medical school or on behalf of a clinical practice plan and regardless of where the duties were being carried out at the time of the medical injury.

§55-7E-4. Medical professional liability insurance for state’s medical and dental schools and state medical schools.

The State Board of Risk and Insurance Management shall provide medical professional liability insurance to all of the state’s medical and dental schools, state medical school, all of their clinical practice plans and all of their directors, officers, employees, agents and contractors in an amount to be determined by the State Board of Risk and Insurance Management, but in no event less than $1.5 million for each occurrence, to increase to account for inflation by an amount equal to the consumer price index published by the United States department of labor, up to $2 million for each occurrence. The clinical practice plans shall pay for this insurance. The provision of professional liability insurance is not a waiver of immunity that any of the foregoing entities or persons may have pursuant to this article or under any other law. Any judgment obtained for a medical injury to a patient as a result of health care performed or furnished, or which should have been performed or furnished, by any employee or contractor of a state’s medical and dental school, state medical school or clinical practice plan shall not exceed the limits of medical professional liability insurance coverage provided by the State Board of Risk and Insurance Management pursuant to this section.

§55-7E-5. Applicability of provisions.

The provisions of this article are applicable prospectively to all civil actions commenced on or after July 1, 2015.

§55-7E-6. Construction.
The provisions of this article operate in addition to, and not in derogation of, any of the provisions contained in article seven-b of this chapter.

On motion of Senator Carmichael, the following amendment to the House of Delegates amendment to the bill (Eng. S. B. No. 532) was reported by the Clerk and adopted:

On page six, section four, after the words “$1.5 million for each occurrence” by inserting the words “after July 1, 2015”;

And,

On page seven, section five, by striking out the words “civil actions” and inserting in lieu thereof the words “claims that occur and are”.

On motion of Senator Carmichael, the Senate concurred in the House of Delegates amendment, as amended.

**Executive Communications**

Senator Cole (Mr. President) laid before the Senate the following communication from His Excellency, the Governor, which was read by the Clerk:

STATE OF WEST VIRGINIA  
OFFICE OF THE GOVERNOR  
CHARLESTON

March 6, 2015

The Honorable Tim Armstead  
Speaker, West Virginia House of Delegates  
State Capitol  
Charleston, West Virginia
Dear Speaker Armstead:

Pursuant to the provisions of section fourteen, article VII of the Constitution of West Virginia, I hereby disapprove and return Enrolled Committee Substitute for House Bill No. 2010 on technical grounds.

First, §3-1-17(b) appears to be missing the words, “There shall be elected” at the beginning of the subsection. Without this phrase, this subsection is incomplete. Likewise, §3-4A-11a(b)(3) is ambiguous and appears to be missing language. As a result, the provisions of this section are unclear, leaving the reader to make assumptions about the instructions provided in this section.

Next, §3-10-3(c) addressing appointment of a magistrate when a vacancy occurs, contains an incorrect reference to section one, article six, chapter fifty, related to enforcement of judgments.

Moreover, the bill’s title may be inadequate. The title does not provide notice of the changes to the West Virginia Supreme Court of Appeals Public Campaign Financing Program in article twelve, chapter three. Specifically, the title simply provides for the “continuing applicability” of the program; however, the title does not give notice of the revision in the amount of financing available to a candidate running in a contested election or the removal of funding available to a candidate running in an uncontested election. Additionally, the title contains the following duplicative provisions, “providing for the commencement of terms of office” and “providing the timing of commencement of terms of office for justices of the Supreme Court of Appeals, circuit judge, family court judge and magistrate”.

Further, §3-5-13a, page 19, line 11, contains an extra comma after “Attorney General” and line 12 contains an extra comma after “House of Delegates”. Likewise, §6-5-1, page 36, line 11, contains an extra comma after “clerks of the circuit”.

Additionally, §3-5-13(5) contains references to the Board of Education that are inconsistently and incorrectly capitalized. Page
18, lines 131-132, state “board of Education” and line 136 states “board of education”; these references should be capitalized. Similarly, §6-5-1 contains inconsistent capitalization on page 36, lines 3-5, referring to the state superintendent of free schools, treasurer, and commissioner of agriculture; all these titles should be capitalized. Finally, §3-12-14(a)(6), page 33, line 26, contains reference to the auditor; Auditor should be capitalized. These titles are correctly capitalized throughout the remainder of the bill, consistent with established legislative bill drafting guidelines.

Lastly, §6-5-1, page 36, line 9, states “judges of the Supreme Court of Appeals”; this should state “justices” instead of “judges”.

Sincerely,

Earl Ray Tomblin,
Governor.

A line shall separate each candidate from
every other candidate for the same office. Notwithstanding any other provision of this code, if there are multiple vacant positions on a ballot for one office, the multiple vacant positions which would otherwise be filled with the words “No Candidate Filed” may be replaced with a brief detailed description, approved by the Secretary of State, indicating that there are no candidates listed for the vacant positions.

On paper ballots, the ballot is to be bordered by a solid line at least one sixteenth of an inch wide and the ballot is to be trimmed to within one-half inch of that border.

Senate Resolution No. 52—Recognizing May 4, 2015, as National FPIES Awareness Day.

Whereas, Food Protein Induced Enterocolitis Syndrome, also known as FPIES, is a clinically documented medical condition known to occur in infants and young children, with potentially life-threatening consequences if not properly diagnosed and managed; and

Whereas, FPIES has been diagnosed in a small, but statistically significant, portion of infants and, because this condition is frequently misdiagnosed, it is likely to occur in greater numbers than currently known; and

Whereas, FPIES and other gastrointestinal hypersensitivity disorders are easily misdiagnosed because they do not present the same symptoms as more commonly understood allergic reactions and there are, as yet, no diagnostic tests that are specific for FPIES and similar disorders; and

Whereas, FPIES is a disease that can only be managed, as there is no cure and no treatment for its symptoms; and

Whereas, The management of FPIES and the care of an afflicted patient often requires strict adherence to a diet of chemically modified formula in infants and specially manufactured, elemental foods for older children that may cost thousands of dollars per month; and

Whereas, Knowledge of the nature of FPIES and other gastrointestinal hypersensitivity disorders has been slow to spread and these disorders are little known outside a small community of specialists; and

Whereas, This lack of knowledge and understanding has adversely affected patients in emergency departments and urgent
care centers and has resulted in inconsistent and long-delayed responses from many insurance providers; therefore, be it

Resolved by the Senate:

That the Senate hereby recognizes May 4, 2015, as National FPIES Awareness Day; and, be it

Further Resolved, That greater awareness of Food Protein Induced Enterocolitis Syndrome and other gastrointestinal hypersensitivity disorders be fostered through appropriate research, public hearings and public information initiatives; and, be it

Further Resolved, That the Clerk is hereby directed to forward a copy of this resolution to appropriate representatives from National FPIES Awareness Day.

ARTICLE 7. GENERAL PROVISIONS.

§49-7-37. Annual report to Legislature.

The Commissioner of the Bureau for Children and Families shall make a child fatality and new fatality report to the Legislative Oversight Commission on Health and Human Resources Accountability. The first report shall be due by July 1, 2015, and is
due on July 1 annually thereafter. The report shall be based upon public proceedings, records, reports, case histories and other documents of the Division of Child Protective Services.

CHAPTER 5. GENERAL POWERS AND AUTHORITY OF THE GOVERNOR, SECRETARY OF STATE AND ATTORNEY GENERAL; BOARD OF PUBLIC WORKS; MISCELLANEOUS AGENCIES, COMMISSIONS, OFFICES, PROGRAMS, ETC.

ARTICLE 30. EARLY CHILDHOOD ADVISORY COUNCIL.

§5-30-1. Legislative findings.

The Legislature hereby finds that:

(1) Early childhood development is of critical importance to children, families, communities, the education system, employers and the economy; and

(2) The first three years of life are the peak time for development of the brain’s architecture for vision, hearing, language and other cognitive functions. This is what sets the stage for all later learning and why nurturing relationships and environments are crucial in early childhood; and

(3) Thirty percent of West Virginia boys and girls under age six live in poverty. Research in brain development shows that social, emotional and cognitive development is shaped in early childhood
and has a lifelong effect. Children who live in poverty are five times more likely to have children outside marriage, twice as likely to be arrested, and nearly three times as likely to have severe health problems. Children who live in poverty also end up earning incomes less than half those of their counterparts; and

(4) The West Virginia prison population has tripled in the last twenty years, and our state spends more than $23,000 on each inmate, which is roughly the cost of providing full-time quality child care to five young children. Taking care of our most vulnerable children is not only the right thing to do; it is the best way to help our state’s health, welfare, and economy in the long run; and

(5) Returns on investments in human development are the highest during the first three years of life, according to Nobel-winning economist James Heckman and other researchers. Children who participate in high-quality early care and education are more likely to succeed in school and adult life. Better child outcomes lead to a host of societal benefits, including fewer costs for remedial programs, higher college-going rates and a stronger workforce; and

(6) In West Virginia, the long-term economic benefit of high-quality early childhood programs is estimated at $5.20 for each dollar invested, according to a 2005 study by the Center for Business and Economic Research at Marshall University. The study identified four major benefits to West Virginia’s families and economy: (A) Increasing the capacity of children to become more productive workers and citizens; (B) providing quality child care so that parents can work; (C) providing a major industry with a significant number of jobs; and (D) producing returns on investment to public and private money in excess of returns to other economic development programs; and

(7) The highest quality home visiting programs, over time, yield returns of up to $5.70 per taxpayer dollar spent in reduced mental health and criminal justice costs, decreased dependence on public

(8) John Pepper, former Chief Executive Officer of Procter & Gamble, has stated that business leaders “are powerful allies in the effort to invest scarce public dollars in high-quality home visiting programs. We have seen compelling evidence that home visitation provides dramatic and cost-effective improvements in helping children enter kindergarten ready to learn. There is no better investment for our future than this.”; and

(9) Despite extensive efforts to improve childhood well-being, West Virginia was ranked thirty-seventh in the nation in the “2014 Kids County Data Book,” published by the Annie E. Casey foundation, based in part on risk factors related to the high rate of poverty in the state; and

(10) West Virginia is committed to evidence-based early childhood programs that promote prenatal and child health, early learning, social and emotional abilities, and family engagement and well-being; and

(11) Early childhood programs must be of sufficiently high quality to achieve positive outcomes, with qualified staff, a healthy learning environment, evidence-based services, strong parent involvement and effective collaboration among the various programs serving pregnant women, young children and their families. Quality also depends on state-level support for professional development, data for planning and evaluation, quality improvement systems and sufficient program funding; and

(12) Research has shown that prevention, early identification, effective interventions and appropriate support can help avoid or reduce adverse experiences and promote healthy development. The Strengthening Families framework, used in West Virginia and
nation ally, focuses on building five protective factors: Parental resilience, social connections, knowledge of parenting and child development, concrete support in times of need and social and emotional competence of children; and

(13) Improvements in wages, benefits and opportunities for advancement in the early childhood field are needed in order to recruit and retain qualified workers and provide the positive, stable relationships that help children thrive. Reimbursement rates for West Virginia child care providers serving subsidized children have not been raised since 2009 and are significantly below seventy-five percent of market rate, the minimum recommended by the federal child care and development block grant; and

(14) Health care providers play a pivotal role in early development. Beyond the health services they provide, many serve as the gateway to other child development services and are instrumental in statewide efforts to prevent and reduce substance abuse during pregnancy; and

(15) Effective governance is needed for the overall early childhood system that ensures coordination, alignment, efficiency and accountability; and

(16) West Virginia’s current early childhood data systems are insufficient to provide for effective system planning, evaluation and accountability, and the creation of a system that links program-specific data systems is needed; and

(17) Recognizing the importance of the earliest years of a child’s life, Governor Tomblin created the West Virginia Early Childhood Planning Task Force in May 2013 (2013 W.V. Executive Order No. 5); and

(18) The task force conducted extensive research and released a development plan for the state’s early childhood system. The task force’s findings confirm that West Virginia will benefit from the
development and implementation of a comprehensive plan for early childhood development that clearly defines the services and programs most likely to advance the health, development and school readiness of young children. The purpose of this article is to implement recommendations from the task force report “Building a System for Early Success: A Development Plan for Early Childhood in West Virginia” and to fully invest in the health, development and well-being of the state’s young children.

§5-30-2. Definitions.

(a) “Early Childhood Advisory Council” or “Council” means the council created by the Governor by 2010 W.V. Executive Order No. 9-10 and codified in section three of this article.

(b) “Early childhood system” includes, but is not limited to, West Virginia Birth to Three, West Virginia Home Visitation Program, West Virginia PreK, Head Start and Early Head Start federal grantees in West Virginia, child care programs, Family Resource and Starting Points Centers, Family Resource Networks and County Collaborative Early Childhood Teams.

§5-30-3. Continuation of West Virginia Early Childhood Advisory Council.

(a) The Legislature hereby continues the West Virginia Early Childhood Advisory Council, created by 2010 W.V. Executive Order No. 9-10, and amended thereafter, consisting of the following current members:

(1) The Director of the Division of Early Care and Education, Bureau for Children and Families, Department of Health and Human Resources;

(21) The Secretary of the Department of Education and the Arts, who is the chairperson.

(b) All current representatives on the council shall remain on the council until the expiration of their terms, unless they otherwise resign or are removed.

(c) Any vacancy on the council shall be filled by appointment by the Governor and that new appointee shall serve for three years from the date of appointment. Any representative on the council may be reappointed by the Governor for additional three year terms of service.

(d) The council shall continue to have the duties and responsibilities set forth in 2010 W.V. Executive Order No. 9-10 and its bylaws.

(e) As necessary to fulfill the priorities of this article, the council may submit reports to the Governor and the Legislative Joint Committee on Government and Finance. The Joint Committee on Government and Finance shall distribute any such reports to the West Virginia Legislative Oversight Commission on Education Accountability and the West Virginia Legislative Oversight Commission on Health and Human Resources Accountability.

(f) Members of the council receive no compensation. Each state employee member of the council is entitled to be reimbursed by their
employing agency for reasonable actual and necessary expenses incurred for each day or portion thereof engaged in the discharge of official duties in a manner consistent with guidelines of the travel management office of the Department of Administration.

In order to provide greater guidance and focus, the Legislature concludes that the council will be guided by the following priorities:

(1) Create an integrated data system across all early childhood programs;

(2) Statewide expansion of West Virginia home visitation program;

(3) Expanded eligibility definition for West Virginia birth to three;

(4) Implementation of quality rating and improvement system, including incentive payments;

(5) Raising family income limits for child care subsidies and increasing provider reimbursement rates for subsidized children;

(6) Implementing a statewide full-day, high-quality early learning and child care program for three-year-olds;

(7) Improving system planning, evaluation, development and governance;

(8) Expanding perinatal drug abuse prevention and treatment; and

(9) Providing quality tax credits for early childhood programs, staff and families.

The following amendment to the bill, from the Committee on the Judiciary, was reported by the Clerk:

By striking out everything after the enacting section and inserting in lieu thereof the following:

ARTICLE 4. DISABILITY AND DEATH BENEFITS.

§23-4-2. Disbursement where injury is self-inflicted or intentionally caused by employer; legislative declarations and findings; “deliberate intention” defined.
(a) Notwithstanding anything contained in this chapter, no employee or dependent of any employee is entitled to receive any sum under the provisions of this chapter on account of any personal injury to or death to any employee caused by a self-inflicted injury or the intoxication of the employee. Upon the occurrence of an injury which the employee asserts, or which reasonably appears to have, occurred in the course of and resulting from the employee’s employment, the employer may require the employee to undergo a blood test for the purpose of determining the existence or nonexistence of evidence of intoxication: Provided, That the employer must have a reasonable and good faith objective suspicion of the employee’s intoxication and may only test for the purpose of determining whether the person is intoxicated. If any blood test for intoxication is given following an accident, at the request of the employer or otherwise, and if any of the following are true, the employee is deemed intoxicated and the intoxication is the proximate cause of the injury:

1. If a blood test is administered within two hours of the accident and evidence that there was, at that time, more than five hundredths of one percent, by weight, of alcohol in the employee’s blood; or

2. If there was, at the time of the blood test, evidence of either on or off the job use of a nonprescribed controlled substance as defined in the West Virginia Uniform Controlled Substances Act, West Virginia Code §60A-2-201, et seq., Schedules I, II, III, IV and V.

(b) For the purpose of this chapter, the commission may cooperate with the Office of Miners’ Health, Safety and Training and the State Division of Labor in promoting general safety programs and in formulating rules to govern hazardous employments.

(c) If injury results to any employee from the deliberate intention of his or her employer to produce the injury or death, the employee, or, if the employee has been found to be incompetent, his or her conservator or guardian, may recover under this chapter and bring
a cause of action against the employer, as if this chapter had not been enacted, for any excess of damages over the amount received or receivable in a claim for benefits under this chapter. If death results to any employee from the deliberate intention of his or her employer to produce the injury or death, the representative of the estate may recover under this chapter and bring a cause of action, pursuant to section six, article seven of chapter fifty-five of this code, against the employer, as if this chapter had not been enacted, for any excess of damages over the amount received or receivable in a claim for benefits under this chapter. To recover under this section, the employee, the employee’s representative or dependent, as defined under this chapter, must, unless good cause is shown, have filed a claim for benefits under this chapter.

(d) (1) It is declared that enactment of this chapter and the establishment of the workers’ compensation system in this chapter was and is intended to remove from the common law tort system all disputes between or among employers and employees regarding the compensation to be received for injury or death to an employee except as expressly provided in this chapter and to establish a system which compensates even though the injury or death of an employee may be caused by his or her own fault or the fault of a co-employee; that the immunity established in sections six and six-a, article two of this chapter is an essential aspect of this workers’ compensation system; that the intent of the Legislature in providing immunity from common lawsuit was and is to protect those immunized from litigation outside the workers’ compensation system except as expressly provided in this chapter; that, in enacting the immunity provisions of this chapter, the Legislature intended to create a legislative standard for loss of that immunity of more narrow application and containing more specific mandatory elements than the common law tort system concept and standard of willful, wanton and reckless misconduct; and that it was and is the legislative intent to promote prompt judicial resolution of the question of whether a suit prosecuted under the asserted authority of this section is or is not prohibited by the immunity granted under this chapter.
(2) The immunity from suit provided under this section and under sections six and six-a, article two of this chapter may be lost only if the employer or person against whom liability is asserted acted with “deliberate intention”. This requirement may be satisfied only if:

(A) It is proved that the employer or person against whom liability is asserted acted with a consciously, subjectively and deliberately formed intention to produce the specific result of injury or death to an employee. This standard requires a showing of an actual, specific intent and may not be satisfied by allegation or proof of: (i) Conduct which produces a result that was not specifically intended; (ii) conduct which constitutes negligence, no matter how gross or aggravated; or (iii) willful, wanton or reckless misconduct; or

(B) The trier of fact determines, either through specific findings of fact made by the court in a trial without a jury, or through special interrogatories to the jury in a jury trial, that all of the following facts are proven:

(i) That a specific unsafe working condition existed in the workplace which presented a high degree of risk and a strong probability of serious injury or death;

(ii) That the employer, prior to the injury, had actual knowledge of the existence of the specific unsafe working condition and of the high degree of risk and the strong probability of serious injury or death presented by the specific unsafe working condition.

(I) In every case actual knowledge must specifically be proven by the employee or other person(s) seeking to recover under this section, and shall not be deemed or presumed: Provided, That actual knowledge may be shown by evidence of intentional and deliberate failure to conduct an inspection, audit or assessment required by state or federal statute or regulation and such inspection, audit or assessment is specifically intended to identify each alleged specific unsafe working condition.
(II) Actual knowledge is not established by proof of what an employee’s immediate supervisor or management personnel should have known had they exercised reasonable care or been more diligent.

(III) Any proof of the immediate supervisor or management personnel’s knowledge of prior accidents, near misses, safety complaints or citations from regulatory agencies must be proven by documentary or other credible evidence.

(iii) That the specific unsafe working condition was a violation of a state or federal safety statute, rule or regulation, whether cited or not, or of a commonly accepted and well-known safety standard within the industry or business of the employer.

(I) If the specific unsafe working condition relates to a violation of a commonly accepted and well-known safety standard within the industry or business of the employer, that safety standard must be a consensus written rule or standard promulgated by the industry or business of the employer, such as an organization comprised of industry members: Provided, That the National Fire Protection Association Codes and Standards or any other industry standards for Volunteer Fire Departments shall not be cited as an industry standard for Volunteer Fire Departments, Municipal Fire Departments and Emergency Medical Response Personnel as an unsafe working condition as long as the Volunteer Fire Departments, Municipal Fire Departments and the Emergency Medical Response Personnel have followed the Rules that have been promulgated by the Fire Commission.

(II) If the specific unsafe working condition relates to a violation of a state or federal safety statute, rule or regulation that statute, rule or regulation:

(a) Must be specifically applicable to the work and working condition involved as contrasted with a statute, rule, regulation or
standard generally requiring safe workplaces, equipment or working conditions;

(b) Must be intended to address the specific hazard(s) presented by the alleged specific unsafe working condition; and,

(c) The applicability of any such state or federal safety statute, rule or regulation is a matter of law for judicial determination.

(iv) That notwithstanding the existence of the facts set forth in subparagraphs (i) through (iii), inclusive, of this paragraph, the person or persons alleged to have actual knowledge under subparagraph (ii) nevertheless intentionally thereafter exposed an employee to the specific unsafe working condition; and

(v) That the employee exposed suffered serious compensable injury or compensable death as defined in section one, article four, chapter twenty-three as a direct and proximate result of the specific unsafe working condition. For the purposes of this section, serious compensable injury may only be established by one of the following four methods:

(I) It is shown that the injury, independent of any preexisting impairment:

(a) Results in a permanent physical or combination of physical and psychological injury rated at a total whole person impairment level of at least thirteen percent (13%) as a final award in the employees workers’ compensation claim; and

(b) Is a personal injury which causes permanent serious disfigurement, causes permanent loss or significant impairment of function of any bodily organ or system, or results in objectively verifiable bilateral or multi-level dermatomal radiculopathy; and is not a physical injury that has no objective medical evidence to support a diagnosis; or
(II) Written certification by a licensed physician that the employee is suffering from an injury or condition that is caused by the alleged unsafe working condition and is likely to result in death within eighteen (18) months or less from the date of the filing of the complaint. The certifying physician must be engaged or qualified in a medical field in which the employee has been treated, or have training and/or experience in diagnosing or treating injuries or conditions similar to those of the employee and must disclose all evidence upon which the written certification is based, including, but not limited to, all radiographic, pathologic or other diagnostic test results that were reviewed.

(III) If the employee suffers from an injury for which no impairment rating may be determined pursuant to the rule or regulation then in effect which governs impairment evaluations pursuant to this chapter, serious compensable injury may be established if the injury meets the definition in subclause (I)(b).

(IV) If the employee suffers from an occupational pneumoconiosis, the employee must submit written certification by a board certified pulmonologist that the employee is suffering from complicated pneumoconiosis or pulmonary massive fibrosis and that the occupational pneumoconiosis has resulted in pulmonary impairment as measured by the standards or methods utilized by the West Virginia Occupational Pneumoconiosis Board of at least fifteen percent (15%) as confirmed by valid and reproducible ventilatory testing. ARTICLE 7E. ASBESTOS BANKRUPTCY TRUST CLAIMS TRANSPARENCY ACT.

§55-7E-1. Short title.

This article shall be known and may be cited as the Asbestos Bankruptcy Trust Claims Transparency Act.

§55-7E-2. Findings and purpose.

(a) The West Virginia Legislature finds that:

(1) The United States Supreme Court in Amchem Prods., Inc. v. Windsor, 521 U. S. 591, 598 (1997) described the asbestos litigation as a crisis;

(2) Approximately one hundred employers have declared bankruptcy at least partially due to asbestos-related liability;

(3) These bankruptcies have resulted in a search for more solvent companies, resulting in over eight thousand five hundred companies being named as asbestos defendants, including many small- and medium-sized companies, in industries that cover eighty-five percent of the United States economy;

(4) Scores of trusts have been established in asbestos-related bankruptcy proceedings to form a multi-billion dollar asbestos bankruptcy trust compensation system outside of the tort system, and new asbestos trusts continue to be formed;
(5) Asbestos claimants often seek compensation for alleged asbestos-related conditions from solvent defendants in civil actions and from trusts or claims facilities formed in asbestos bankruptcy proceedings;

(6) There is limited coordination and transparency between these two paths to recovery;

(7) An absence of transparency between the asbestos bankruptcy trust claim system and the civil court systems has resulted in the suppression of evidence in asbestos actions and potential fraud;

(8) West Virginia’s Mass Litigation Panel has previously entered cases management orders that apply substantive transparency provisions requiring plaintiffs to disclose, among other things, any claims that may exist against asbestos bankruptcy trusts; and

(9) It is in the interest of justice that there be transparency for claims made in the asbestos bankruptcy trust claim system and for claims made in civil asbestos litigation.

(b) It is the purpose of this article to:

(1) Provide transparency for claims made in the asbestos bankruptcy trust claim system and for claims made in civil asbestos litigation; and

(2) Reduce the opportunity for fraud or suppression of evidence in asbestos actions.

§55-7E-3. Definitions.

For the purpose of this article:

(1) “Asbestos action” means a claim for damages or other civil or equitable relief presented in a civil action arising out of, based on or related to the health effects of exposure to asbestos, including loss
of consortium, wrongful death, mental or emotional injury, risk or fear of disease or other injury, costs of medical monitoring or surveillance and any other derivative claim made by or on behalf of a person exposed to asbestos or a representative, spouse, parent, child or other relative of that person. The term does not include a claim for compensatory benefits pursuant to workers’ compensation law or for veterans’ benefits as defined by article seven-f of this chapter.

(2) “Asbestos trust” means a government-approved or court-approved trust, qualified settlement fund, compensation fund or claims facility created as a result of an administrative or legal action, a court-approved bankruptcy, or pursuant to 11 U. S. C. §524(g) or 11 U. S. C. §1121(a) or other applicable provision of law, that is intended to provide compensation to claimants arising out of, based on or related to the health effects of exposure to asbestos.

(3) “Plaintiff” means a person asserting an asbestos action, a decedent if the action is brought through or on behalf of an estate, or a parent or guardian if the action is brought through or on behalf of a minor or incompetent.

(4) “Trust claims materials” means a final executed proof of claim and all other documents and information related to a claim against an asbestos trust, including claims forms and supplementary materials, affidavits, depositions and trial testimony, work history, medical and health records, documents reflecting the status of a claim against an asbestos trust, and if the asbestos trust claim has settled, all documents relating to the settlement of the asbestos trust claim.

(5) “Trust governance documents” means all documents that relate to eligibility and payment levels, including claims payment matrices, trust distribution procedures, or plans for reorganization, for an asbestos trust.

§55-7E-4. Required disclosures by plaintiff.
(a) For each asbestos action filed in this state, the plaintiff shall provide all parties with a sworn statement identifying all asbestos trust claims that have been filed by the plaintiff or by anyone on the plaintiff’s behalf, including claims with respect to asbestos-related conditions other than those that are the basis for the asbestos action or that potentially could be filed by the plaintiff against an asbestos trust. The sworn statement shall be provided no later than one hundred twenty days prior to the date set for trial for the asbestos action. For each asbestos trust claim or potential asbestos trust claim identified in the sworn statement, the statement shall include the name, address and contact information for the asbestos trust, the amount claimed or to be claimed by the plaintiff, the date the plaintiff filed the claim, the disposition of the claim and whether there has been a request to defer, delay, suspend, or toll the claim. The sworn statement shall include an attestation from the plaintiff, under penalties of perjury, that the sworn statement is complete and is based on a good faith investigation of all potential claims against asbestos trusts.

(b) The plaintiff shall make available to all parties all trust claims materials for each asbestos trust claim that has been filed by the plaintiff or by anyone on the plaintiff’s behalf against an asbestos trust, including any asbestos-related disease.

(c) The plaintiff shall supplement the information and materials provided pursuant to this section within ninety days after the plaintiff files an additional asbestos trust claim, supplements an existing asbestos trust claim or receives additional information or materials related to any claim or potential claim against an asbestos trust.

(d) Failure by the plaintiff to make available to all parties all trust claims materials as required by this article shall constitute grounds for the court to extend the trial date in an asbestos action.

§55-7E-5. Discovery; use of materials.

(a) Trust claims materials and trust governance documents are presumed to be relevant and authentic and are admissible in
evidence. No claims of privilege apply to any trust claims materials or trust governance documents.

(b) A defendant in an asbestos action may seek discovery from an asbestos trust. The plaintiff may not claim privilege or confidentiality to bar discovery and shall provide consent or other expression of permission that may be required by the asbestos trust to release information and materials sought by a defendant.

§55-7E-6. Scheduling trial; stay of action.

(a) A court shall stay an asbestos action if the court finds that the plaintiff has failed to make the disclosures required under section four of this article within one hundred twenty days prior to the trial date.

(b) If, in the disclosures required by section four of this article, a plaintiff identifies a potential asbestos trust claim, the judge shall have the discretion to stay the asbestos action until the plaintiff files the asbestos trust claim and provides all parties with all trust claims materials for the claim. The plaintiff shall also state whether there has been a request to defer, delay, suspend, or toll the claim against the asbestos trust.

§55-7E-7. Identification of additional or alternative asbestos trusts by defendant.

(a) Not less than ninety days before trial, if a defendant identifies an asbestos trust claim not previously identified by the plaintiff that the defendant reasonably believes the plaintiff can file, the defendant shall meet and confer with plaintiff to discuss why defendant believes plaintiff has an additional asbestos trust claim, and thereafter the defendant may move the court for an order to require the plaintiff to file the asbestos trust claim. The defendant shall produce or describe the documentation it possesses or is aware of in support of the motion.
(b) Within ten days of receiving the defendant’s motion under subsection (a) of this section, the plaintiff shall, for each asbestos trust claim identified by the defendant, make one of the following responses:

(1) File the asbestos trust claim;

(2) File a written response with the court setting forth the reasons why there is insufficient evidence for the plaintiff to file the asbestos trust claim; or

(3) File a written response with the court requesting a determination that the plaintiff’s expenses or attorney’s fees and expenses to prepare and file the asbestos trust claim identified in the defendant’s motion exceed the plaintiff’s reasonably anticipated recovery from the trust.

(c) (1) If the court determines that there is a sufficient basis for the plaintiff to file the asbestos trust claim identified by a defendant, the court shall order the plaintiff to file the asbestos trust claim and shall stay the asbestos action until the plaintiff files the asbestos trust claim and provides all parties with all trust claims materials no later than thirty days before trial.

(2) If the court determines that the plaintiff’s expenses or attorney’s fees and expenses to prepare and file the asbestos trust claim identified in the defendant’s motion exceed the plaintiff’s reasonably anticipated recovery from the asbestos trust, the court shall stay the asbestos action until the plaintiff files with the court and provides all parties with a verified statement of the plaintiff’s history of exposure, usage, or other connection to asbestos covered by the asbestos trust.

(d) Not less than thirty days prior to trial in an asbestos action, the court shall enter into the record a trust claims document that identifies each claim the plaintiff has made against an asbestos trust.
§55-7E-8. Valuation of asbestos trust claims; judicial notice.

(a) If a plaintiff proceeds to trial in an asbestos action before an asbestos trust claim is resolved, the filing of the asbestos trust claim may be considered as relevant and admissible evidence.

(b) Trust claim materials that are sufficient to entitle a claim to consideration for payment under the applicable trust governance documents may be sufficient to support a jury finding that the plaintiff may have been exposed to products for which the asbestos trust was established to provide compensation and that such exposure may be a substantial factor in causing the plaintiff’s injury that is at issue in the asbestos action.

§55-7E-9. Setoff; credit.

In any asbestos action in which damages are awarded, a defendant is entitled to a setoff or credit in the amount of the valuation established under the applicable trust governance documents, including payment percentages for asbestos trust claims pending at trial and any amount the plaintiff has been awarded from an asbestos trust claim that has been identified at the time of trial. If multiple defendants are found liable for damages, the court shall distribute the amount of setoff or credit proportionally between the defendants, according to the liability of each defendant.

§55-7E-10. Failure to provide information; sanctions.

A plaintiff who fails to provide all of the information required under this article is subject to sanctions as provided in the West Virginia Rules of Civil Procedure and any other relief for the defendants that the court considers just and proper.

§55-7E-11. Application.

The provisions of this article apply to all asbestos actions filed on or after the effective date of this article.
ARTICLE 7F. ASBESTOS AND SILICA CLAIMS PRIORITIES ACT.

§55-7F-1. Short title.

This article shall be known and may be cited as the Asbestos and Silica Claims Priorities Act.

§55-7F-2. Findings and purpose.

(a) The West Virginia Legislature finds that:

(1) Asbestos is a mineral that was widely used prior to the 1980s for insulation, fireproofing and other purposes;

(2) Millions of American workers and others were exposed to asbestos, especially during and after World War II and prior to the promulgation of regulations by the Occupational Safety and Health Administration in the early 1970s;

(3) Exposure to asbestos has been associated with various types of cancer, including mesothelioma and lung cancer, as well as nonmalignant conditions such as asbestosis and diffuse pleural thickening;

(4) Diseases caused by asbestos often have long latency periods;

(5) Although the use of asbestos has dramatically declined since the 1970s and workplace exposures have been regulated since 1971 by the Occupational Safety and Health Administration, past exposures will continue to result in significant claims of death and disability as a result of such exposure;

(6) Over the years, West Virginia courts have been deluged with asbestos lawsuits;

(7) The United States Supreme Court in Amchem Prods., Inc. v. Windsor, 521 U. S. 591, 598 (1997), described the asbestos litigation as a crisis;
(8) Lawyer-sponsored x-ray screenings have been used to amass large numbers of claims by unimpaired plaintiffs;

(9) One of the country’s most prolific B-readers was a doctor from West Virginia;

(10) Approximately one hundred employers have declared bankruptcy at least partially due to asbestos-related liability;

(11) These bankruptcies have resulted in a search for more solvent companies, resulting in over eight thousand five hundred companies being named as asbestos defendants nationally and many in West Virginia, including many small- and medium-sized companies, in industries that cover eighty-five percent of the United States economy;

(12) Silica is a naturally occurring mineral as the earth’s crust is over ninety percent silica, and crystalline silica dust is the basic component of sand, quartz and granite;

(13) Silica-related illness, including silicosis, can develop from the prolonged inhalation of respirable silica particles;

(14) Silica claims, like asbestos claims, have involved individuals with no demonstrable physical impairment, and plaintiffs have been identified through the use of for-profit, screening companies;

(15) Silica screening processes have been found subject to substantial abuse and potential fraud;

(16) The cost of compensating plaintiffs who have no present asbestos-related or silica-related physical impairment, and the cost of litigating their claims, jeopardizes the ability of defendants to compensate people with cancer and other serious asbestos-related diseases and adversely affects defendant companies;

(17) Concerns about statutes of limitations and available funds can prompt unimpaired asbestos and silica claimants to bring
lawsuits in order to protect against losing their rights to future compensation should they become impaired;

(18) Trial consolidations, joinders and similar trial procedures used by some courts to handle asbestos and silica cases can undermine the appropriate functioning of the courts, deny due process to plaintiffs and defendants and encourage the filing of cases by unimpaired asbestos and silica plaintiffs; and

(19) The public interest requires giving priority to the claims of exposed individuals who are sick in order to help preserve, now and for the future, defendants’ ability to compensate people who develop cancer and other serious asbestos-related diseases, as well as silica-related injuries, and to safeguard the jobs, benefits and savings of workers in West Virginia and the well-being of the West Virginia economy.

(b) It is the purpose of this article to:

(1) Give priority to asbestos and silica claimants who can demonstrate actual physical impairment caused by exposure to asbestos or silica;

(2) Toll the running of the statutes of limitations for persons who have been exposed to asbestos or to silica but who have no present physical impairment caused by such exposure;

(3) Enhance the ability of the courts to supervise and manage asbestos and silica cases;

(4) Reduce the opportunity for fraud in asbestos and silica litigation; and

(5) Conserve the defendants’ resources to allow compensation to present and future claimants with physical impairment caused by exposure to asbestos or silica.

§55-7F-4. Filing claims, establishment of a prima facie case, additional required information for new nonmalignant claims, individual actions to be filed.

(a) A plaintiff in an asbestos or silica action alleging a nonmalignant condition shall file within ninety days of filing the complaint or other initial pleading a detailed narrative medical report and diagnosis, signed by a qualified physician and accompanied by supporting test results, constituting prima facie evidence that the exposed person meets the requirements of this article. The report shall not be prepared by a lawyer or person working for or on behalf of a lawyer or law firm.

(b) A defendant in an asbestos or silica action shall be afforded a reasonable opportunity before trial to challenge the adequacy of
the prima facie evidence that the exposed person meets the requirements of this article. An asbestos or silica action shall be dismissed without prejudice upon a finding that the exposed person has failed to make the prima facie showing required by this article.

(c) A plaintiff in an asbestos or silica action filed on or after the effective date of this article shall also include an information form with the complaint for nonmalignant conditions containing all of the following:

(1) The name, address, date of birth, social security number, marital status, occupation and employer of the exposed person and any person through which the exposed person alleges exposure;

(2) The plaintiff’s relationship to the exposed person or the person through which the exposure is alleged;

(3) To the best of the plaintiff’s ability, the location and manner of each alleged exposure, including the specific location and manner of exposure for any person through which the exposed person alleges exposure, the beginning and ending dates of each alleged exposure and the identity of the manufacturer of the specific asbestos or silica product for each exposure when this information is reasonably available;

(4) The identity of the defendant or defendants against whom the plaintiff asserts a claim;

(5) The specific asbestos-related or silica-related disease claimed to exist; and

(6) Any supporting documentation relating to subdivisions (3), (4) and (5) of this subsection.

(d) Asbestos and silica actions must be individually filed. No asbestos or silica action filed on or after the effective date of this article shall be permitted on behalf of a group or class of plaintiffs.
§55-7F-5. Elements of proof for asbestos actions alleging a nonmalignant asbestos-related condition.

(a) No asbestos action related to an alleged nonmalignant asbestos-related condition may be brought or maintained in the absence of prima facie evidence that the exposed person has a physical impairment for which asbestos exposure was a substantial contributing factor. The plaintiff shall make a prima facie showing of claim for each defendant and include a detailed narrative medical report and diagnosis signed under oath by a qualified physician that includes all of the following:

1. Radiological or pathological evidence of asbestosis or radiological evidence of diffuse bilateral pleural thickening or a high-resolution computed tomography scan showing evidence of asbestosis or diffuse pleural thickening;

2. A detailed occupational and exposure history from the exposed person or, if that person is deceased, from the person most knowledgeable about the exposures that form the basis of the action, including identification of all of the exposed person’s principal places of employment and exposures to airborne contaminants and whether each place of employment involved exposures to airborne contaminants, including asbestos fibers or other disease causing dusts or fumes, that may cause pulmonary impairment and the nature, duration, and level of any exposure;

3. A detailed medical, social and smoking history from the exposed person or, if that person is deceased, from the person most knowledgeable, including a thorough review of the past and present medical problems of the exposed person and their most probable cause;

4. Evidence verifying that at least fifteen years have elapsed between the exposed person’s date of first exposure to asbestos and the date of diagnosis;

5. Evidence from a personal medical examination and pulmonary function testing of the exposed person or, if the exposed
person is deceased, from the person’s medical records, that the exposed person has or the deceased person had a permanent respiratory impairment rating of at least Class 2 as defined by and evaluated pursuant to the AMA’s Guides to the Evaluation of Permanent Impairment or reported significant changes year to year in lung function for FVC, FEV1 or DLCO as defined by the American Thoracic Society’s Interpretative Strategies for Lung Function Tests, 26 European Respiratory Journal 948-68, 961-62, Table 12 (2005) and as updated;

(6) Evidence that asbestosis or diffuse bilateral pleural thickening, rather than chronic obstructive pulmonary disease, is a substantial factor to the exposed person’s physical impairment, based on a determination the exposed person has:

(A) Forced vital capacity below the predicted lower limit of normal and FEV1/FVC ratio (using actual values) at or above the predicted lower limit of normal;

(B) Total lung capacity, by plethysmography or timed gas dilution, below the predicted lower limit of normal; or

(C) A chest x-ray showing bilateral small, irregular opacities (s, t or u) graded by a certified B-reader as at least 2/1 on the ILO scale; and

(7) The specific conclusion of the qualified physician signing the report that exposure to asbestos was a substantial contributing factor to the exposed person’s physical impairment and not more probably the result of other causes. An opinion that the medical findings and impairment are consistent with or compatible with exposure to asbestos, or words to that effect, do not satisfy the requirements of this subdivision.

(b) If the alleged nonmalignant asbestos-related condition is a result of an exposed person living with or having extended contact with another exposed person who, if the asbestos action had been filed by the other exposed person would have met the requirements
of subdivision (2), subsection (a) of this section, and the exposed person alleges extended contact with the other exposed person during the relevant time period, the detailed narrative medical report and diagnosis shall include all of the information required by subsection (a) of this section, except that the exposure history required under subdivision (2), subsection (a) of this section shall describe the exposed person’s history of exposure to the other exposed person.

§55-7F-6. Elements of proof for silica actions alleging silicosis.

No silica action related to alleged silicosis may be brought or maintained in the absence of prima facie evidence that the exposed person has a physical impairment as a result of silicosis. The plaintiff shall make a prima facie showing of claim for each defendant and include a detailed narrative medical report and diagnosis signed under oath by a qualified physician that includes all of the following:

(1) Radiological or pathological evidence of silicosis or a high-resolution computed tomography scan showing evidence of silicosis;

(2) A detailed occupational and exposure history from the exposed person or, if that person is deceased, from the person most knowledgeable about the exposures that form the basis of the action, including identification of all principal places of employment and exposures to airborne contaminants and whether each place of employment involved exposures to airborne contaminants, including silica or other disease causing dusts or fumes, that may cause pulmonary impairment and the nature, duration and level of any exposure;

(3) A detailed medical, social and smoking history from the exposed person or, if that person is deceased, from the person most knowledgeable, including a thorough review of the past and present medical problems and their most probable cause;
(4) Evidence that a sufficient latency period has elapsed between the exposed person’s date of first exposure to silica and the day of diagnosis;

(5) Evidence based upon a personal medical examination and pulmonary function testing of the exposed person or, if the exposed person is deceased, based upon the person’s medical records, demonstrating that the exposed person has or the deceased person had a permanent respiratory impairment rating of at least Class 2 as defined by and evaluated pursuant to the AMA’s Guides to the Evaluation of Permanent Impairment or reported significant changes year to year in lung function for FVC, FEV1 or DLCO as defined by the American Thoracic Society’s Interpretative Strategies for Lung Function Tests, 26 European Respiratory Journal 948-68, 961-62, Table 12 (2005) and as updated; and

(6) The specific conclusion of the qualified physician signing the report that exposure to silica was a substantial contributing factor to the exposed person’s physical impairment and not more probably the result of other causes. An opinion stating that the medical findings and impairment are consistent with or compatible with exposure to silica, or words to that effect, do not satisfy the requirements of this subdivision.

§55-7F-7. Evidence of physical impairment.

Evidence relating to physical impairment, including pulmonary function testing and diffusing studies, offered in any action governed by this article or article seven-e of this chapter, shall:

(1) Comply with the quality controls, equipment requirements, methods of calibration and techniques set forth in the AMA’s Guides to the Evaluation of Permanent Impairment and all standards set forth in the Official Statements of the American Thoracic Society which are in effect on the date of any examination or pulmonary function testing of the exposed person required by this article;
(2) Not be obtained and may not be based on testing or examinations that violate any law, regulation, licensing requirement or medical code of practice of the state in which the examination, test or screening was conducted, or of this state; and

(3) Not be obtained under the condition that the plaintiff or exposed person retains the legal services of the attorney or law firm sponsoring the examination, test or screening.

(a) Evidence relating to the prima facie showings required under this article shall not create any presumption that the exposed person has an asbestos-related or silica-related injury or impairment and shall not be conclusive as to the liability of any defendant.

(b) No evidence shall be offered at trial, and the jury shall not be informed of:

(1) The grant or denial of a motion to dismiss an asbestos or silica action under the provisions of this article; or

(2) The provisions of this article with respect to what constitutes a prima facie showing of asbestos or silica-related impairment.

(c) Until a court enters an order determining that the exposed person has established prima facie evidence of impairment, no asbestos or silica action shall be subject to discovery, except discovery related to establishing or challenging the prima facie evidence or by order of the trial court upon motion of one of the parties and for good cause shown.

(d) Consolidation of cases.

(1) A court may consolidate for trial any number and type of nonmalignant asbestos or silica actions with the consent of all the parties. In the absence of such consent, the court may consolidate
for trial only asbestos or silica actions relating to the exposed person and members of that person’s household.

(2) No class action or any other form of mass aggregation relating to more than one exposed person and members of that person’s household shall be permitted.

(3) The provisions of this subsection do not preclude consolidation of cases by court order for pretrial or discovery purposes.

(a) With respect to an asbestos or silica action not barred by limitations as of this article’s effective date, an exposed person’s cause of action shall not accrue, nor shall the running of limitations commence, prior to the earlier of the date:

(1) The exposed person received a medical diagnosis of an asbestos-related impairment or silica-related impairment;

(2) The exposed person discovered facts that would have led a reasonable person to obtain a medical diagnosis with respect to the existence of an asbestos-related impairment or silica-related impairment; or

(3) The date of death of the exposed person having an asbestos-related or silica-related impairment.

(b) Nothing in this section shall be construed to revive or extend limitations with respect to any claim for asbestos-related impairment or silica-related impairment that was otherwise time-barred on the effective date of this article.

(c) Nothing in this section shall be construed so as to adversely affect, impair, limit, modify or nullify any settlement or other agreements with respect to an asbestos or silica action entered into prior to the effective date of this article.

ARTICLE 4A. ELECTRONIC VOTING SYSTEMS.

§3-4A-9. Minimum requirements of electronic voting systems.

An electronic voting system of particular make and design may not be approved by the State Election Commission or be purchased, leased or used by any county commission unless it meets the following requirements:

(1) It secures or ensures the voter absolute secrecy in the act of voting or, at the voter’s election, provides for open voting;

(2) It is constructed to ensure that, except in instances of open voting as provided in this section, the contents of a marked ballot may not be seen or known by anyone other than the voter who has voted or is voting;
(3) It permits each voter to vote at any election for all persons and offices for whom and which he or she is lawfully entitled to vote, whether or not the name of any person appears on a ballot as a candidate; and it permits each voter to vote for as many persons for an office as he or she is lawfully entitled to vote for; and to vote for or against any question upon which he or she is lawfully entitled to vote. The automatic tabulating equipment used in electronic voting systems is to reject choices recorded on any ballot if the number of choices exceeds the number to which a voter is entitled;

(4) It permits each voter to write in the names of persons for whom he or she desires to vote whose names do not appear upon the ballots;

(5) It permits each voter to change his or her vote for any candidate and upon any question appearing upon the ballots or ballot labels up to the time when his or her ballot is deposited in the ballot box or his or her ballot is cast by electronic means;

(6) It contains programming media containing sequentially numbered program instructions and coded or otherwise protected from tampering or substitution of the media or program instructions by unauthorized persons and capable of tabulating all votes cast in each election;

(7) It contains two standard validation test decks approved as to form and testing capabilities by the State Election Commission;

(8) It correctly records and counts accurately all votes cast for each candidate and for and against each question appearing upon the ballots;

(9) It permits each voter at any election, other than a primary election, to vote a straight party ticket, as provided in section five, article six of this chapter by one mark or punch;
It permits a voter in a primary election to: (A) Vote only for the candidates of the party for which the voter is legally permitted to vote; (B) vote for the candidates, if any, for nonpartisan nominations or election; and (C) vote on public questions; and precludes the voter from voting for any candidate seeking nomination by any other political party unless that political party has determined that the voter may participate in its primary election;

It, where applicable, is provided with means for sealing or electronically securing the vote-recording device to prevent its use and to prevent tampering with the device, both before the polls are open or before the operation of the vote-recording device for an election is begun and immediately after the polls are closed or after the operation of the vote-recording device for an election is completed;

It has the capacity to contain the names of candidates constituting the tickets of at least nine political parties and accommodates the wording of at least fifteen questions;

(A) Direct recording electronic voting machines must generate a paper copy of each voter’s vote that will be automatically kept within a storage container that is locked, closely attached to the direct-recording electronic voting machine and inaccessible to all but authorized voting officials, who will handle such storage containers and such paper copies contained therein in accordance with section nineteen of this article;

(B) The paper copy of the voter’s vote shall be generated at the time the voter is at the voting station using the direct-recording electronic voting machine;

(C) The voter may examine the paper copy visually or through headphone readout, and may accept or reject the printed copy;

(D) The voter may not touch, handle or manipulate the printed copy manually in any way;
(E) Once the printed copy of the voter’s votes is accepted by the voter as correctly reflecting the voter’s intent, but not before, it will automatically be stored for recounts or random checks and the electronic vote will be cast within the computer mechanism of the direct-recording electronic voting machine;

(F) Direct-recording electronic voting machines with a mandatory paper copy shall be approved by the Secretary of State. The Secretary of State may promulgate rules and emergency rules to implement or enforce this subsection pursuant to the provisions of section five, article three, chapter twenty-nine-a of this code;

(14) (13) Where vote-recording devices are used, they shall:

(A) Be durably constructed of material of good quality and in a workmanlike manner and in a form which makes it safely transportable;

(B) Bear a number that will identify it or distinguish it from any other machine;

(C) Be constructed to ensure that a voter may easily learn the method of operating it and may expeditiously cast his or her vote for all candidates of his or her choice and upon any public question; and

(D) Be accompanied by a mechanically or electronically operated instruction model which shows the arrangement of the ballot, party columns or rows and questions;

(15) (14) For electronic voting systems that utilize a screen upon which votes may be recorded by means of a stylus or by means of touch, they shall:

(A) Be constructed to provide for the direct electronic recording and tabulating of votes cast in a system specifically designed and engineered for the election application;
(B) Be constructed to prevent any voter from voting for more than the allowable number of candidates for any office, to include an audible or visual signal, or both, warning any voter who attempts to vote for more than the allowable number of candidates for any office or who attempts to cast his or her ballot prior to its completion and are constructed to include a visual or audible confirmation, or both, to the voter upon completion and casting of the ballot;

(C) Be constructed to present the entire ballot to the voter, in a series of sequential pages, and to ensure that the voter sees all of the ballot options on all pages before completing his or her vote and to allow the voter to review and change all ballot choices prior to completing and casting his or her ballot;

(D) Be constructed to allow election commissioners to spoil a ballot where a voter fails to properly cast his or her ballot, has departed the polling place and cannot be recalled by a poll clerk to complete his or her ballot;

(E) Be constructed to allow election commissioners, poll clerks or both to designate, mark or otherwise record provisional ballots;

(F) Consist of devices which are independent, nonnetworked voting systems in which each vote is recorded and retained within each device’s internal nonvolatile electronic memory and contain an internal security, the absence of which prevents substitution of any other device;

(G) Store each vote in no fewer than three separate, independent, nonvolatile electronic memory components and that each device contains comprehensive diagnostics to ensure that failures do not go undetected;

(H) Contain a unique, embedded internal serial number for auditing purposes for each device used to activate, retain and record votes;
(I) Be constructed to record all pre-election, election and post-election activities, including all ballot images and system anomalies, in each device’s internal electronic memory and are to be accessible in electronic or printed form;

(J) Be constructed with a battery backup system in each device to, at a minimum, prevent the loss of any votes, as well as all pre-election, election and post-election activities, including all ballot images and system anomalies, stored in the device’s internal electronic memory and to allow voting to continue for two hours of uninterrupted operation in case of an electrical power failure; and

(K) Be constructed to prevent the loss of any votes, as well as all pre-election, election and post-election activities, including all ballot images and system anomalies, stored in each device’s internal electronic memory even in case of an electrical and battery power failure.

§3-4A-11a. Ballots tabulated electronically; arrangement, quantity to be printed, ballot stub numbers.

(a) The board of ballot commissioners in counties using ballots upon which votes may be recorded by means of marking with electronically sensible ink or pencil and which marks are tabulated electronically shall cause the ballots to be printed or displayed upon the screens of the electronic voting system for use in elections.

(b) (1) For the primary election, the heading of the ballot, the type faces, the names and arrangement of offices and the printing of names and arrangement of candidates within each office are to conform as nearly as possible to sections thirteen and thirteen-a, article five of this chapter.

(2) For the general election, the heading of the ballot, the straight ticket positions, the instructions to straight ticket voters, the type faces, the names and arrangement of offices and the printing of names and the arrangement of candidates within each office are to
conform as nearly as possible to section two, article six of this chapter, except as otherwise provided in this article.

(3) Effective with the primary election held in 2016, and thereafter, the following nonpartisan elections are to be separated from the partisan ballot and separately headed in display type with a title clearly identifying the purpose of the election and constituting a separate ballot wherever a separate ballot is required under this chapter:

(A) Nonpartisan elections for judicial offices, by division, of:

(i) Justice of the Supreme Court of Appeals;

(ii) Judge of the circuit court;

(iii) Family court judge; and

(iv) Magistrate;

(B) Nonpartisan elections for Board of Education; and

(C) Any question to be voted upon;

(4) Both the face and the reverse side of the ballot may contain the names of candidates only if means to ensure the secrecy of the ballot are provided and lines for the signatures of the poll clerks on the ballot are printed on a portion of the ballot which is deposited in the ballot box and upon which marks do not interfere with the proper tabulation of the votes.

(5) The arrangement of candidates within each office is to be determined in the same manner as for other electronic voting systems, as prescribed in this chapter. On the general election ballot for all offices, and on the primary election ballot only for those offices to be filled by election, except delegate to national convention, lines for entering write-in votes are to be provided
below the names of candidates for each office, and the number of lines provided for any office shall equal the number of persons to be elected, or three, whichever is fewer. The words “WRITE-IN, IF ANY” are to be printed, where applicable, directly under each line for write-ins. The lines are to be opposite a position to mark the vote.

(c) Except for electronic voting systems that utilize screens upon which votes may be recorded by means of a stylus or by means of touch, the primary election ballots are to be printed in the color of ink specified by the Secretary of State for the various political parties, and the general election ballot is to be printed in black ink. For electronic voting systems that utilize screens upon which votes may be recorded by means of a stylus or by means of touch, the primary ballots and the general election ballot are to be printed in black ink. All ballots are to be printed, where applicable, on white paper suitable for automatic tabulation and are to contain a perforated stub at the top or bottom of the ballot, which is to be numbered sequentially in the same manner as provided in section thirteen, article five of this chapter, or are to be displayed on the screens of the electronic voting system upon which votes are recorded by means of a stylus or touch. The number of ballots printed and the packaging of ballots for the precincts are to conform to the requirements for paper ballots provided in this chapter.

(d) In addition to the official ballots, the ballot commissioners shall provide all other materials and equipment necessary to the proper conduct of the election.

§3-4A-27. Proceedings at the central counting center.

(a) All proceedings at the central counting center are to be under the supervision of the clerk of the county commission and are to be conducted under circumstances which allow observation from a designated area by all persons entitled to be present. The proceedings shall take place in a room of sufficient size and satisfactory arrangement to permit observation. Those persons entitled to be present include all candidates whose names appear on
the ballots being counted or, if a candidate is absent, a representative of the candidate who presents a written authorization signed by the candidate for the purpose and two representatives of each political party on the ballot who are chosen by the county executive committee chairperson. A reasonable number of the general public is also freely admitted to the room. In the event all members of the general public desiring admission to the room cannot be admitted at one time, the county commission shall provide for a periodic and convenient rotation of admission to the room for observation, to the end that each member of the general public desiring admission, during the proceedings at the central counting center, is to be granted admission for reasonable periods of time for observation: Provided, That no person except those authorized for the purpose may touch any ballot or other official records and papers utilized in the election during observation.

(b) All persons who are engaged in processing and counting the ballots are to work in teams consisting of two persons of opposite political parties, and are to be deputized in writing and take an oath that they will faithfully perform their assigned duties. These deputies are to be issued an official badge or identification card which is assigned an identity control number and the deputies are to prominently wear on his or her outer garments the issued badge or identification card. Upon completion of the deputies’ duties, the badges or identification cards are to be returned to the county clerk.

(c) Ballots are to be handled and tabulated and the write-in votes tallied according to procedures established by the Secretary of State, subject to the following requirements:

(1) In systems using ballots marked with electronically sensible ink, ballots are to be removed from the ballot boxes and stacked for the tabulator which separates ballots containing marks for a write-in position. Immediately after tabulation, the valid write-in votes are to be tallied. No write-in vote may be counted for an office unless the voter has entered the name of an official write-in candidate for that office on the line provided, either by writing, affixing a sticker or placing an ink-stamped impression thereon;
(2) In systems using ballots in which votes are recorded upon screens with a stylus or by means of touch, the ballots are to be tabulated according to the processes of the system. Systems using ballots in which votes are recorded upon screens with a stylus or by means of touch are to tally write-in ballots simultaneously with the other ballots;

(3) When more than one person is to be elected to an office and the voter desires to cast write-in votes for more than one official write-in candidate for that office, the voter shall mark the location appropriate for the voting system in the write-in location for that office. When there are multiple write-in votes for the same office and the combination of choices for candidates on the ballot and write-in choices for the same office exceed the number of candidates to be elected, the ballot is to be duplicated or hand counted, with all votes for that office rejected;

(4) Write-in votes for nomination for any office and write-in votes for any person other than an official write-in candidate are to be disregarded; and

(5) When a voter casts a straight ticket vote and also marks the location for a write-in vote for an office, the straight ticket vote for that office is to be rejected, whether or not a vote can be counted for a write-in candidate; and

(6) (5) Official write-in candidates are those who have filed a write-in candidate’s certificate of announcement and have been certified according to the provisions of section four-a, article six of this chapter.

(d) If any ballot is damaged or defective so that it cannot properly be counted by the automatic tabulating equipment, a true duplicate copy is to be made of the damaged ballot in the presence of representatives of each political party on the ballot and substituted for the damaged ballot. All duplicate ballots are to be clearly labeled “duplicate” and are to bear a serial number which is recorded on the damaged or defective ballot and on the replacement ballot.
(e) The returns printed by the automatic tabulating equipment at the central counting center, to which have been added write-in and other valid votes, are, when certified by the clerk of the county commission, to constitute the unofficial preliminary returns of the county. Upon completion of the count, the returns are to be open to the public by posting a summary of the returns as have been tabulated at the central counting center. Upon completion of the canvass, the returns are to be posted as tabulated precinct by precinct.

(f) If for any reason it becomes impracticable to count all or a part of the ballots with tabulating equipment, the county commission may direct that they be counted manually, following as far as practicable the provisions governing the counting of paper ballots.

(g) As soon as possible after the completion of the count, the clerk of the county commission shall have the vote-recording devices properly boxed or securely covered and removed to a proper and secure place of storage.

ARTICLE 6. CONDUCT AND ADMINISTRATION OF ELECTIONS.

§3-6-2. Preparation and form of general election ballots.

(a) All ballots prepared under the provisions of this section are to contain:

(1) The name and ticket of each party which is a political party under the provisions of section eight, article one of this chapter;

(2) The name chosen as the party name by each group of citizens which has secured nomination for two or more candidates by petition under the provisions of section twenty-three, of this article five of this chapter; and

(3) The names of every candidate for any office to be voted for at the election whose nomination in the primary election, nomination by petition or nomination by appointment to fill a vacancy on the ballot has been certified and filed according to law and no others.
(b) The provisions of paragraphs (C) and (D), subdivision (2), section thirteen, article five of this chapter; subdivision (3) of said section; paragraphs (A) and (B), subdivision (4) of said section; and subdivisions (6), (7), (8) and (9) of said section pertaining to the preparation and form of primary election ballots shall likewise apply to general election ballots.

(c) (1) For all ballot systems, the ballot heading is to be in display type and contain the words “Official Ballot, General Election” and the name of the county and the month, day and year of the election.

(2) After the heading, each ballot is to contain, laid out in parallel columns, rows or pages as required by the particular voting system, the party emblem the position for straight party voting for each party and the name of each party as prescribed in subsection (a) of this section. On paper ballots, the position for straight party voting is to be a heavy circle, three-fourths inch in diameter, surrounded by the words “For a straight ticket mark within this circle” printed in bold six-point type. On all other ballots or ballot labels, the positions for straight party voting is to be marked “Straight Party Ticket”.

(3) The party whose candidate for president received the highest number of votes at the last preceding presidential election is to be placed in the left, or first column, row or page, as is appropriate to the voting system. The party which received the second highest vote is to be next and so on. Any groups or third parties which did not have a candidate for president on the ballot in the previous presidential election are to be placed in the sequence in which the final certificates of nomination by petition were filed.

(4) (A) The following general instructions for straight party voters are to be printed in no smaller than eight point bold type: “IF YOU MARKED A STRAIGHT TICKET: When you mark any individual candidate in a different party, that vote will override your straight party vote for that office. When you mark any individual candidate in a different party for an office where more than one will be elected, YOU MUST MARK EACH OF YOUR CHOICES FOR
THAT OFFICE because your straight ticket vote will not be counted for that office”. The last sentence of the instructions may not be included on any ballot which does not contain any office or division where more than one candidate will be elected.

On paper ballots, the general instructions are to be placed below the party name and across the top of all columns, followed by a heavy line separating them from the rest of the ballot. Provided, that the instructions may be centered among the columns running the full width of the ballot. On ballots marked with electronically sensible ink, the general instructions are to be placed after the position for straight voting and before any office:

(B) The following specific instructions are to be printed on the ballot for any partisan election for an office or division to which more than one candidate is to be elected: “If you marked a straight ticket and you mark any candidate in a different party for this office, you must mark all your choices for this office because your straight ticket vote will not be counted for this office”.

On paper ballots, the specific instructions are to be placed below the office name of any partisan office where more than one is to be elected and across the top of all columns for that office or centered among the columns before the names of any candidates. On all other ballots and ballot labels, the specific instructions are to be placed above or to the side of the names of the candidates as the voting system requires:

(5) (4) For all ballots, any columns, rows or sections in which the ticket of one party appears are to be clearly separated from the other columns, rows or sections by a heavy line or other clear division. For each party, the offices are to be arranged in the order prescribed in section thirteen-a, article five of this chapter under the appropriate tickets, which are to be headed “National Ticket”, “State Ticket” and “County Ticket”. The number of pages, columns or rows, where applicable, may be modified to meet the limitations of ballot size and composition requirements, subject to approval by the Secretary of State.
(d) The arrangement of names within each office for all ballot systems is to be as follows:

(1) In elections for presidential electors, the names of the candidates for president and vice president of each party are to be placed beside a brace with a single voting position, so that a vote for any presidential candidate is a vote for the electors of the party for which the candidates were named.

(2) The order of names of candidates for any office or division for which more than one is to be elected is determined as prescribed in section thirteen-a, article five of this chapter: Provided, That the drawing by lot is to be conducted on the seventieth day next preceding the date of the general election, beginning at 9:00 a.m.

(3) In any office where more than one person is to be elected, the names of the candidates for the office are to be staggered so that no two candidates for that office appear directly opposite any other candidate, as shown in the example below: Provided, That if the voting system cannot accurately tabulate any ballot due to this requirement, the ballot may be adjusted so that it is accurately tabulated. However, each candidate shall be separated by a thin line to distinguish between each candidate.

(4) Each voting system is to provide a means for voters to vote for any person whose name does not appear on the ticket by writing it with pen or pencil or by using stamps, stickers, tapes, labels or other means of writing in the name of a candidate which does not interfere with the tabulation of the ballot.

(A) In paper ballot systems which allow for write-ins to be made directly on the ballot, a blank square and a blank line equal to the space which would be occupied by the name of the candidate is to be placed under the proper office for each vacancy in nomination and for an office for which more than one is to be elected, any vacancy is to appear after any other candidates for the office. If no write-in lines are included on the ballot, specific instructions are to be added to the top of the ballot notifying the voter that a write-in vote may be cast by writing the name and office on any location on the front of the ballot.

(B) In machine and electronically tabulated ballot systems in which write-in votes must be made in a place other than on the ballot, if there is a vacancy in nomination leaving fewer candidates in any party than can be elected to that office, the words “No Candidate Nominated” are to be printed in the space that would be occupied by the name of the candidate and for an office for which more than one is to be elected, any vacancy is to appear after any other candidates for the office. Notwithstanding any other provision of this code, if there are multiple vacant positions on a ballot for one office, the multiple vacant positions which would otherwise be filled with the words “No Candidate Filed” may be replaced with a brief detailed description, approved by the Secretary of State, indicating that there are no candidates listed for the vacant positions.

(5) In a general election in any county in which unexpired terms of the board of education are to be filled by election, a separate
section or page of the ballot is to be set off by means clearly separating the nonpartisan ballot from the ballot for the political party candidates and is to be headed “Nonpartisan Board of Education”.

(e) Any constitutional amendment is to be placed following all offices, followed by any other issue upon which the voters are to cast a vote. The heading for each amendment or issue is to be printed in large, bold type according to the requirements of the resolution authorizing the election.

(f) The board of ballot commissioners may not place any issue on the ballot for election which is not specifically authorized under the West Virginia Constitution or statutes or which has not been properly ordered by the appropriate governmental body charged with calling the election.

(g) A ballot may not offer a voter the option of voting a straight party ticket by one mark or punch.

§3-6-3. Publication of sample ballots and lists of candidates.

(a) The ballot commissioners of each county shall prepare a sample official general election ballot for all political party or independent nominees with no party affiliation unless those persons have actually been nominated by an independent party, nonpartisan candidates for election, if any, and all ballot issues to be voted for at the general election, according to the provisions of this article and articles four and four-a of this chapter, as appropriate to the voting system, and for any ballot issue, according to the provisions of law authorizing the election.

(b) The facsimile sample general election ballot shall be published as follows:
(1) For counties in which two or more qualified newspapers publish a daily newspaper, not more than twenty-six nor less than twenty days preceding the general election, the ballot commissioners shall publish the sample official general election ballot as a Class I-0 legal advertisement in the two qualified daily newspapers of different political parties within the county having the largest circulation in compliance with the provisions of article three, chapter fifty-nine of this code;

(2) For counties having no more than one daily newspaper, or having only one or more qualified newspapers which publish weekly, not more than twenty-six nor less than twenty days preceding the primary election, the ballot commissioners shall publish the sample official general election ballot as a Class I legal advertisement in the qualified newspaper within the county having the largest circulation in compliance with the provisions of article three, chapter fifty-nine of this code; and

(3) Each facsimile sample ballot shall be a photographic reproduction of the official sample ballot or ballot pages and shall be printed in a size no less than sixty-five percent of the actual size of the ballot, at the discretion of the ballot commissioners: Provided, That when the ballots for the precincts within the county contain different senatorial, delegate, magisterial or executive committee districts or when the ballots for precincts within a city contain different municipal wards, the facsimile shall be altered to include each of the various districts in the appropriate order. If, in order to accommodate the size of each ballot, the ballot or ballot pages must be divided onto more than one page, the arrangement and order shall be made to conform as nearly as possible to the arrangement of the ballot. The publisher of the newspaper shall submit a proof of the ballot and the arrangement to the ballot commissioners for approval prior to publication.
(c) The ballot commissioners of each county shall prepare, in
the form and manner prescribed by the Secretary of State, an
official list of offices and nominees for each office which will
appear on the general election ballot for each political party or as independent nominees with no party affiliation unless those persons have actually been nominated by an independent party
and, as the case may be, for the nonpartisan candidates to be voted
for at the general election:

(1) All information which appears on the ballot, including the
names of parties for which a straight ticket may be cast, instructions
relating to straight ticket voting, instructions as to the number of
candidates for whom votes may be cast for the office, any additional
language which will appear on the ballot below the name of the office, any identifying information relating to the candidates, such as his or her residence and magisterial district or presidential

they appear on the ballot, from left to right or from top to bottom, as
the case may be;

(B) The offices shall be listed in the same order in which they
appear on the ballot;

(C) The candidates within each office for which one is to be
elected shall be listed in the order they appear on the ballot, from left
to right or from top to bottom, as the case may be, and the
candidate’s political party affiliation or independent status shall be
indicated by the one- or two-letter initial specifying the affiliation, placed in parenthesis to the right of the candidate’s name; and

(D) (C) The candidates within each office for which more than one is to be elected shall be arranged by political party groups in the order they appear on the ballot and the candidate’s affiliation shall be indicated as provided in paragraph (E) (B) of this subdivision.

(d) The official list of candidates and issues as provided in subsection (c) of this section shall be published as follows:

(1) For counties in which two or more qualified newspapers publish a daily newspaper, on the last day on which a newspaper is published immediately preceding the general election, the ballot commissioners shall publish the official list of nominees and issues as a Class I-0 legal advertisement in the two qualified daily newspapers of different political parties within the county having the largest circulation in compliance with the provisions of article three, chapter fifty-nine of this code;

(2) For counties having no more than one daily paper, or having only one or more qualified newspapers which publish weekly, on the last day on which a newspaper is published immediately preceding the general election, the ballot commissioners shall publish the sample official list of nominees and issues as a Class I legal advertisement in the qualified newspaper within the county having the largest circulation in compliance with the provisions of article three, chapter fifty-nine of this code;

(3) The publication of the official list of nominees for each party and for nonpartisan candidates shall be in single or double columns, as required to accommodate the type size requirements as follows:

(B) The designation of the straight ticket party positions shall be printed in all capital letters in bold type no smaller than twelve point and the title of the office shall be printed in bold type no smaller than twelve point and any voting instructions or other language printed below the title shall be printed in bold type no smaller than ten point; and

(C) The names of the candidates and the initial within parenthesis designating the candidate’s affiliation shall be printed in all capital letters in bold type no smaller than ten point and the residence information shall be printed in type no smaller than ten point; and

(4) When any ballot issue is to appear on the ballot, the title of that ballot shall be printed in all capital letters in bold type no smaller than twelve point. The text of the ballot issue shall appear in no smaller than eight point type. The ballot commissioners may require the publication of the ballot issue under this subsection in the facsimile sample ballot format in lieu of the alternate format.

(e) Notwithstanding the provisions of subsections (c) and (d) of this section, beginning with the general election to be held in the year two thousand, the ballot commissioners of any county may choose to publish a facsimile sample general election ballot, instead of the official list of candidates and issues, for purposes of the last publication required before any general election.

§3-6-5. Rules and procedures in election other than primaries.

The provisions of article one of this chapter relating to elections generally shall govern and control arrangements and election officials for the conduct of elections under this article. The following rules and procedures shall govern the voting for candidates in general and special elections:

(a) If the voter desires to vote a straight ticket or in other words, for each and every candidate for one party for whatever office nominated, for an official write-in candidate, the voter shall either:
(1) Mark the position designated for a straight ticket in the manner appropriate to the voting system; or

(2) Mark the voting position for each and every candidate of the chosen party in the manner appropriate to the voting system:

(b) If the voter desires to vote a mixed ticket, or in other words, for candidates of different parties, the voter shall either:

(1) Omit marking any straight ticket voting position and mark, in the manner appropriate to the voting system, the name of each candidate for whom he or she desires to vote on whatever ticket the name may be; or

(2) Mark the position designated for a straight ticket for the party for some of whose candidates he or she desires to vote and then mark the name of any candidate of any other party for whom he or she may desire to vote, in which case the cross mark in the circular space above the name of the party straight ticket mark will cast his or her vote for every candidate on the ticket of the party except for offices for which candidates are marked on other party tickets and the marks for the candidates will cast a vote for them; or

(3) Write with ink or other means or affix a sticker or label or place an ink-stamped impression of the name of an official write-in candidate for an office for whom he or she desires to vote in the space designated for write-in votes for the particular voting system or for paper ballot systems, write or place the name and office designation in any position on the face of the ballot which makes the intention of the voter clear as to both the office and the candidate chosen.

(c) If in marking either a straight or mixed ticket as above defined, a straight ticket voting position is marked, and also one or more marks are made for candidates on the same ticket for offices for which candidates on other party tickets are not individually marked, the marks before the name of candidate on the ticket so marked shall be treated as surplusage and ignored.
(d) When a voter casts a straight ticket vote and also writes in any name for an office, the straight ticket vote for that office shall be rejected, whether or not a vote can be counted for a write-in candidate.

(e) The Secretary of State may proscribe devices for casting write-in votes which would cause mechanical difficulty with voting machines or electronic devices or which would obliterate or deface a paper ballot or any portion thereof, but the Secretary of State shall preserve the right to vote by a write-in vote for those candidates who have filed and have been certified as official write-in candidates under the provisions of section four-a of this article.

(f) (b) If the voter marks more names than there are persons to be elected to an office or if, for any reason, it is impossible to determine the voter’s choice for an office to be filled, the ballot shall not be counted for the office. The intention of the voter shall be deemed to be clear if the write-in vote cast for an office contains both the first and last name of an official write-in candidate for that office; and if no two official write-in candidates for that office share a first or last name, either the first name or last name alone shall be deemed to express the clear intention of the voter.

(g) (c) Except as otherwise specifically provided in this chapter, no ballot shall be rejected for any technical error which does not make it impossible to determine the voter’s choice.

§3-6-6. Ballot counting procedures in paper ballot systems.

When the polls are closed in an election precinct where only a single election board has served, the receiving board shall perform all of the duties prescribed in this section. When the polls are closed in an election precinct where two election boards have served, both the receiving and counting boards shall together conclude the counting of the votes cast, the tabulating and summarizing of the number of the votes cast, unite in certifying and attesting to the returns of the election and join in making out the certificates of the
result of the election provided for in this article. They \textit{shall} may not adjourn until the work is completed.

In all election precincts, as soon as the polls are closed and the last voter has voted, the receiving board shall proceed to ascertain the result of the election in the following manner:

(a) In counties in which the clerk of the county commission has determined that the absentee ballots should be counted at the precincts in which the absent voters are registered, the receiving board must first process the absentee ballots and deposit the ballots to be counted in the ballot box. The receiving board shall then proceed as provided in subsections (b) and (c) of this section. In counties in which the absentee ballots are counted at the central counting center, the receiving board shall proceed as provided in subsections (b) and (c) of this section.

(b) The receiving board shall ascertain from the pollbooks and record on the proper form the total number of voters who have voted. The number of ballots challenged shall be counted and subtracted from the total and the result should equal the number of ballots deposited in the ballot box. The commissioners and clerks shall also report, over their signatures, the number of ballots spoiled and the number of ballots not voted.

(c) The procedure for counting ballots, whether performed throughout the day by the counting board as provided in section thirty-three, article one of this chapter or after the close of the polls by the receiving board or by the two boards together, shall be as follows:

(1) The ballot box shall be opened and all votes shall be tallied in the presence of the entire election board;

(2) One of the commissioners shall take one ballot from the box at a time and shall determine if the ballot is properly signed by the two poll clerks of the receiving board. If not properly signed, the
ballot shall be placed in an envelope for the purpose, without unfolding it. Any ballot which does not contain the proper signatures shall be challenged. If an accurate accounting is made for all ballots in the precinct in which the ballot was voted and no other challenge exists against the voter, the ballot shall be counted at the canvas. If properly signed, the commissioner shall hand the ballot to a team of commissioners of opposite politics, who shall together read the votes marked on the ballot for each office. Write-in votes for election for any person other than an official write-in candidate shall be disregarded. When a voter casts a straight ticket vote and also casts a write-in vote for an office, the straight ticket vote for that office shall be rejected whether or not a vote can be counted for a write-in candidate;

(3) The commissioner responsible for removing the ballots from the box shall keep a tally of the number of ballots as they are removed and whenever the number shall equal the number of voters entered on the pollbook minus the number of provisional ballots, as determined according to subsection (a) of this section, any other ballot found in the ballot box shall be placed in the same envelope with unsigned ballots not counted, without unfolding the same or allowing anyone to examine or know the contents thereof, and the number of excess ballots shall be recorded on the envelope;

(4) Each poll clerk shall keep an accurate tally of the votes cast by marking in ink on tally sheets, which shall be provided for the purpose, so as to show the number of votes received by each candidate for each office and for and against each issue on the ballot; and

(5) When the reading of the votes is completed, the ballot shall be immediately strung on a thread.

(a) The Legislature finds that in 1989, this chapter was enacted to provide for the reorganization of the executive branch of state government pursuant to the findings set forth under section one, article one of this chapter. This section was enacted as part of that legislation to effect the transfer of agencies and board and related entities into the various departments created within the executive branch of government. Since its initial enactment, the Legislature has amended and reenacted this section on a number of occasions, in most instances to modify the initial reorganization within the executive branch of government. The Legislature further finds that the structure of this section by which it provides an extensive list of executive agencies in a single section of the Code of West Virginia renders this section unnecessarily lengthy and complicated. The designation of a separate statute for each of the agencies and entities as they are organized in subsections (a) through (l) of this section as provided pursuant to the amendment and reenactment of this section in 2015 would reduce the unnecessary length and complexity of the statute without altering the Legislature’s intent in providing for the organization of the executive branch of state government pursuant to the original findings set forth under section one, article one of this chapter and the Legislature’s subsequent amendments and reenactments of various sections of this chapter. The Legislature therefore finds and declares that the amendment and reenactment of this section and the further amendment of the Code of West Virginia by adding thereto twelve new sections, designated sections one-a, one-b, one-c, one-d, one-e, one-f, one-g, one-h, one-i, one-j, one-k, and one-l of this article, are solely for the purpose of designating a separate statute for each of the agencies and entities as they are organized in subsections (a) through (l) of this section as provided pursuant to the amendment and reenactment of this section in 2015 and for the purpose of providing corrective descriptions of an agency and corrective code references and deleting references to agencies, boards or commissions that have been repealed. The Legislature further finds and declares that except as otherwise provided in this section, the amendment and reenactment of this section and the enactment of the new sections may not be construed to have altered or modified the application of any other provision of this code to the agencies and entities described in
those sections, and that all other provisions of this code, to the extent applicable to those sections, as well as the remaining subsections of this section, shall apply in like manner to the agencies and entities described in those new sections.

(m) (b) Except for powers, authority and duties that have been delegated to the secretaries of the departments by the provisions of section two of this article, the position of administrator and the powers, authority and duties of each administrator and agency are not affected by the enactment of this chapter.

(n) (c) Except for powers, authority and duties that have been delegated to the secretaries of the departments by the provisions of section two of this article, the existence, powers, authority and duties of boards and the membership, terms and qualifications of members of the boards are not affected by the enactment of this chapter. All boards that are appellate bodies or are independent decision makers shall not have their appellate or independent decision-making status affected by the enactment of this chapter.

(o) (d) Any department previously transferred to and incorporated in a department by prior enactment of this section means a division of the appropriate department. Wherever reference is made to any department transferred to and incorporated in a department created in section two, article one of this chapter, the reference means a division of the appropriate department and any reference to a division of a department so transferred and incorporated means a section of the appropriate division of the department.

(p) (e) When an agency, board or commission is transferred under a bureau or agency other than a department headed by a secretary pursuant to this section, that transfer is solely for purposes of administrative support and liaison with the Office of the Governor, a department secretary or a bureau. Nothing in this section extends the powers of department secretaries under section two of this article to any person other than a department secretary and nothing limits
or abridges the statutory powers and duties of statutory commissioners or officers pursuant to this code.

Whereas, Sadly, Nick Cavallaro lost his life in the battle at Fosse, Belgium, on January 3, 1945, leaving behind his mother, brother, sister Louise and a host of other family and friends; and

Senators M. Hall, Snyder, Prezioso, D. Hall and Stollings offered the following resolution:

Senate Concurrent Resolution No. 62—Requesting the Joint Committee on Government and Finance establish a select committee consisting of ten members, five being from the House of Delegates and five being from the Senate, with no more than three members from each house from a single political party, to be responsible for a comprehensive study of West Virginia’s racing and gaming industries as provided herein, including making recommendations
and coordinating professional services procured in furtherance of the objectives herein described.

Whereas, West Virginia’s racing industry has a long and storied history, beginning in 1787 when George Washington’s youngest brother Charles raced horses through the streets of what would become Charles Town, West Virginia; and

Whereas, Formal horse racing tracks were established in West Virginia some years later, with the racetrack at Charles Town opening in 1933 and the precursor to Mountaineer Racetrack being founded in 1937. West Virginia greyhound racing followed with the opening of Wheeling Downs, a facility which found its racing origin in 1937 and in 1985, Tri-State Greyhound Park, now Mardi Gras Casino and Racetrack, opened; and

Whereas, In an effort to protect and preserve West Virginia’s celebrated racing industry, the West Virginia Legislature voted to allow slot-machine style video lottery in 1994 and casino-style table games in 2007 at our state’s four racetracks, pending approval by the local electorate, in accord with the provisions of article twenty-two-c, chapter twenty-nine of the Code of West Virginia; and

Whereas, Each of the four counties in West Virginia where a racetrack is located ultimately exercised their referendum rights under section seven, article twenty-two-c, chapter twenty-nine of the Code of West Virginia and voted to approve racetrack video lottery and table games at their respective racetrack facilities based on the promise that a portion of the revenues generated would be used to preserve and protect live racing, as well as promote the industry of breeding thoroughbred horses and greyhounds, while creating green space; and

Whereas, Invariably, after five years, section seven, article twenty-two-c, chapter twenty-nine of the Code of West Virginia also provides for a subsequent local county referendum to revisit the
decision by local voters to approve casino style gaming at racetrack venues; and

Whereas, The “racinos” in West Virginia not only employ thousands of West Virginians and generate hundreds of millions of dollars of revenue for state government, the statutory structure by which they are licensed and operate has fostered the development of an industry of live racing and breeding of thoroughbreds and greyhounds, as provided for in the statute; and

Whereas, Many individuals, companies, partnerships and entities have made and continue to make substantial investments in West Virginia, based on the statutory framework designed to preserve and protect live racing and promote the industry of breeding of thoroughbred horses and greyhound racing stock; and

Whereas, In addition to supplementing racing and local governments, moneys generated by gaming at our state’s racetracks have been used to bolster our state’s general revenue fund as well as the state’s Development Office Promotion Fund, debt reduction funds, State Capitol improvements, the Division of Tourism, finance public school construction through the West Virginia School Building Authority, fund the Promise Scholarship Program, contribute to racetrack employee pensions and capital improvements for racetrack facilities; and

Whereas, West Virginia’s racino model proved most successful, becoming a reliable source of income for the state, but now the model is confronted with declining levels of performance for West Virginia; and

Whereas, Until recent years, West Virginia’s four racinos benefitted from modest market competition in neighboring states, thereby claiming a large portion of the gaming market east of the Mississippi River; and

Whereas, Our surrounding states have learned from our successful gaming regulations and have implemented similar
models, allowing for new casino properties to open near to West Virginia’s borders in Ohio, Pennsylvania and Maryland; and

Whereas, Though West Virginia’s four “racinos” once enjoyed little competition for regional gaming dollars, there are now approximately 20 new casinos in neighboring states with which West Virginia’s “racinos” must compete for revenues and others under yet to become active which increases the competition for regional gaming dollars; and

Whereas, Due to this competition, racing and gaming revenues upon which our state has become so dependent are decreasing at a rapid pace which creates a diminishing amount of money for all of the distributees of money generated by “racinos” and allocated in accordance with current law; and

Whereas, In addition to the loss of revenues for the state, the jobs of thousands of West Virginia families who rely on the live racing and gaming industries for their livelihood are also at risk; and

Whereas, The time has come to revisit our racing and gaming industry structure to determine a course of action that is in the best interest of West Virginia and its people; therefore, be it

Resolved by the Legislature of West Virginia:

That the Joint Committee on Government and Finance is hereby requested to establish a select committee consisting of ten members, five being from the House of Delegates and five being from the Senate, with no more than three members from each house from a single political party, to be responsible for a comprehensive study of West Virginia’s racing and gaming industries as provided herein, including making recommendations and coordinating professional services procured in furtherance of the objectives herein described; and, be it
Further Resolved, That the Select Committee to be established by the Joint Committee on Government and Finance is hereby requested to perform a comprehensive study of West Virginia’s racing and gaming industries, which shall include, but not be limited to: (1) A review of all related laws, rules and regulations associated with all facets of live racing of greyhounds and thoroughbred horses, with recommendations for the modernization and streamlining of the same; (2) a review of all laws, rules and regulations associated with the business of both greyhound breeding and thoroughbred breeding, with recommendations for modernization and streamlining of the same; (3) a comprehensive review of the flow of revenues generated from racetrack video lottery, table games and any other sources contributing to money administered by the West Virginia Lottery in the form of excess lottery proceeds as a means of information for state policymakers; (4) a comprehensive investigation of appropriate governing structures for live racing and gaming activities from neighboring jurisdictions and beyond, with a recommendation of revisions and/or statutory overhaul of the governance of all forms of gaming in West Virginia, including general lottery, adult video lottery, racetrack video lottery and table games; (5) a comparative analysis of the job functions of the West Virginia Racing Commissions with comparable agencies in jurisdictions with a similar racing presence to determine the appropriateness of staff and funding levels with recommendations as to appropriate levels of each; (6) an analysis of the staff and funding levels associated with administration of all facets of the West Virginia Lottery, recognizing its unique configuration of administering conventional lottery operations, adult video lottery, racetrack video lottery and table games, and recommendations for economizing the operations of the West Virginia Lottery consistent with best industry practices; (7) an analysis of innovative and creative additions to West Virginia’s gaming mix, including: innovative and creative ways to more efficiently and profitably administer West Virginia’s gaming activities, ways to provide for convenient consumer access to products offered within the array of gaming products offered by West Virginia, ways to provide policymakers with the status of internet gaming in West Virginia, and ways to identify any and all
prospects which may enhance revenue generation by the entirety of West Virginia’s gaming activities of all descriptions through new and additional games or manner of delivery of products to the lottery and gaming consuming public; and (8) the continuing legal effects, if any, of referendums on gaming heretofore undertaken to approve such in Jefferson, Hancock, Ohio and Kanawha counties, as well as the legal effects, if any, to reexercise those rights as provided by statute; and to provide any and all suggestions for the improvement, modernization, efficiency and economization of West Virginia’s entire complement of gaming activities, including live racing; and, be it

Further Resolved, That stakeholder representatives in all facets of West Virginia’s gaming industry of lottery, “racinos”, live racing, greyhound breeding and thoroughbred breeding be actively engaged as part of any study process; and, be it

Further Resolved, That the Joint Committee on Government and Finance report to the regular session of the Legislature, 2016, on its findings, conclusions and recommendations, together with drafts of any legislation necessary to effectuate its recommendations; and, be it

Further Resolved, That the expenses necessary to conduct this study, to prepare a report and to draft necessary legislation be paid from legislative appropriations to the Joint Committee on Government and Finance.

On motion of Senator Kessler, the following amendments to the Finance committee amendment to the bill (Eng. Com. Sub. for H. B. No. 2478) were reported by the Clerk and considered simultaneously:

On page one, before the article heading, by inserting the following:

**CHAPTER 18. EDUCATION.**

On page three, after section seven, by adding the following:

**CHAPTER 18A. SCHOOL PERSONNEL.**
ARTICLE 4. SALARIES, WAGES AND OTHER BENEFITS.

§18A-4-1b. Salary increase for teachers in 2015.

The Legislature hereby finds that in order to provide a quality free education to the children of West Virginia, we must pay teachers a competitive salary. Paying teachers a competitive salary will ensure that we are able to keep the best and brightest teachers here in West Virginia, rather than leaving for additional pay in another state. Paying teachers a competitive salary will also provide an incentive for students choosing a career to give further consideration to teaching. Paying teachers a competitive salary will create an additional reason that a strong teacher from another area of the country may choose to move to West Virginia and teach in our school system. Accordingly, the Legislature further finds that it is imperative to the well-being of the state that we increase teacher salaries in order to provide our students with the best possible education. Therefore, the beginning July 1, 2015, the state minimum salaries for teachers shall be in accordance with section two of this article, plus an additional $2,000. The Legislature shall continue to strive to increase salaries for teachers so that we are competitive with our surrounding states and able to recruit and retain the best educators for the students of West Virginia.

And,

By striking out the enacting section and inserting in lieu thereof a new enacting section, to read as follows:

That §22-3-11 of the Code of West Virginia, 1931, as amended, be amended and reenacted to read as follows:

**ARTICLE 3. SURFACE COAL MINING AND RECLAMATION ACT.**

§22-3-11. Bonds; amount and method of bonding; bonding requirements; special reclamation tax and funds; prohibited acts; period of bond liability.

(a) After a surface mining permit application has been approved pursuant to this article, but before a permit has been issued, each operator shall furnish a penal bond, on a form to be prescribed and furnished by the secretary, payable to the State of West Virginia and conditioned upon the operator faithfully performing all of the requirements of this article and of the permit. The penal amount of the bond shall be not less than $1,000 nor more than $5,000 for each acre or fraction of an acre: Provided, That the minimum amount of bond furnished for any type of reclamation bonding shall be $10,000. The bond shall cover: (1) The entire permit area; or (2) that increment of land within the permit area upon which the operator will initiate and conduct surface mining and reclamation operations within the initial term of the permit. If the operator chooses to use incremental bonding, as succeeding increments of surface mining and reclamation operations are to be initiated and conducted within the permit area, the operator shall file with the secretary an additional bond or bonds to cover the increments in accordance with
this section: *Provided, however*, That once the operator has chosen to proceed with bonding either the entire permit area or with incremental bonding, the operator shall continue bonding in that manner for the term of the permit.

(b) The period of liability for bond coverage begins with issuance of a permit and continues for the full term of the permit plus any additional period necessary to achieve compliance with the requirements in the reclamation plan of the permit.

(c) (1) The form of the bond shall be approved by the secretary and may include, at the option of the operator, surety bonding, collateral bonding (including cash and securities), establishment of an escrow account, self bonding or a combination of these methods. If collateral bonding is used, the operator may elect to deposit cash or collateral securities or certificates as follows: Bonds of the United States or its possessions of the Federal Land Bank or of the Homeowners’ Loan Corporation; full faith and credit general obligation bonds of the State of West Virginia or other states and of any county, district or municipality of the State of West Virginia or other states; or certificates of deposit in a bank in this state, which certificates shall be in favor of the department. The cash deposit or market value of the securities or certificates shall be equal to or greater than the penal sum of the bond. The secretary shall, upon receipt of any deposit of cash, securities or certificates, promptly place the same with the Treasurer of the State of West Virginia whose duty it is to receive and hold the deposit in the name of the state in trust for the purpose for which the deposit is made when the permit is issued. The operator making the deposit is entitled, from time to time, to receive from the State Treasurer, upon the written approval of the secretary, the whole or any portion of any cash, securities or certificates so deposited, upon depositing with him or her in lieu thereof cash or other securities or certificates of the classes specified in this subsection having value equal to or greater than the sum of the bond.
(2) The secretary may approve an alternative bonding system if it will: (A) Reasonably assure that sufficient funds will be available to complete the reclamation, restoration and abatement provisions for all permit areas which may be in default at any time; and (B) provide a substantial economic incentive for the permittee to comply with all reclamation provisions.

(d) The secretary may accept the bond of the applicant itself without separate surety when the applicant demonstrates to the satisfaction of the secretary the existence of a suitable agent to receive service of process and a history of financial solvency and continuous operation sufficient for authorization to self insure.

(e) It is unlawful for the owner of surface or mineral rights to interfere with the present operator in the discharge of the operator’s obligations to the state for the reclamation of lands disturbed by the operator.

(f) All bond releases shall be accomplished in accordance with the provisions of section twenty-three of this article.

(g) (1) The Special Reclamation Fund previously created is continued. The Special Reclamation Water Trust Fund is created within the State Treasury into and from which moneys shall be paid for the purpose of assuring a reliable source of capital to reclaim and restore water treatment systems on forfeited sites. The moneys accrued in both funds, any interest earned thereon and yield from investments by the State Treasurer or West Virginia Investment Management Board are reserved solely and exclusively for the purposes set forth in this section and section seventeen, article one of this chapter. The funds shall be administered by the secretary who is authorized to expend the moneys in both funds for the reclamation and rehabilitation of lands which were subjected to permitted surface mining operations and abandoned after August 3, 1977, where the amount of the bond posted and forfeited on the land is less than the actual cost of reclamation, and where the land is not eligible for abandoned mine land reclamation funds under article two of this
chapter. The secretary shall develop a long-range planning process for selection and prioritization of sites to be reclaimed so as to avoid inordinate short-term obligations of the assets in both funds of such magnitude that the solvency of either is jeopardized. The secretary may use both funds for the purpose of designing, constructing and maintaining water treatment systems when they are required for a complete reclamation of the affected lands described in this subsection. The secretary may also expend an amount not to exceed ten percent of the total annual assets in both funds to implement and administer the provisions of this article and, as they apply to the Surface Mine Board, articles one and four, chapter twenty-two-b of this code.

(2) (A) A tax credit shall be granted against the tax imposed by subsection (i) of this section to any mine operator who performs reclamation or remediation at a bond forfeiture site which otherwise would have been reclaimed using funds from the Special Reclamation Fund or Special Reclamation Water Trust Fund. The credit authorized pursuant to this subdivision is retroactive and may be claimed for reclamation or remediation performed on or after January 1, 2012: Provided, That for reclamation or remediation performed prior to July 13, 2013, no tax credit may be granted unless a written application for the tax credit was submitted to the Tax Commissioner prior to September 1, 2014. The amount of credit shall be determined as provided in this section.

(B) The amount of a reclamation tax credit granted under this subsection shall be equal to the amount that the Tax Commissioner determines, based on the project costs, as shown in the records of the secretary, that would have been spent from the Special Reclamation Fund or Special Reclamation Water Trust Fund to accomplish the reclamation or remediation performed by the mine operator, including expenditures for water treatment.

(C) To claim the credit, the mine operator shall from time to time file with the Tax Commissioner a written application seeking the amount of the credit earned. Within thirty days of receipt of the
application, the Tax Commissioner shall issue a certification of the amount of tax credit, if any, to be allocated to the eligible taxpayer. Should the amount of the credit certified be less than the amount applied for, the Tax Commissioner shall set forth in writing the reason for the difference. Should no certification be issued within the thirty-day period, the application will be deemed certified. Any decision by the Tax Commissioner is appealable pursuant to the provisions of the West Virginia Tax Procedure and Administration Act set forth in article ten, chapter eleven of the code. Applications for certification of the proposed tax credit shall contain the information and be in the detail and form as required by the Tax Commissioner.

(h) The Tax Commissioner may promulgate rules for legislative approval pursuant to the provisions of article three, chapter twenty-nine-a of this code to carry out the purposes of this subdivision two, subsection (g) of this section.

(i) (1) Rate, deposits and review.

(A) For tax periods commencing on and after July 1, 2009, every person conducting coal surface mining shall remit a special reclamation tax of fourteen and four-tenths cents per ton of clean coal mined, the proceeds of which shall be allocated by the secretary for deposit in the Special Reclamation Fund and the Special Reclamation Water Trust Fund.

(B) For tax periods commencing on and after July 1, 2012, the rate of tax specified in paragraph (A) of this subdivision is discontinued and is replaced by the rate of tax specified in this paragraph. For tax periods commencing on and after July 1, 2012, every person conducting coal surface mining shall remit a special reclamation tax of twenty-seven and nine-tenths cents per ton of clean coal mined, the proceeds of which shall be allocated by the secretary for deposit in the Special Reclamation Fund and the Special Reclamation Water Trust Fund. Of that amount, fifteen cents
per ton of clean coal mined shall be deposited into the Special Reclamation Water Trust Fund.

(C) The tax shall be levied upon each ton of clean coal severed or clean coal obtained from refuse pile and slurry pond recovery or clean coal from other mining methods extracting a combination of coal and waste material as part of a fuel supply.

(D) Beginning with the tax period commencing on July 1, 2009, and every two years thereafter, the special reclamation tax shall be reviewed by the Legislature to determine whether the tax should be continued: Provided, That the tax may not be reduced until the Special Reclamation Fund and Special Reclamation Water Trust Fund have sufficient moneys to meet the reclamation responsibilities of the state established in this section.

(2) In managing the Special Reclamation Program, the secretary shall: (A) Pursue cost-effective alternative water treatment strategies; and (B) conduct formal actuarial studies every two years and conduct informal reviews annually on the Special Reclamation Fund and Special Reclamation Water Trust Fund.

(3) Prior to December 31, 2008, the secretary shall:

(A) Determine the feasibility of creating an alternate program, on a voluntary basis, for financially sound operators by which those operators pay an increased tax into the Special Reclamation Fund in exchange for a maximum per-acre bond that is less than the maximum established in subsection (a) of this section;

(B) Determine the feasibility of creating an incremental bonding program by which operators can post a reclamation bond for those areas actually disturbed within a permit area, but for less than all of the proposed disturbance and obtain incremental release of portions of that bond as reclamation advances so that the released bond can be applied to approved future disturbance; and
(C) Determine the feasibility for sites requiring water reclamation by creating a separate water reclamation security account or bond for the costs so that the existing reclamation bond in place may be released to the extent it exceeds the costs of water reclamation.

(4) If the secretary determines that the alternative program, the incremental bonding program or the water reclamation account or bonding programs reasonably assure that sufficient funds will be available to complete the reclamation of a forfeited site and that the Special Reclamation Fund will remain fiscally stable, the secretary is authorized to propose legislative rules in accordance with article three, chapter twenty-nine-a of this code to implement an alternate program, a water reclamation account or bonding program or other funding mechanisms or a combination thereof.

(j) This special reclamation tax shall be collected by the Tax Commissioner in the same manner, at the same time and upon the same tonnage as the minimum severance tax imposed by article twelve-b, chapter eleven of this code is collected: Provided, That under no circumstance shall the special reclamation tax be construed to be an increase in either the minimum severance tax imposed by said article or the severance tax imposed by article thirteen of said chapter.

(k) Every person liable for payment of the special reclamation tax shall pay the amount due without notice or demand for payment.

(l) The Tax Commissioner shall provide to the secretary a quarterly listing of all persons known to be delinquent in payment of the special reclamation tax. The secretary may take the delinquencies into account in making determinations on the issuance, renewal or revision of any permit.

(m) The Tax Commissioner shall deposit the moneys collected with the Treasurer of the State of West Virginia to the credit of the Special Reclamation Fund and Special Reclamation Water Trust Fund.
(n) At the beginning of each quarter, the secretary shall advise the Tax Commissioner and the Governor of the assets, excluding payments, expenditures and liabilities, in both funds.

(o) To the extent that this section modifies any powers, duties, functions and responsibilities of the department that may require approval of one or more federal agencies or officials in order to avoid disruption of the federal-state relationship involved in the implementation of the federal Surface Mining Control and Reclamation Act, 30 U. S. C. §1270 by the state, the modifications will become effective upon the approval of the modifications by the appropriate federal agency or official.;

And,

Charleston, West Virginia

Dear President Cole:

Pursuant to the provisions of section fourteen, article VII of the Constitution of West Virginia, I again disapprove and return Enrolled Senate Bill No. 389 for technical reasons.

The bill’s title is deficient. The title states that the bill is amending and reenacting W. Va. Code §30-13-18, but does not provide that it is also amending and reenacting §30-13-13a and §30-13-17. For this reason, I disapprove and return the bill. I urge the Legislature to correct this technical issue, and to return the bill to my desk for signature.
Sincerely,

Earl Ray Tomblin,
Governor.

Without objection, the Senate returned to the third order of business.

A message from The Clerk of the House of Delegates announced the amendment by that body, passage as amended with its House of Delegates amended title, and requested the concurrence of the Senate in the House of Delegates amendments, as to

On motion of Senator Carmichael, the message on the bill was taken up for immediate consideration.

The following House of Delegates amendments to the bill were reported by the Clerk:

By striking out everything after the enacting clause and inserting in lieu thereof the following:

That §18-5-44 of the Code of West Virginia, 1931, as amended, be amended and reenacted to read as follows:

**ARTICLE 5. COUNTY BOARD OF EDUCATION.**

**§18-5-44. Early childhood education programs.**

(a) For the purposes of this section, an “early childhood education program” means a program created under this section for children who have attained the age of four prior to September 1 of
the school year in which the pupil enters children enter the program created in this section

(b) Findings. –

(1) Among other positive outcomes, early childhood education programs have been determined to:

(A) Improve overall readiness when children enter school;

(B) Decrease behavioral problems;

(C) Improve student attendance;

(D) Increase scores on achievement tests;

(E) Decrease the percentage of students repeating a grade; and

(F) Decrease the number of students placed in special education programs;

(2) Quality early childhood education programs improve school performance, and low-quality early childhood education programs may have negative effects, especially for at-risk children;

(3) West Virginia has the lowest percentage of its adult population twenty-five years of age or older with a bachelor’s degree, and the education level of parents is a strong indicator of how their children will perform in school;

(4) During the 2006-2007 school year, West Virginia ranked thirty-ninth among the fifty states in the percentage of school children eligible for free and reduced lunches, and this percentage is a strong indicator of how the children will perform in school;

(5) For the school year 2008-2009, 13,135 students were enrolled in prekindergarten, a number equal to approximately sixty-three percent of the number of students enrolled in kindergarten;
(6) Excluding projected increases due to increases in enrollment in the early childhood education program, projections indicate that total student enrollment in West Virginia will decline by one percent, or by approximately 2,704 students, by the school year 2012-2013;

(7) In part, because of the dynamics of the state aid formula, county boards will continue to enroll four-year-old students to offset the declining enrollments;

(8) West Virginia has a comprehensive kindergarten program for five-year-olds, but the program was established in a manner that resulted in unequal implementation among the counties, which helped create deficit financial situations for several county boards;

(9) Expansion of current efforts to implement a comprehensive early childhood education program should avoid the problems encountered in kindergarten implementation;

(10) Because of the dynamics of the state aid formula, counties experiencing growth are at a disadvantage in implementing comprehensive early childhood education programs; and

(11) West Virginia citizens will benefit from the establishment of quality comprehensive early childhood education programs.

(c) Beginning no later than the school year 2012-2013, and continuing thereafter, county boards shall provide early childhood education programs for all children who have attained the age of four prior to September 1 of the school year in which the pupil enters children enter the early childhood education program. Beginning no later than the school year 2016-2017, and continuing thereafter, these early childhood education programs that are full day and five days shall provide at least four days of instruction per week, shall be available to all children meeting the age requirement set forth in this subsection, provide at least one thousand two hundred minutes of instruction per week and include at least one hundred forty-six instructional days per year.

(d) The program shall meet the following criteria:
(1) It shall be voluntary, except that, upon enrollment, the provisions of section one-a, article eight of this chapter apply to an enrolled student, subject to subdivision (3) (4) of this subsection;

(2) All children meeting the age requirement set forth in this section; shall have the opportunity to enroll in a program that is full day and five;

(3) It shall provide at least four days of instruction per week, provide at least one thousand two hundred minutes of instruction per week and include at least one hundred forty-six instructional days per year; The program may be for fewer than five days per week and may be less than full-day based on family need if a sufficient number of families request such programs and the county board finds that such programs are in the best interest of the requesting families and students: Provided, That the ability of families to request programs that are fewer than five days a week or less than a full day does not relieve the county of the obligation to provide all resident children with the opportunity to enroll in a full-day program and

(3) (4) All children enrolled in an early education program may to withdraw a the child from that program for good cause by notifying the district. Good cause includes, but is not limited to, enrollment of the child in another program or the immaturity of the child. A child withdrawn under this section is not subject to the attendance provisions of this chapter until that child again enrolls in a public school in this state.

(e) Enrollment of students in Head Start, or in any other program approved by the state superintendent as provided in subsection (k) of this section, may be counted toward satisfying the requirement of subsection (c) of this section.

(f) For the purposes of implementation financing, all counties are encouraged to make use of funds from existing sources, including:

(1) Federal funds provided under the Elementary and Secondary Education Act pursuant to 20 U. S. C. §6301, et seq.;
(2) Federal funds provided for Head Start pursuant to 42 U. S. C. §9831, et seq.;

(3) Federal funds for temporary assistance to needy families pursuant to 42 U. S. C. §601, et seq.;

(4) Funds provided by the School Building Authority pursuant to article nine-d of this chapter;

(5) In the case of counties with declining enrollments, funds from the state aid formula above the amount indicated for the number of students actually enrolled in any school year; and

(6) Any other public or private funds.

(g) Each county board shall develop a plan for implementing the program required by this section. The plan shall include the following elements:

(1) An analysis of the demographics of the county related to early childhood education program implementation;

(2) An analysis of facility and personnel needs;

(3) Financial requirements for implementation and potential sources of funding to assist implementation;

(4) Details of how the county board will cooperate and collaborate with other early childhood education programs including, but not limited to, Head Start, to maximize federal and other sources of revenue;

(5) Specific time lines for implementation; and

(6) Any other items the state board may require by policy.
(h) A county board shall submit its plan to the Secretary of the Department of Health and Human Resources. The secretary shall approve the plan if the following conditions are met:

(1) The county board has maximized the use of federal and other available funds for early childhood programs; and

(2) The county board has provided for the maximum implementation of Head Start programs and other public and private programs approved by the state superintendent pursuant to the terms of subsection (k) of this section; and or

(3) If the Secretary of the Department of Health and Human Resources finds that, if the county board has not met one or more of the requirements of this subsection, but that the county board has acted in good faith and the failure to comply was not the primary fault of the county board, then the secretary shall approve the plan. Any denial by the secretary may be appealed to the circuit court of the county in which the county board is located.

(i) The county board shall submit its plan for approval to the state board. The state board shall approve the plan if the county board has complied substantially with the requirements of subsection (g) of this section and has obtained the approval required in subsection (h) of this section.

(j) Every county board shall submit its plan for reapproval by the Secretary of the Department of Health and Human Resources and by the state board at least every two years after the initial approval of the plan and until full implementation of the early childhood education program in the county. As part of the submission, the county board shall provide a detailed statement of the progress made in implementing its plan. The standards and procedures provided for the original approval of the plan apply to any reapproval.
(k) A county board may not increase the total number of students enrolled in the county in an early childhood program until its program is approved by the Secretary of the Department of Health and Human Resources and the state board.

(l) The state board annually may grant a county board a waiver for total or partial implementation if the state board finds that all of the following conditions exist:

(1) The county board is unable to comply either because:

(A) It does not have sufficient facilities available; or

(B) It does not and has not had available funds sufficient to implement the program;

(2) The county has not experienced a decline in enrollment at least equal to the total number of students to be enrolled; and

(3) Other agencies of government have not made sufficient funds or facilities available to assist in implementation.

Any county board seeking a waiver shall apply with the supporting data to meet the criteria for which they are eligible on or before March 25 for the following school year. The state superintendent shall grant or deny the requested waiver on or before April 15 of that same year.

(m) The provisions of subsections (b), (c) and (d), section eighteen of this article relating to kindergarten apply to early childhood education programs in the same manner in which they apply to kindergarten programs.

(n) Annually, the state board shall report to the Legislative Oversight Commission on Education Accountability on the progress of implementation of this section.
(o) Except as required by federal law or regulation, no county board may enroll students who will be less than four years of age prior to September 1 for the year they enter school.

(p) Neither the state board nor the state department may provide any funds to any county board for the purpose of implementing this section unless the county board has a plan approved pursuant to subsections (h), (i) and (j) of this section.

(q) The state board shall promulgate a rule in accordance with the provisions of article three-b, chapter twenty-nine-a of this code for the purposes of implementing the provisions of this section. The state board shall consult with the Secretary of the Department of Health and Human Resources in the preparation of the rule. The rule shall contain the following:

1. Standards for curriculum;
2. Standards for preparing students;
3. Attendance requirements;
4. Standards for personnel; and
5. Any other terms necessary to implement the provisions of this section.

(r) The rule shall include the following elements relating to curriculum standards:

1. A requirement that the curriculum be designed to address the developmental needs of four-year-old children, consistent with prevailing research on how children learn;
(2) A requirement that the curriculum be designed to achieve long-range goals for the social, emotional, physical and academic development of young children;

(3) A method for including a broad range of content that is relevant, engaging and meaningful to young children;

(4) A requirement that the curriculum incorporate a wide variety of learning experiences, materials and equipment, and instructional strategies to respond to differences in prior experience, maturation rates and learning styles that young children bring to the classroom;

(5) A requirement that the curriculum be designed to build on what children already know in order to consolidate their learning and foster their acquisition of new concepts and skills;

(6) A requirement that the curriculum meet the recognized standards of the relevant subject matter disciplines;

(7) A requirement that the curriculum engage children actively in the learning process and provide them with opportunities to make meaningful choices;

(8) A requirement that the curriculum emphasize the development of thinking, reasoning, decision-making and problem-solving skills;

(9) A set of clear guidelines for communicating with parents and involving them in decisions about the instructional needs of their children; and

(10) A systematic plan for evaluating program success in meeting the needs of young children and for helping them to be ready to succeed in school.

(s) The secretary and the state superintendent shall submit a report to the Legislative Oversight Commission on Education
Accountability and the Joint Committee on Government and Finance which addresses, at a minimum, the following issues:

(1) A summary of the approved county plans for providing the early childhood education programs pursuant to this section;

(2) An analysis of the total cost to the state and county boards of implementing the plans;

(3) A separate analysis of the impact of the plans on counties with increasing enrollment; and

(4) An analysis of the effect of the programs on the maximization of the use of federal funds for early childhood programs.

The intent of this subsection is to enable the Legislature to proceed in a fiscally responsible manner and make any necessary program improvements based on reported information prior to implementation of the early childhood education programs.

(t) After the school year 2012-2013, on or before July 1 of each year, each county board shall report the following information to the Secretary of the Department of Health and Human Resources and the state superintendent:

(1) Documentation indicating the extent to which county boards are maximizing resources by using the existing capacity of community-based programs, including, but not limited to, Head Start and child care; and

(2) For those county boards that are including eligible children attending approved, contracted community-based programs in their net enrollment for the purposes of calculating state aid pursuant to article nine-a of this chapter, documentation that the county board is equitably distributing funding for all children regardless of setting.

The Senate proceeded to the sixth order of business.

Senators Yost, Boley and Takubo offered the following resolution:

Senate Concurrent Resolution No. 64—Requesting the Joint Committee on Government and Finance study the benefits, costs and feasibility of developing a federally compliant, public sector state occupational safety and health plan.

Whereas, The West Virginia Occupational Safety and Health Act was enacted into law in 1987 for the safety and health of public employees in the workplace and this Legislature found that safe workplaces reduce the costs to public employers because unsafe or unhealthful work environments result in lost productivity and workers’ compensation expenses; and
Whereas, The safety standards for public employees were last reviewed eighteen years ago and the Division of Labor has been unable to conduct meaningful oversight of public employee safety due to competing demands for scarce resources; and

Whereas, The current Occupational Safety and Health Act specifically exempts two categories of employees in sectors that experience a greater rate of employee injuries and lost hours than in other public employee occupations; and

Whereas, The United States Bureau of Labor Statistics found in 2013 that the incidence rate of on-the-job injuries has increased more rapidly for public health care workers than in any other industry, public or private, but public employee health care workers in West Virginia have been exempted from the protections of our current Occupational Safety and Health Act; and

Whereas, West Virginia currently ranks fifth highest of all the states in rates of worker injuries, fatalities and lost work hours; and

Whereas, In the absence of an active enforcement and ongoing review of broadly accepted safety standards by the state, the United States Occupational Safety and Health Administration has primary, and largely exclusive, jurisdiction over employee protection and enforcement of workplace safety standards for public sector employees in West Virginia; and

Whereas, There are just seven inspectors employed by the U. S. Occupational Safety and Health Administration for oversight of all work environments and employment sectors for the entire state, and based upon the existing number of employers in West Virginia, it would take 173 years for these seven inspectors just to visit every job site in the state; and

Whereas, Federal law allows individual state governments to assume primary jurisdiction and local control over the administration of workplace safety standards and cooperative compliance programs between employers and enforcement staff
when the state meets sufficient criteria in its legislative and regulatory specifications and planned administration of those provisions; and

Whereas, Rather than attempting to assume primary oversight of all employment sectors, a state may opt to develop a state compliance plan limited solely to state public sector, and optionally to local government, employers and employees; and

Whereas, If the state develops a federally compliant plan for its own administration of occupational safety and health programs, the state would be eligible to receive funding from the federal government for fifty percent of the cost of administering the state’s program; therefore, be it

Resolved by the Legislature of West Virginia:

That the Joint Committee on Government and Finance is hereby requested to study the potential benefits, costs and feasibility of developing a federally compliant, public sector state occupational safety and health plan; and, be it

Further Resolved, That the Joint Committee on Government and Finance report to the regular session of the Legislature, 2016, on its findings, conclusions and recommendations, together with drafts of any legislation necessary to effectuate its recommendations; and, be it

Further Resolved, That the expenses necessary to conduct this study, to prepare a report and to draft necessary legislation be paid from legislative appropriations to the Joint Committee on Government and Finance.

Which, under the rules, lies over one day.

Petitions

Senator Sypolt presented a petition from Jennifer Ends and numerous West Virginia residents, opposing Senate Bill No. 337 (Creating workplace freedom act), Engrossed Committee Substitute
for Senate Bill No. 361 (Eliminating prevailing hourly wage requirement for construction of public improvements) and Committee Substitute for Senate Bill No. 14 (Creating Public Charter Schools Act of 2015).

Referred to the Committee on the Judiciary.

At the request of Senator Carmichael, and by unanimous consent, the Senate returned to the fourth order of business.

Senator Walters, from the Committee on Transportation and Infrastructure, submitted the following report, which was received:

Your Committee on Transportation and Infrastructure has had under consideration

Senate Concurrent Resolution No. 65 (originating in the Committee on Transportation and Infrastructure)–Requesting the Joint Committee on Government and Finance study state road funding needs, alternative ways of providing additional funding for new roads and bridges and improvements to existing roads and bridges to foster public safety, health and welfare and promote economic development and jobs.

Whereas, Roads maintained by the Department of Transportation include: (1) 38,684 miles of public roads (2012 Public Certified Mileage); (2) 35,893 miles of state-owned highways; (3) 468 miles of state-owned interstate highway; (4) 88 miles of West Virginia Turnpike; (5) 1,972 miles included in the National Highway System, 23 miles of which are connectors to other modes of transportation such as airports, trains and buses; (6) 6,914 bridges of which 33 percent are more than 100 feet in length; (7) one all-American road; (8) five national byways; (9) 14 state byways; and (10) eight backways; and

Whereas, A 2012 road needs assessment prepared for Governor Tomblin’s Blue Ribbon Commission by Wilbur Smith Associates revealed that during the next 17 years: (1) 51,108 lane miles of road
will need to be improved; (2) 10,401 lane miles will need modernization improvements including lane widening, road reconstruction and shoulder improvements; and (3) 3,402 lane miles will need to be constructed; and

Whereas, The Wilbur Smith needs assessment also concluded that over a 25-year period: (1) 814 bridges will need to be replaced; (2) 577 bridges will need to be widened; (3) eight bridges will need to be straightened; and (4) one bridge will need to be razed; and

Whereas, Road construction, improvements and maintenance are primarily funded by taxes and fees on motor vehicles and motor fuels; and

Whereas, The Wilbur Smith needs assessment projected the funding gap for road construction and maintenance over the next 25 years to be $36.7 billion, excluding new road construction; and the funding gap for bridges construction and maintenance was estimated to be $2.4 billion, excluding the cost of new bridge construction; and

Whereas, Modern, safe roads and bridges are essential to the growth of our communities and the public health, welfare and safety and are critical to economic development and jobs; and

Whereas, Counties need greater ability to influence when and where new roads are constructed and existing roads and bridges are modernized or upgraded, the ability to recommend to the Division of Highways road and bridge construction projects, and to assist in the financing of those projects; therefore, be it

Resolved by the Legislature of West Virginia:

That the Joint Committee on Government and Finance is hereby requested to study state road funding needs, alternative ways of providing additional funding for new roads and bridges and improvements to existing roads and bridges to foster public safety,
health and welfare and promote economic development and jobs; and, be it

_Further Resolved,_ That the Joint Committee on Government and Finance report to the regular session of the Legislature, 2016, on its findings, conclusions and recommendations, together with drafts of any legislation necessary to effectuate its recommendations; and, be it

_Further Resolved,_ That the expenses necessary to conduct this study, to prepare a report and to draft necessary legislation be paid from legislative appropriations to the Joint Committee on Government and Finance.

And reports the same back with the recommendation that it be adopted.

Respectfully submitted,

Chris Walters,
Chair.

Senator Walters, from the Committee on Transportation and Infrastructure, submitted the following report, which was received:

Your Committee on Transportation and Infrastructure has had under consideration

_Senate Concurrent Resolution No. 66_ (originating in the Committee on Transportation and Infrastructure)–Requesting the Joint Committee on Government and Finance study future legislation relating to revenue sources for increased highway and bridge construction and maintenance.

Whereas, Recent research conducted for the Contractors Association of West Virginia noted that 28 percent of West Virginia’s roads eligible for federal aid are rated “not acceptable”
and 35.2 percent of West Virginia’s bridges are either structurally deficient or functionally obsolete; and

Whereas, Such research also identified West Virginia as having the highest rate of traffic fatalities per mile traveled in the country; and

Whereas, Inflation and better fuel economy are two factors that have contributed to a reduced funding level for West Virginia’s infrastructure construction and maintenance; and

Whereas, On March 10, 2015, the West Virginia Senate Committee on Transportation and Infrastructure discussed the merits of Senate Bill No. 478, entitled “Generating and maintaining revenue for road construction and maintenance and infrastructure” and the potential economic impact of an annual $500 million increase in highway and bridge construction investment in West Virginia; and

Whereas, Appropriate funding for highway and bridge maintenance and construction is of utmost importance for the safety and economic prosperity of West Virginians; therefore, be it

Resolved by the Legislature of West Virginia:

That the Joint Committee on Government and Finance is hereby requested to study future legislation relating to revenue sources for increased highway and bridge construction and maintenance; and, be it

Further Resolved, That the Joint Committee on Government and Finance report to the regular session of the Legislature, 2016, on its findings, conclusions and recommendations, together with drafts of any legislation necessary to effectuate its recommendations; and, be it

Further Resolved, That the expenses necessary to conduct this study, to prepare a report and to draft necessary legislation be paid
from legislative appropriations to the Joint Committee on Government and Finance.

Senator Walters, from the Committee on Transportation and Infrastructure, submitted the following report, which was received:

Your Committee on Transportation and Infrastructure has had under consideration

**Senate Concurrent Resolution No. 67** (originating in the Committee on Transportation and Infrastructure)—Requesting the Joint Committee on Government and Finance study the development, funding and construction of a statewide fiber optic broadband infrastructure network, known as the broadband middle mile, to be owned by the state.

Whereas, In building and improving the infrastructure of West Virginia, access to broadband services for all communities is vital; and

Whereas, Access to the Internet and high-speed broadband services is expensive and sometimes nonexistent in many areas of the state, reducing the chances of communities to attract and retain businesses and high-paying jobs; and

Whereas, It is essential to economic development and the viability of many communities that there be statewide access to high-speed, high-quality and inexpensive broadband services; and
Whereas, The National Broadband Plan (NBP) announced by the FCC in March, 2010, visualizes a significantly enhanced commitment to community institutions as an element of the plans for promoting broadband availability; and

Whereas, The plan states that every American community should have affordable access to at least 1 gigabit per second broadband service to anchor institutions such as schools, hospitals and government buildings; and

Whereas, The middle-mile provision is a major issue in reducing the price of broadband Internet service to nonincumbent operators. Internet bandwidth is relatively inexpensive to purchase in bulk at the major Internet peering points; and

Whereas, Middle-mile access, when bought from the incumbent operator, is often much more expensive and typically forms the major expense of nonincumbent broadband ISPs and inhibits communities’ access to high-speed, high-quality and inexpensive broadband services; and

Whereas, The alternative, building out of their own fiber networks, is capital intensive and thus unavailable to most new operators; and

Whereas, For these reasons, many proposals for government broadband stimulus initiatives are directed at building out the middle mile; and

Whereas, The State of West Virginia must work with the NBP to develop a plan for broadband middle-mile infrastructure development and to create a separate infrastructure fund for broadband middle-mile infrastructure projects; therefore, be it

Resolved by the Legislature of West Virginia:

That the Joint Committee on Government and Finance is hereby requested to study the development, funding and construction of a
statewide fiber optic broadband infrastructure network, known as the broadband middle mile, to be owned by the state; and, be it

Further Resolved, That the West Virginia Network (WVNET) develop a statewide broadband middle-mile infrastructure draft plan and make recommendations to the Joint Committee on Government and Finance on how such a network may be realized; and, be it

Further Resolved, That the Joint Committee on Government and Finance report to the regular session of the Legislature, 2016, on its findings, conclusions and recommendations, together with drafts of any legislation necessary to effectuate its recommendations; and, be it

Further Resolved, That the expenses necessary to conduct this study, to prepare a report and to draft necessary legislation be paid from legislative appropriations to the Joint Committee on Government and Finance.
