# Guide to the State of West Virginia Executive Budget Account Detail for FY 2025

This document provides detailed budget information by organization and fund for West Virginia State Government. The budgetary information is organized by the three branches of Government: Legislative, Judicial, and Executive (including the Constitutional Offices).

The State of West Virginia's financial system has organized the various spending units of state government into the following hierarchy:

- Government Branch (Legislative, Judicial, and Executive)
- Cabinet (example: Election Cabinet; Department of Administration; Department of Health and Human Resources)
- Department (example: Secretary of State; Division of Purchasing; Human Rights Commission)
- Fund (assigned to a specific department)
- Appropriation (used by all funds of state government, but tied to a specific fund for spending authority.)
- Object Code (a more detailed level of information on how an appropriation is budgeted/spent, examples: office supplies, vehicle purchases, and travel expenses.)

For purposes of the Governor's Recommendation, in this document data at the object code level is rolled up to a summary level of Personal Services, Employee Benefits, Current Expenses, Repairs and Alterations, Buildings, Equipment, Land, and Other Assets. This summary information is then presented at the appropriation level for the Governor's Recommendations in the Budget Bill for appropriated funds.

## **Account Summary**

The first page of information for each organization provides a brief department description as provided by the department. Following the first page for each department is detailed information about the individual funds in the department.

## ***Column Data:***

Information provided is the FY 2023 Actual expenditures (from prior year appropriations and reappropriated), FY 2024 Budgeted expenditures (current fiscal year and reappropriated), FY 2025 Current-Level Request, and the Governor's FY 2025 Recommendation. The FY 2025 columns do not include any reappropriated appropriations that may be authorized for expenditure in FY 2025.

The **Prior Year Actual** columns show the total actual expenditures for FY 2023 including any reappropriated funds that were available and expended. The column provides the detail by appropriation and major spending summary for each fund. The full-time equivalents (FTE) reflect the filled permanent FTEs as of June 30, 2023.

The Current Year **Budgeted** and **Requested** columns show total budgets for each agency. The Current Year Budgeted is a reflection of information on the approved expenditure schedules for FY 2024 prior to the beginning of the 2024 Regular Legislative session and includes amounts that have been reappropriated from prior year unexpended appropriations. The FTE for the Budgeted is the total approved budgeted permanent FTEs (filled and vacant) as of November 30, 2023. The Requested columns are the agency FY 2025 current-level request based on guidelines established for the Appropriation Requests that were due to the State Budget Office as of September 1, 2023.

The **Recommended** columns provide the detail of the Governor's recommendation for FY 2025 by appropriation and major spending summary categories as listed in the FY 2025 Budget Bill submitted by the Governor. The FTE Recommended typically reflects the approved positions as of November 30, 2023, plus any increase of positions due to the recommendation of improvement requests or other adjustments.

***Fund Class:***

**General** includes the General Revenue Fund.

**Federal** includes amounts for federally funded programs. Some federal funds within state government derive their federal spending authority by provisions of the West Virginia Code and are not itemized in the Budget Bill. This column may display funds that do not appear in the Budget Bill.

**Special** includes the amounts for the state's Appropriated Special Revenue Funds. Some funds within state government include appropriations that are not specifically listed in the Budget Bill. They are used as specified in West Virginia Code to allow for the transfer of money to other accounts and are not part of the operating funds of the agency. An example is appropriation 42600 – Transfers.

**Lottery** includes amounts for the Appropriated Regular and Excess Lottery Funds. It is worth noting that there are a few Lottery Funds that contain spending authority for "companion" Special Revenue Funds as provided in West Virginia Code. Examples include appropriation 24000 – SBA School Construction in Fund 3951 of the State Department of Education, and Fund 4908 – Community and Technical College Capital Improvement Fund that pays the debt service from Lottery but the bond proceeds are expended from Special Revenue fund 4908. Also listed as Lottery are the collection and transfer funds administered by the Lottery Commission that are specified in West Virginia Code to allow for the transfer of money to other accounts and are not part of the operating funds of the Lottery Commission.

**State Road Fund** includes amounts for the State Road Fund (including federal funds).

**Other** includes amounts for funds that are not itemized in the Budget Bill but derive spending authority from general law and provisions of the West Virginia Code.

| <p>Department Description</p> <p>The Commission on Uniform State Laws consists of three bipartisan members appointed by the Governor pursuant to the terms of WV Code 29-1A-4. This Commission works with similar ones that serve each of the 50 states and the territorial possessions of the United States. Its members serve on drafting committees of the national conference, as well as special and select committees of that body, and annually meet in a national conference to promulgate uniform laws that are made available to state legislative bodies.</p> <p>The mission of the Commission of Uniform State Laws is to develop, promulgate, and encourage passage of statutes in West Virginia that are uniform and compatible with those of other states so as to avoid conflicts of law and to preempt federal legislation in as many areas as possible. The commission counsels and confers with the West Virginia Legislature and participates in a national conference.</p> | <p>Funding is Recommended as Follows:<br/>(Description of funding for improvements above current level is in parenthesis.)</p> <hr/> <p>General Revenue<br/>Fund 0214        \$45,550</p> |

| <p>Department Description</p> <p>The Public Employees Grievance Board is a five person board appointed by the Governor by and with the advice of the senate for overlapping terms of three years. It sets the procedures for the grievance process for the employees of the executive branch, county school systems, and institutions of higher education throughout the State. ALJs also interpret the statutes and rules affecting the employment of state, education, and higher education personnel. The Grievance Board also provides a neutral and certified record of the cases appealed to the Judicial Branch from the grievance process, and mediation services at all levels of the grievance process as an alternative means of dispute resolution.</p> <p>Mission:</p> <p>-The mission of the West Virginia Public Employees Grievance Board is to provide a fair, consistent, and expedient administrative process for resolving employment disputes between the employers and employees of the State's executive branch, public institutions of higher education, county boards of education, and county health departments.</p> <p>Goals/Objectives:</p> <p>-Provide group specific training as needed regarding the grievance process to employees, employers and their representatives.</p> <p>-Process all grievances in a timely manner.</p> | <p>Funding is Recommended as Follows:<br/>(Description of funding for improvements above current level is in parenthesis.)</p> <p>(Recommendation includes an average of 5% pay raise for employees and associated employee benefit costs.)</p> <hr/> <p>General Revenue<br/>Fund 0220      \$1,213,226</p> |

| <p>Department Description</p> <p>Pierpont Community &amp; Technical College is a West Virginia public postsecondary institution located in Fairmont, W.V. It was established in W.V. State Code and is under direction of the Community and Technical College System (CTCS) of W.V.</p> <p>The mission of Pierpont Community &amp; Technical College is to provide accessible, responsive, comprehensive education that works with a vision of empowering individuals to transform their lives through education.</p> <p>Pierpont focuses its efforts on its 13-county service region (Barbour, Braxton, Calhoun, Doddridge, Harrison, Lewis, Marion, Monongalia, Preston, Randolph, Taylor, Upshur) for most academic and workforce development programs. With specialized programs, such as the Aviation Maintenance program which is the only program of its kind in the state of West Virginia, the recruiting scope is broadened a bit. The faculty and staff at Pierpont have worked to cultivate strong relationships with high school and vocational education centers throughout our service areas. This is evidenced by Pierpont's presence with course locations at many high schools and Technical Centers throughout the services area. Further, Pierpont has assumed a leadership role in the regional Tech Prep Consortium. Additionally, Pierpont has established partnerships with 4-year institutions such as Fairmont State University, West Virginia University, Wesleyan College, and Alderson Broaddus University to encourage graduates to continue their education beyond the associate degree.</p> <p>Pierpont is approved by the Higher Learning Commission to offer three Associate of Arts and 23 Associate of Applied Science degrees with 21 subsets, six Certificate of Applied Science degrees, and 14 Advanced Skill/Skill sets that may be taken within programs of study or stand alone and numerous non-credit programs.</p> <p>Pierpont's goal is to provide programs needed by those in the geographic service region, to the extent provided by its financial and human resources and its assigned role in the State's system of public higher education. Pierpont's five-year Strategic Priorities for the institution include a focus on the goal areas of Student Success, Strengthen Academic Excellence, Continuously Improve the Organization, and Support Business, Industry, and Community Partners.</p> | <p>Funding is Recommended as Follows:<br/>(Description of funding for improvements above current level is in parenthesis.)</p> <p>(Recommendation includes an average of 5% pay raise for employees and associated employee benefit costs.)</p> <hr/> <p>General Revenue<br/>Fund 0597        \$8,699,120</p> |

| <p>Department Description</p> <p>The Geological and Economic Survey carries out timely, relevant, and credible geoscience investigations and activities to provide publicly available information and services concerning the State's natural resources, their appropriate utilization, and conservation.</p> <p>The Geological and Economic Survey consists of six research and service groups:</p> <ol style="list-style-type: none"> <li>1. Coal Resources - Studies the quantity, quality, location, and mined areas of coal resources within the state. Resulting products include maps, reports, and electronically available data for utilization by public and private sectors.</li> <li>2. Oil and Gas - Conducts applied research at statewide, regional, and local reservoir scales for the state's conventional and unconventional oil and gas resources and carbon sequestration opportunities. Provides basic information for the State's oil and gas industry and the general public.</li> <li>3. Geoscience - Conducts applied research for the development of geologic and geographic maps and identifies geologic hazards, environmental geologic studies, digital cartography, and remote sensing. Conducts geologic mapping, which creates bedrock geologic and surficial geologic maps through fieldwork, analysis of remote sensing data, and geochemical analysis, and makes these maps available to the public. Defines areas of karst or karst potential.</li> <li>4. Geographic Information System - In partnership with state, federal, county, and local agencies, develops a comprehensive, standardized, public domain, and digital cartographic database of West Virginia.</li> <li>5. Information Services - Provides programming and technical information support for agency research efforts, facilitates accumulation, documentation, and categorization of results and interpretations of agency research, and provides public availability and access to geologic data and information.</li> <li>6.
